(57) **CLAIM**

The ornamental design for a vehicle front bumper cover, shown and described.

**DESCRIPTION**

FIG. 1 is a left side elevational view of a left vehicle front bumper cover (both the left and right fenders being mirror images and only one is shown);

FIG. 2 is a front elevational view of the vehicle front bumper cover;

FIG. 3 is a rear elevational view of the vehicle front bumper cover;

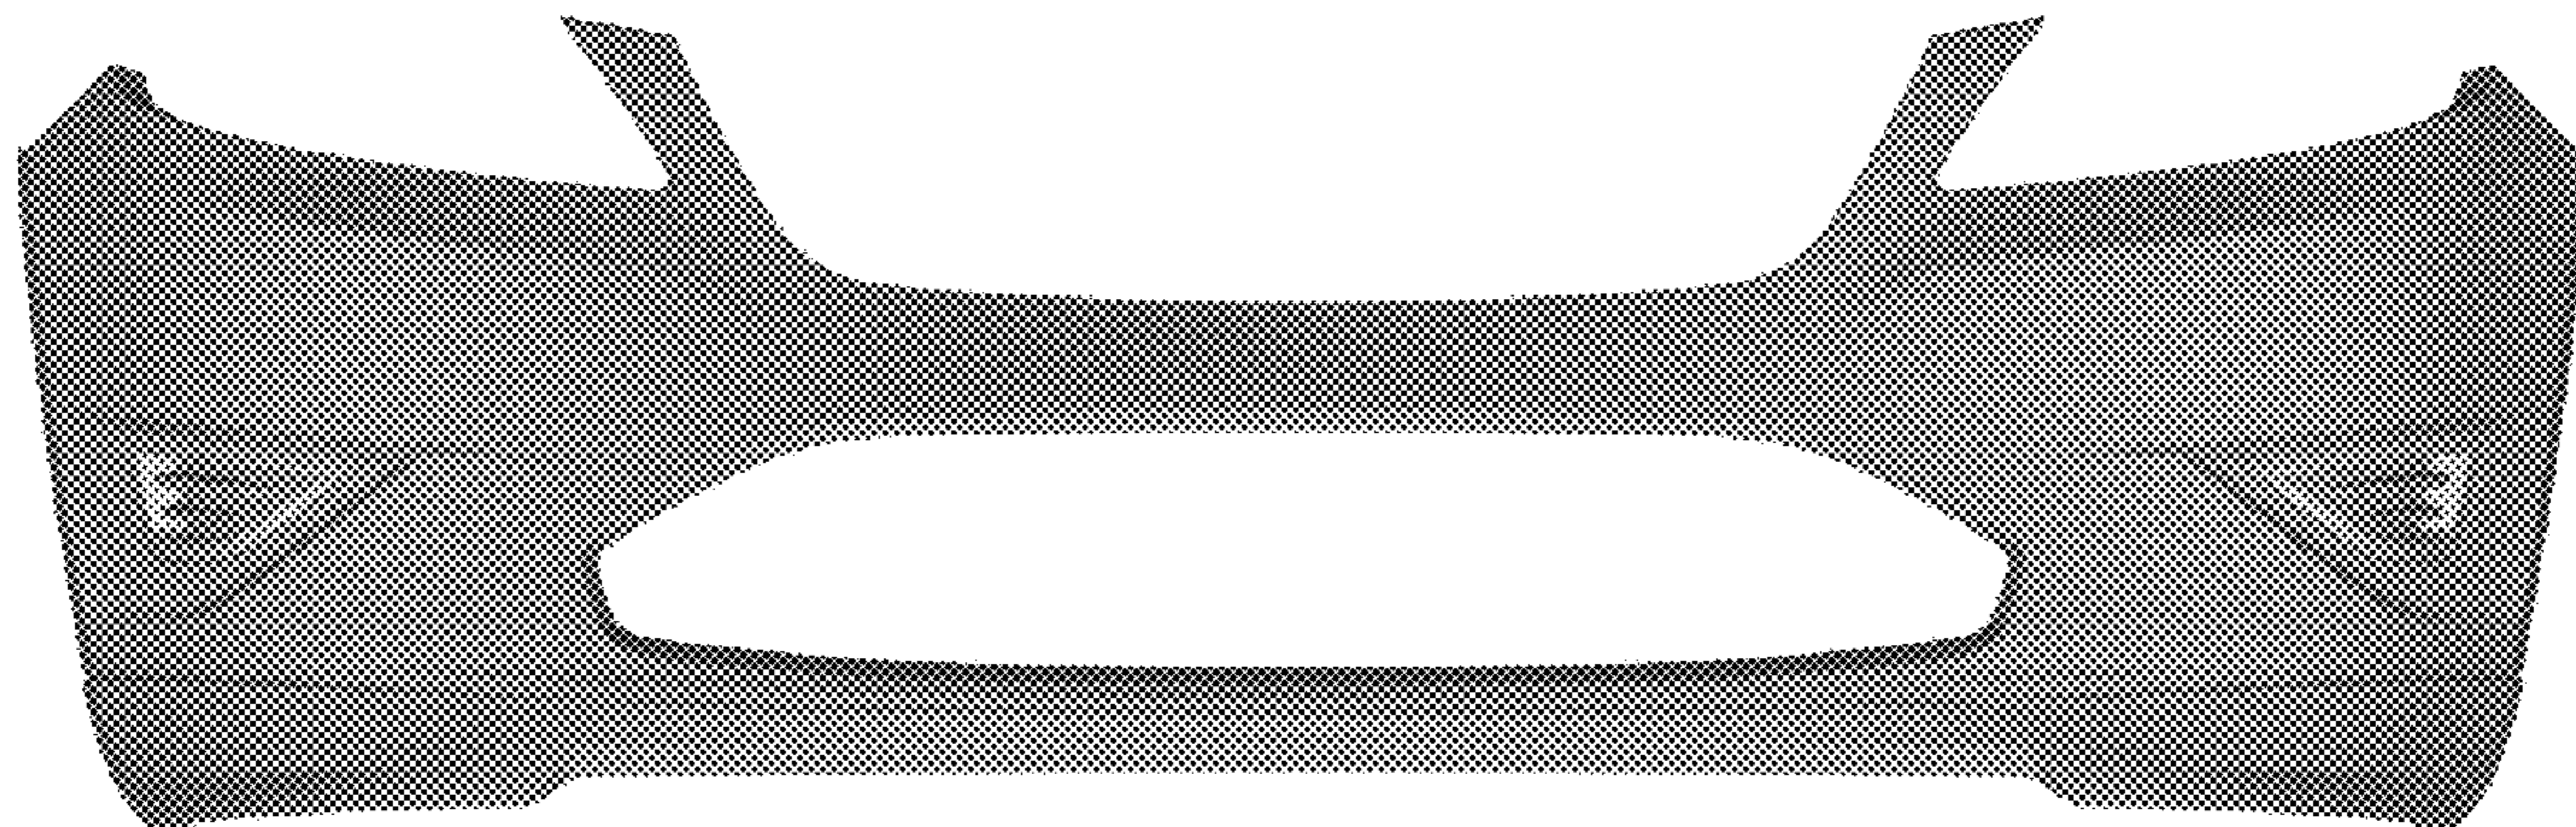

FIG. 4 is right side elevational view of the vehicle front bumper cover;

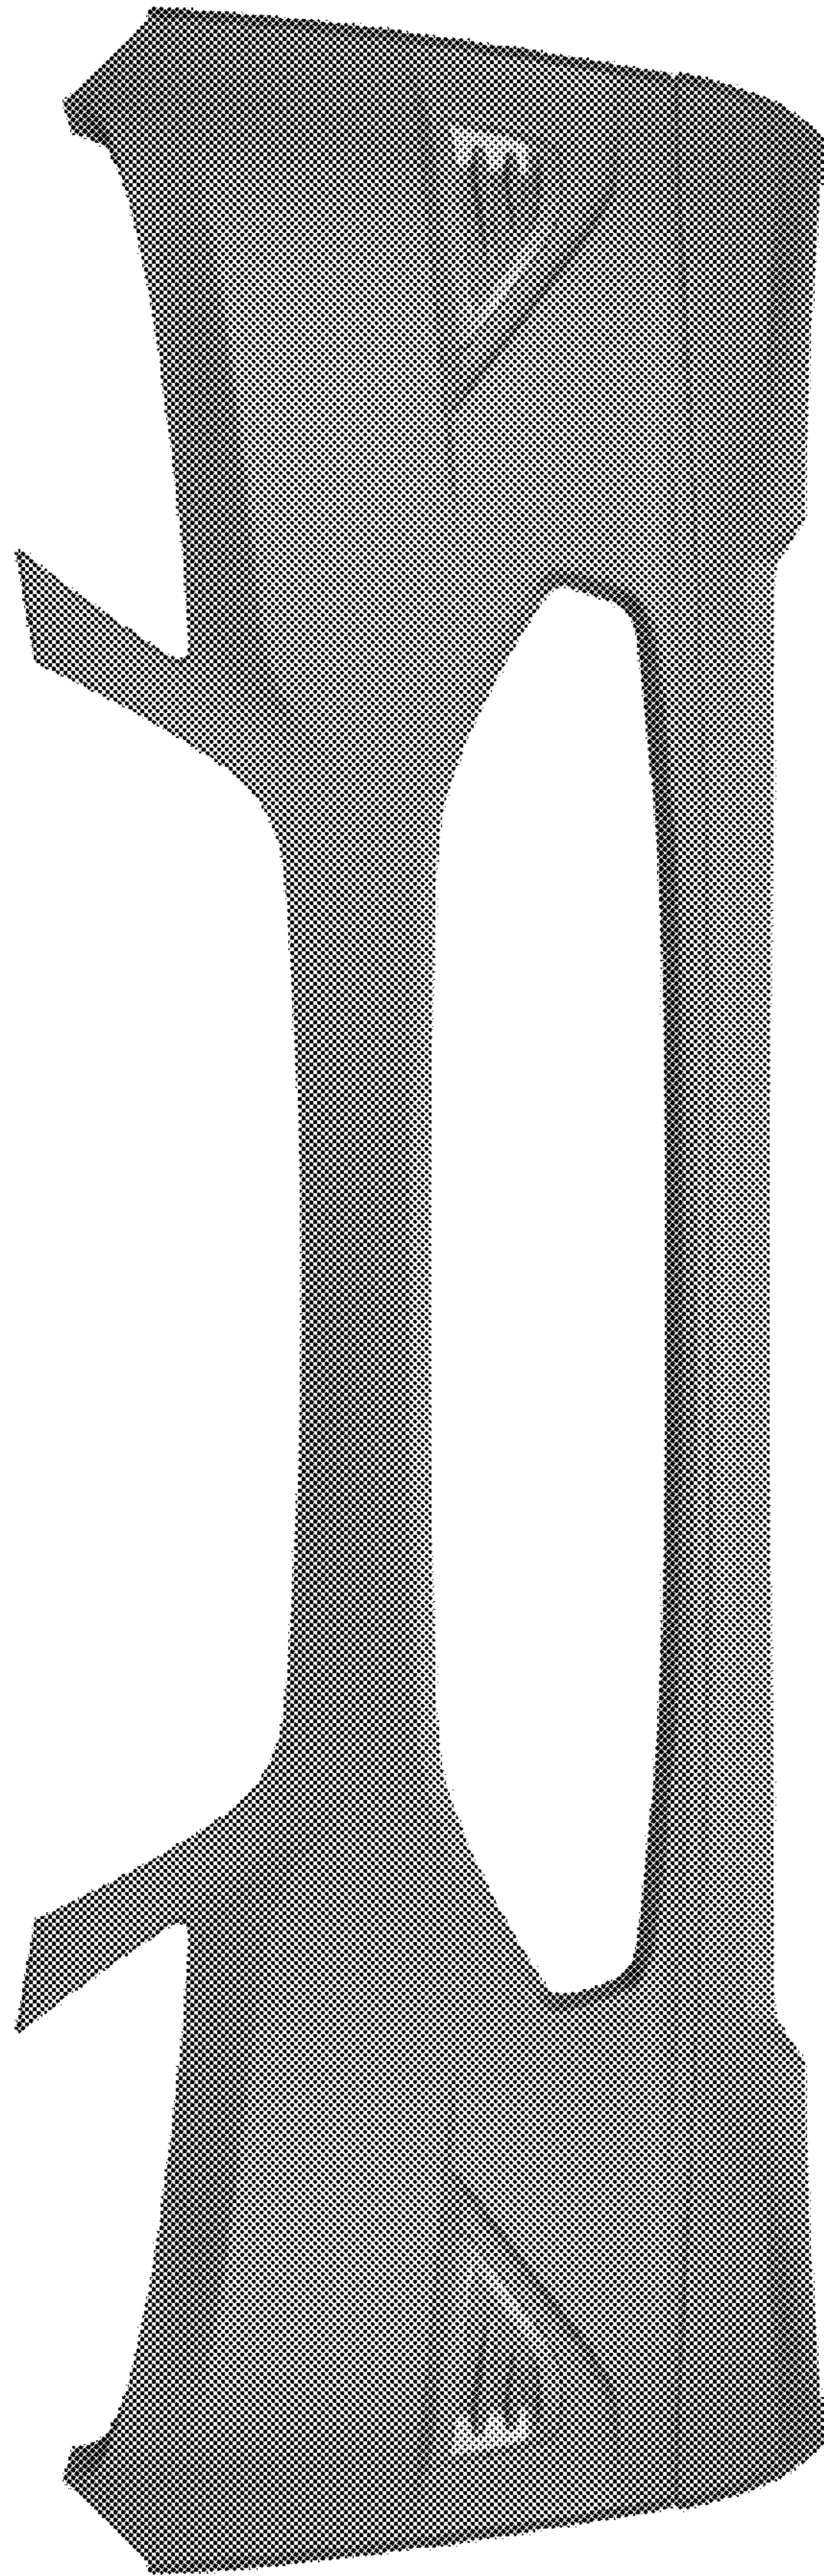

FIG. 5 is a top plan view of the vehicle front bumper cover; and,

FIG. 6 is a bottom plan view of the vehicle front bumper cover.

The vehicle front bumper cover is styled independently of adjacent vehicle panels. Shading is used to illustrate the curvature of the part and not color. Any functional features of the vehicle front bumper cover are not claimed. Views are orthogonal projections rendered from computer aided design data. The various views are not necessarily to scale in order to better illustrate the design.
