(57) **CLAIM**

The ornamental design for a ring, as shown and described.

**DESCRIPTION**

The article embodying the design is intended to be worn as a jewelry ring.

FIG. 1 is a perspective side view of the ring with the component units spaced close together.

FIG. 2 is a side planar view of the ring.

FIG. 3 is a side perspective view of the ring design with the component units spaced apart.

FIG. 4 is a top perspective view of a first component unit of the ring, shown separately for completeness of illustration.

FIG. 5 is a side planar view of said first component unit of the ring.

FIG. 6 is a side perspective view of a second component unit of the ring, shown separately for completeness of illustration.

FIG. 7 is a side planar view of the second component unit of the ring.

FIG. 8 is a top perspective view of the first component unit of a third component unit of the ring, shown separately for completeness of illustration; and,

FIG. 9 is a side planar view of the first component unit and the third component unit of the ring.
