(57) **CLAIM**

The ornamental design for a hummingbird window feeder with ant moat, as shown and described.

DESCRIPTION

FIG. **1** is a front perspective view of a hummingbird window feeder with ant moat showing our new design, the feed ports are shown in broken lines and form no part of the present invention;

FIG. **2** is a front view thereof;

FIG. **3** is a rear view thereof;

FIG. **4** is a left side view thereof;

FIG. **5** is a right side view thereof;

FIG. **6** is a top view thereof;

FIG. **7** is a bottom view thereof;

FIG. **8** is a rear perspective view thereof; and,

FIG. **9** is a rear perspective view of the hummingbird window feeder shown with mounting hardware in the form of a suction cup mount and feed ports in broken lines and forming part of the present invention.
