(57) **CLAIM**

I claim the ornamental design for a measuring spoon system, as shown and described.

DESCRIPTION

FIG. **1** is an exploded perspective view of a measuring spoon system, illustrated with an implement and a measuring spoon in a detached configuration, showing my new design;

FIG. **2** is a perspective view of the invention, illustrated with the implement and the measuring spoon in an attached configuration;

FIG. **3** is a front elevational view of the measuring spoon of the invention;

FIG. **4** is a rear elevational view of the measuring spoon of the invention;

FIG. **5** is a right-side elevational view of the measuring spoon of the invention;

FIG. **6** is a left-side elevational view of the measuring spoon of the invention;

FIG. **7** is a top plan view of the measuring spoon of the invention;

FIG. **8** is a bottom plan view of the measuring spoon of the invention;

FIG. **9** is a right-side elevational view of the implement of the invention;

FIG. **10** is a left-side elevational view of the implement of the invention;

FIG. **11** is a front elevational view of the implement of the invention;

FIG. **12** is a rear elevational view of the implement of the invention;

FIG. **13** is a top plan view of the implement of the invention; and,

FIG. **14** is a bottom plan view of the implement of the invention.

The measuring spoon and implement are shown separately for clarity of illustration.
