(57) **CLAIM**

The ornamental design for the wireless light with on/off switch, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of the wireless light with on/off switch in accordance with the present invention;

FIG. 2 is a front elevational view of the wireless light with on/off switch in accordance with the present invention;

FIG. 3 is a back elevational view of the wireless light with on/off switch in accordance with the present invention;

FIG. 4 is a left side view of the wireless light with on/off switch in accordance with the present invention shown separately for ease of illustration;

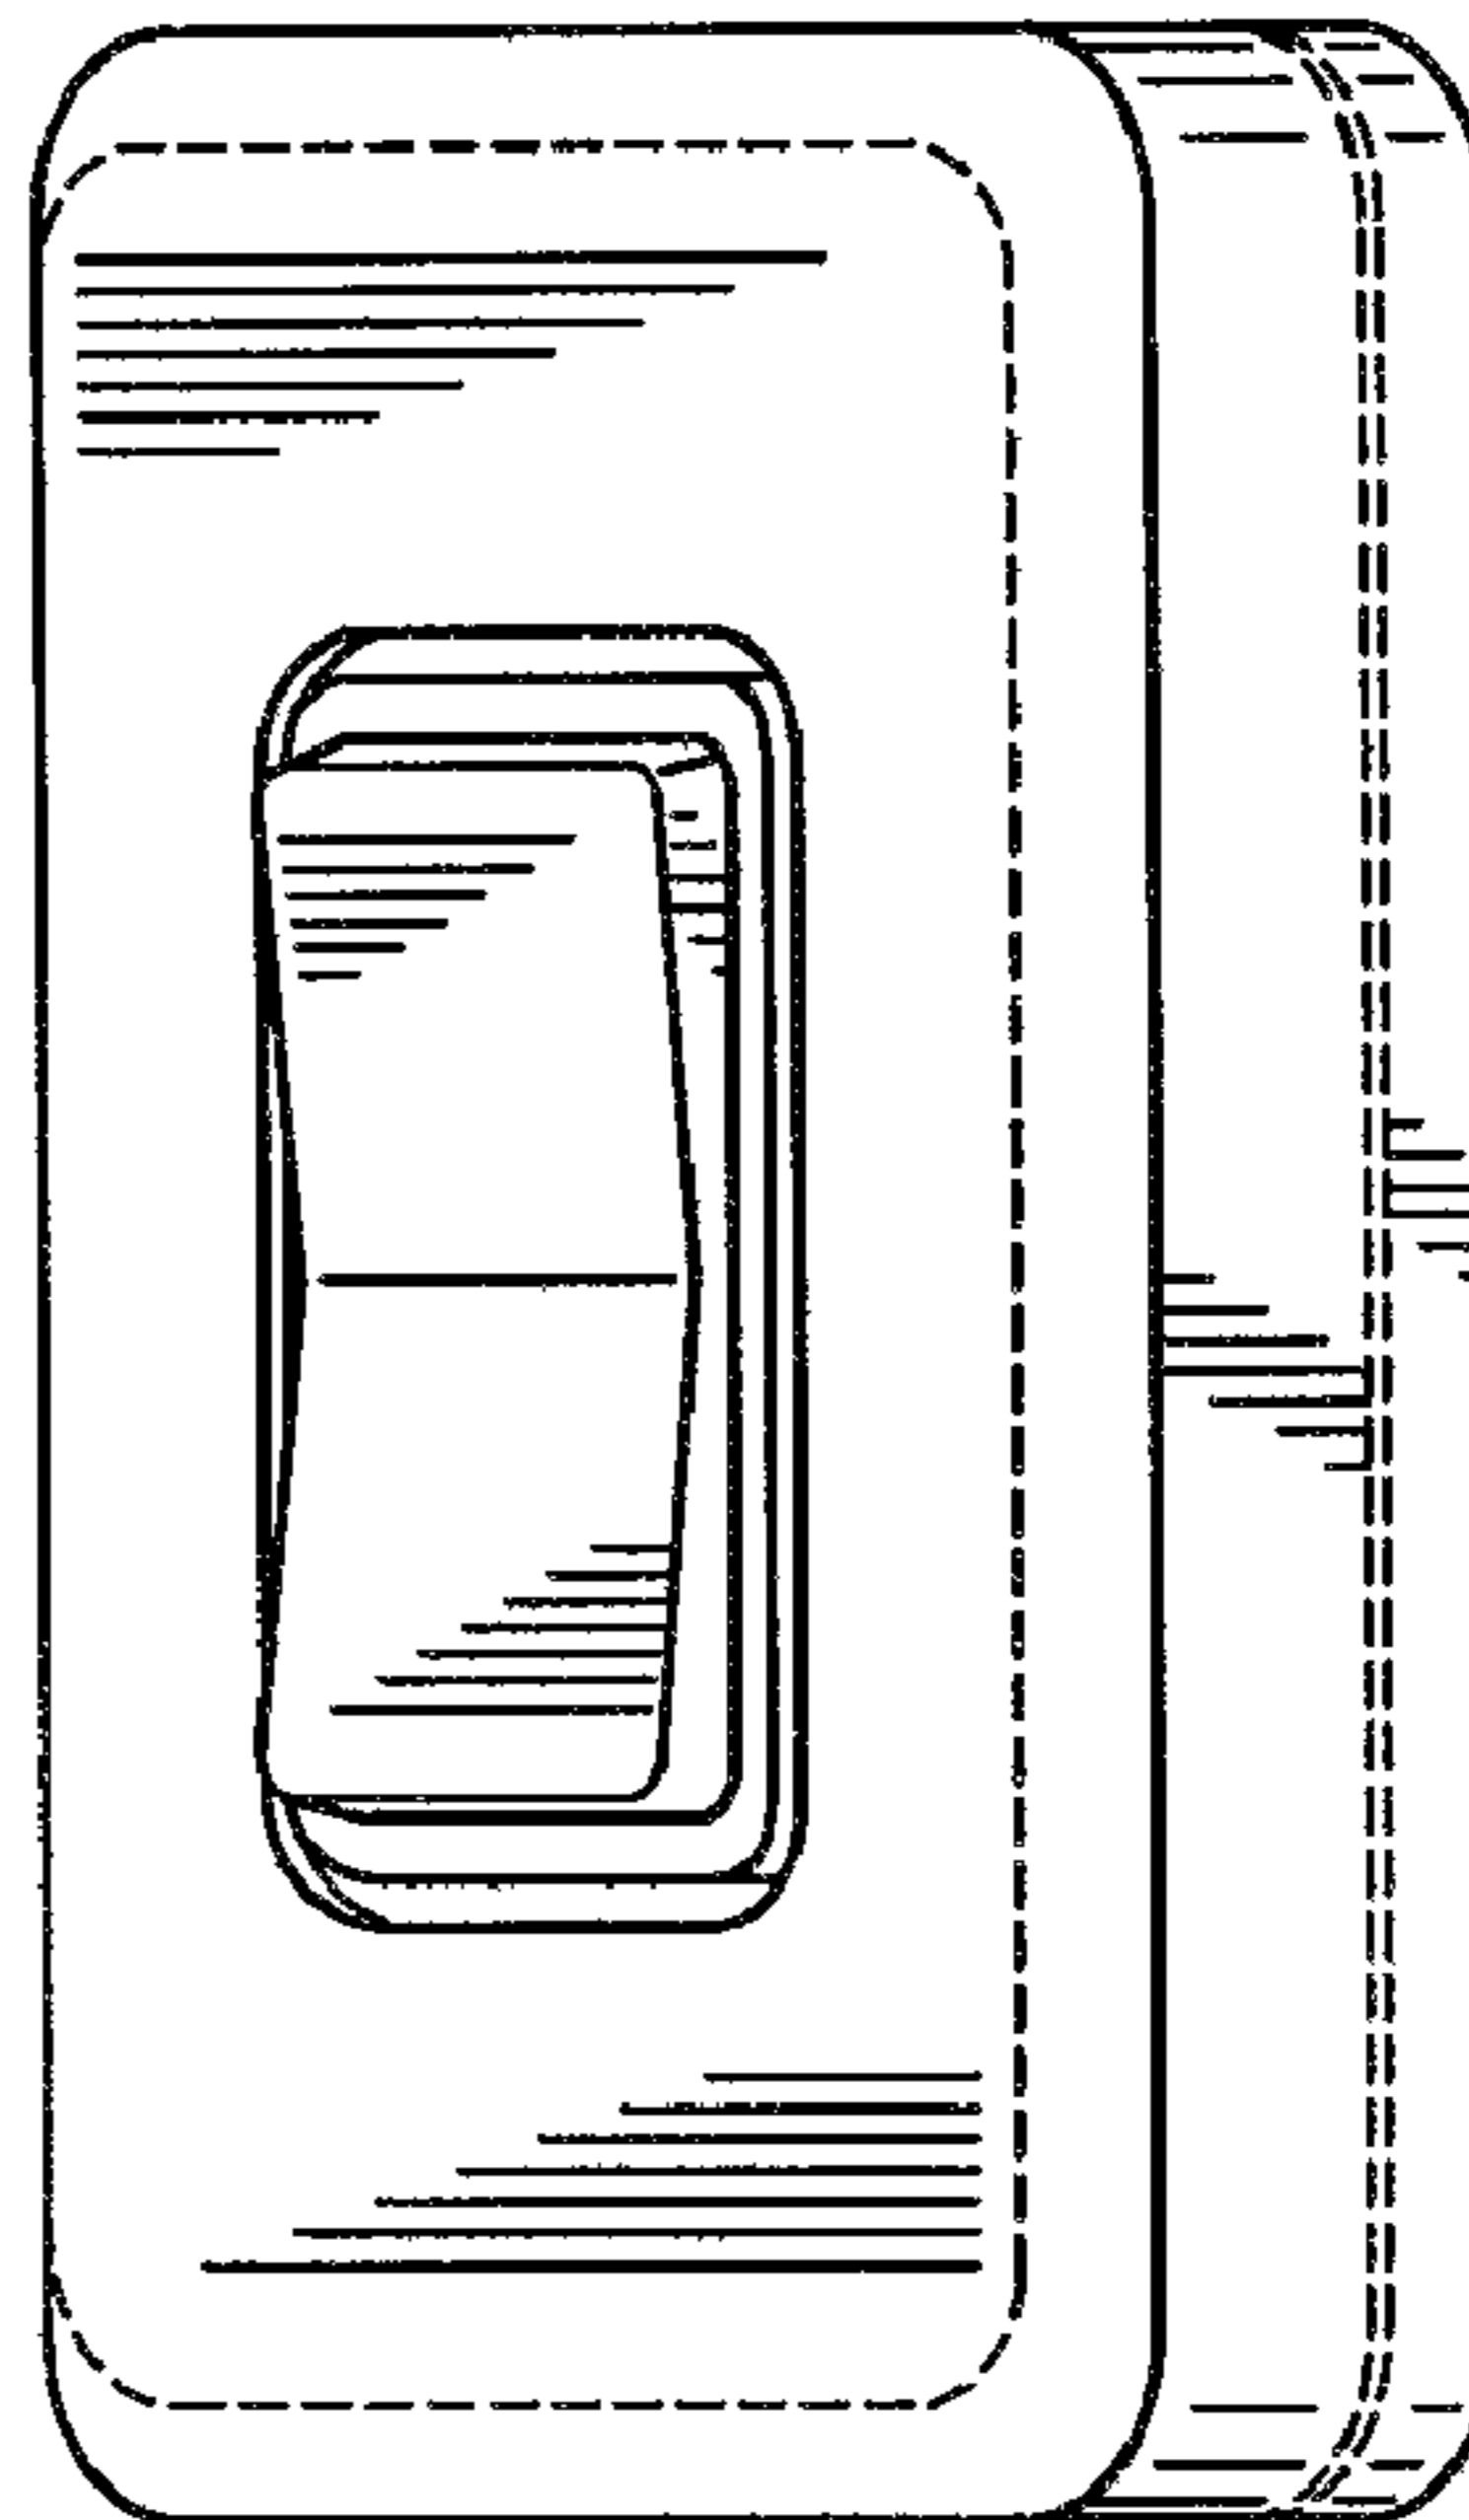

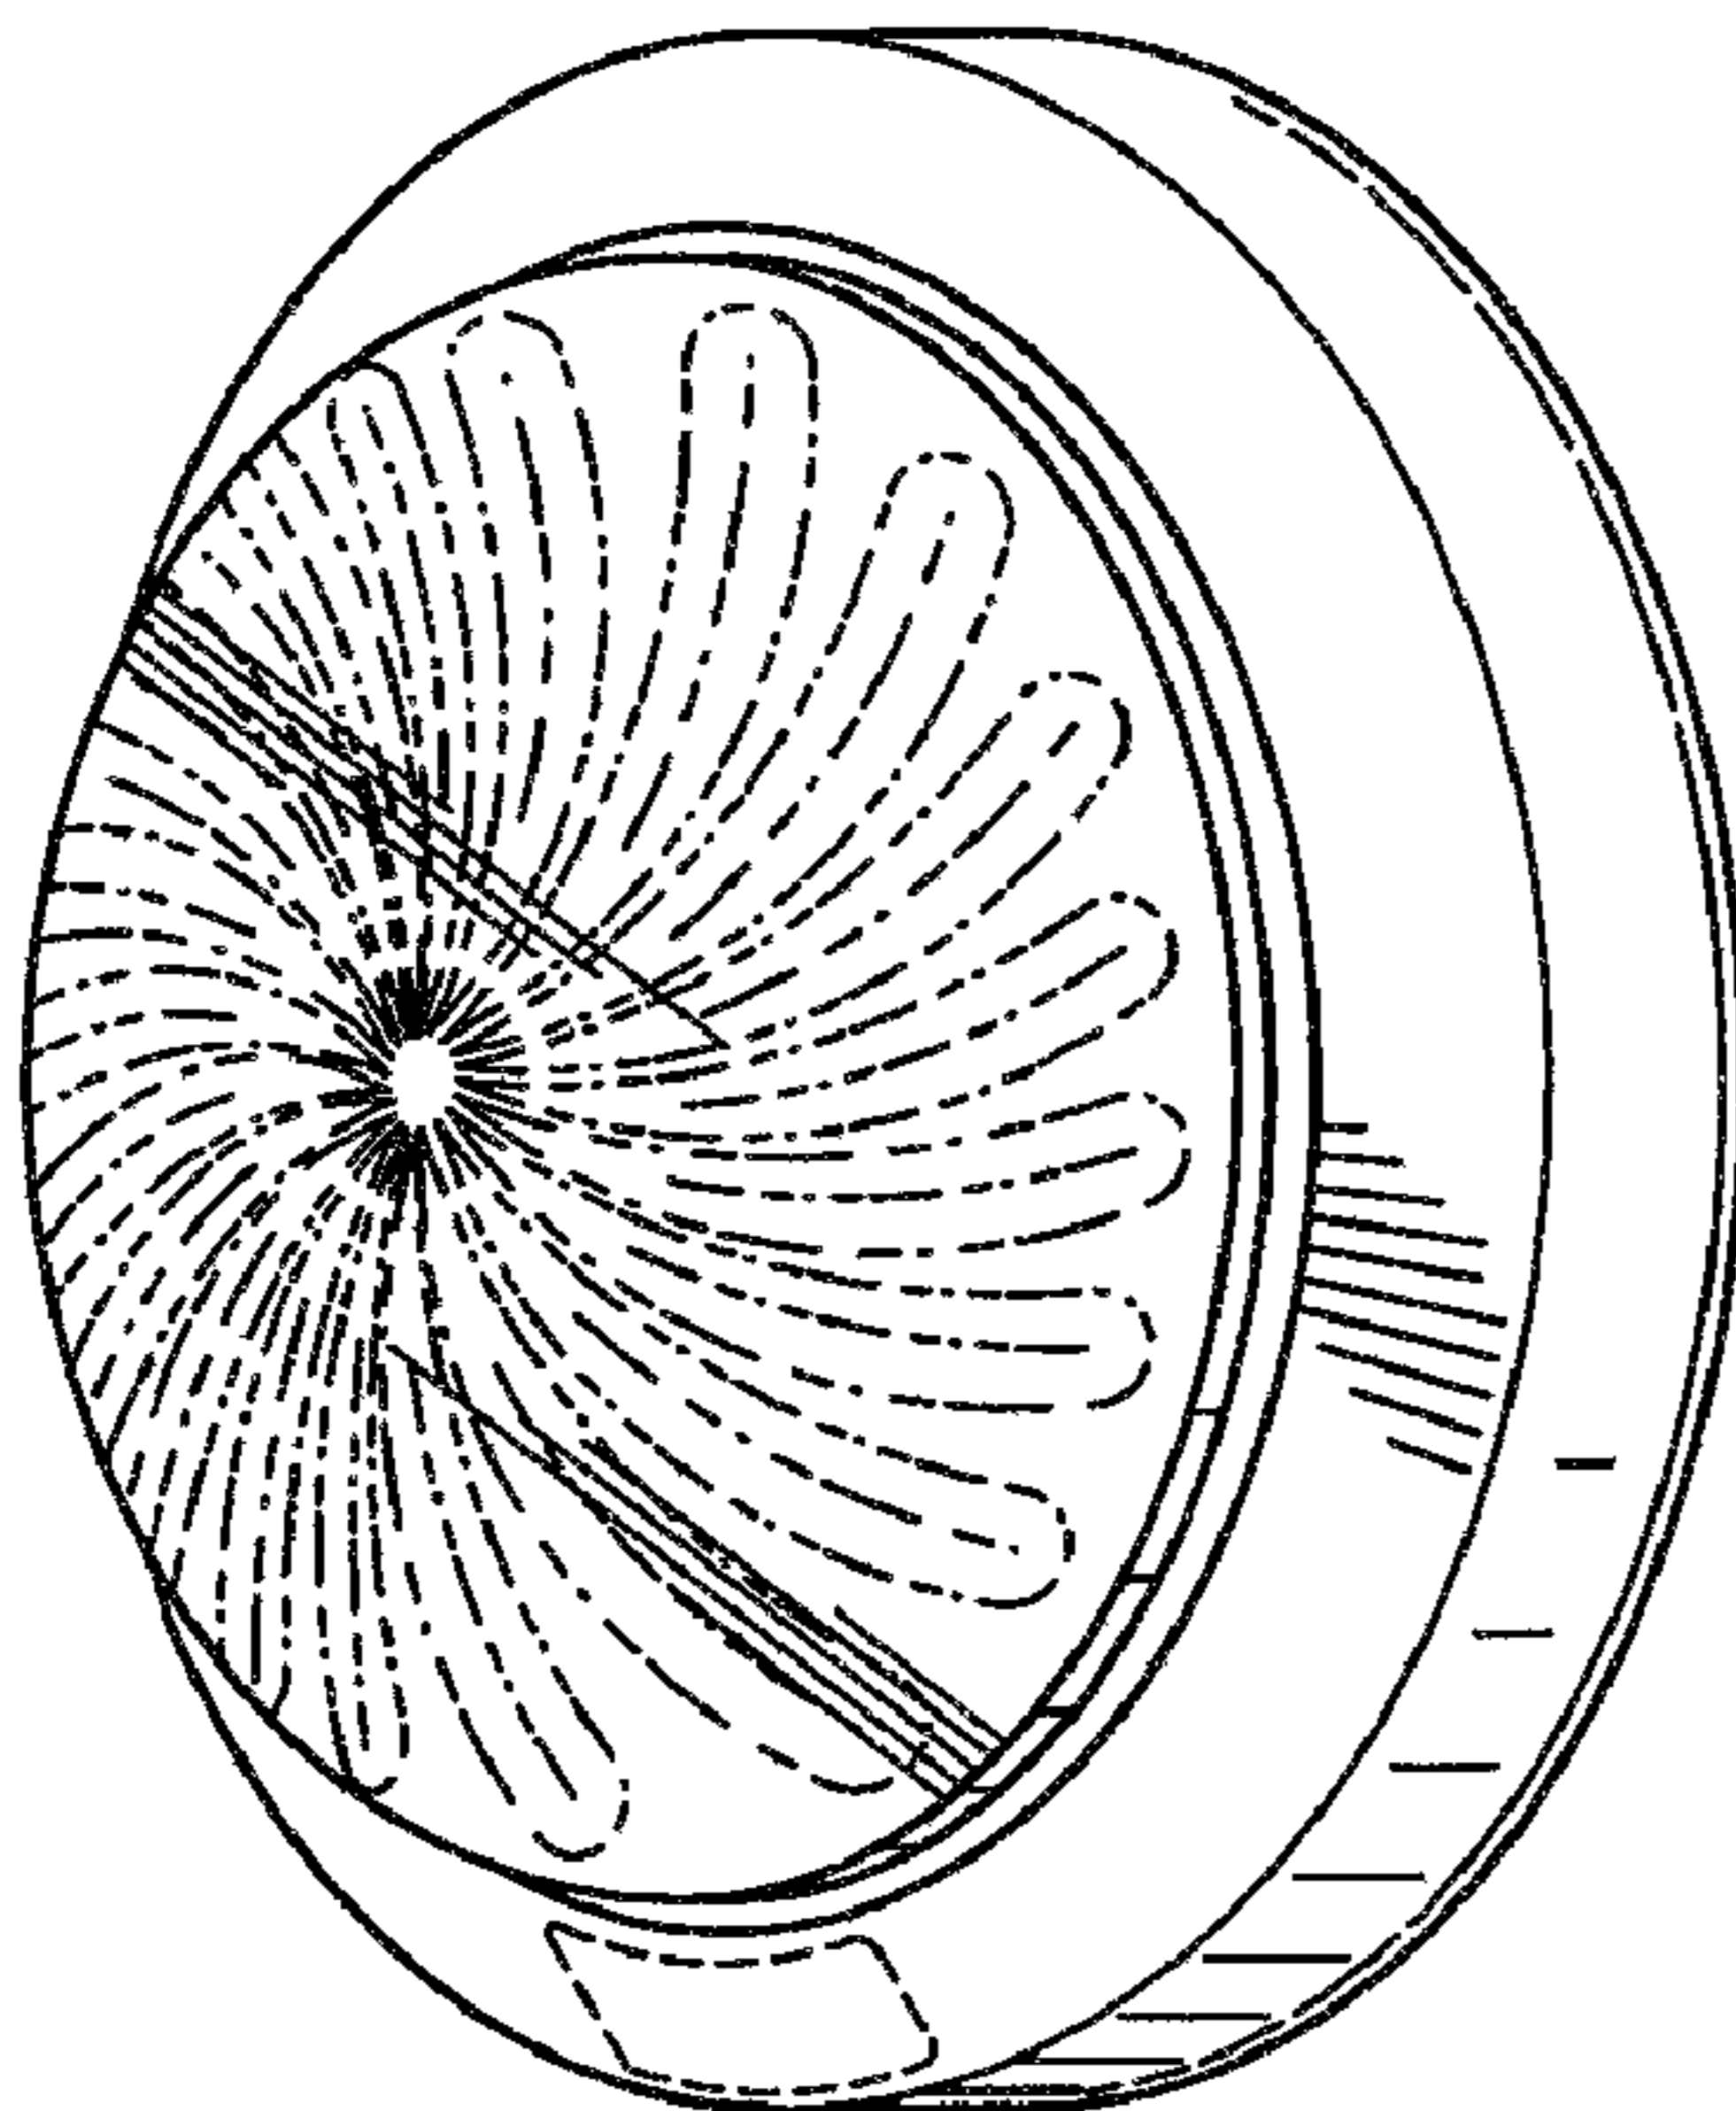

FIG. 5 is a right side view of the on/off switch in accordance with the present invention, shown separately for ease of illustration;

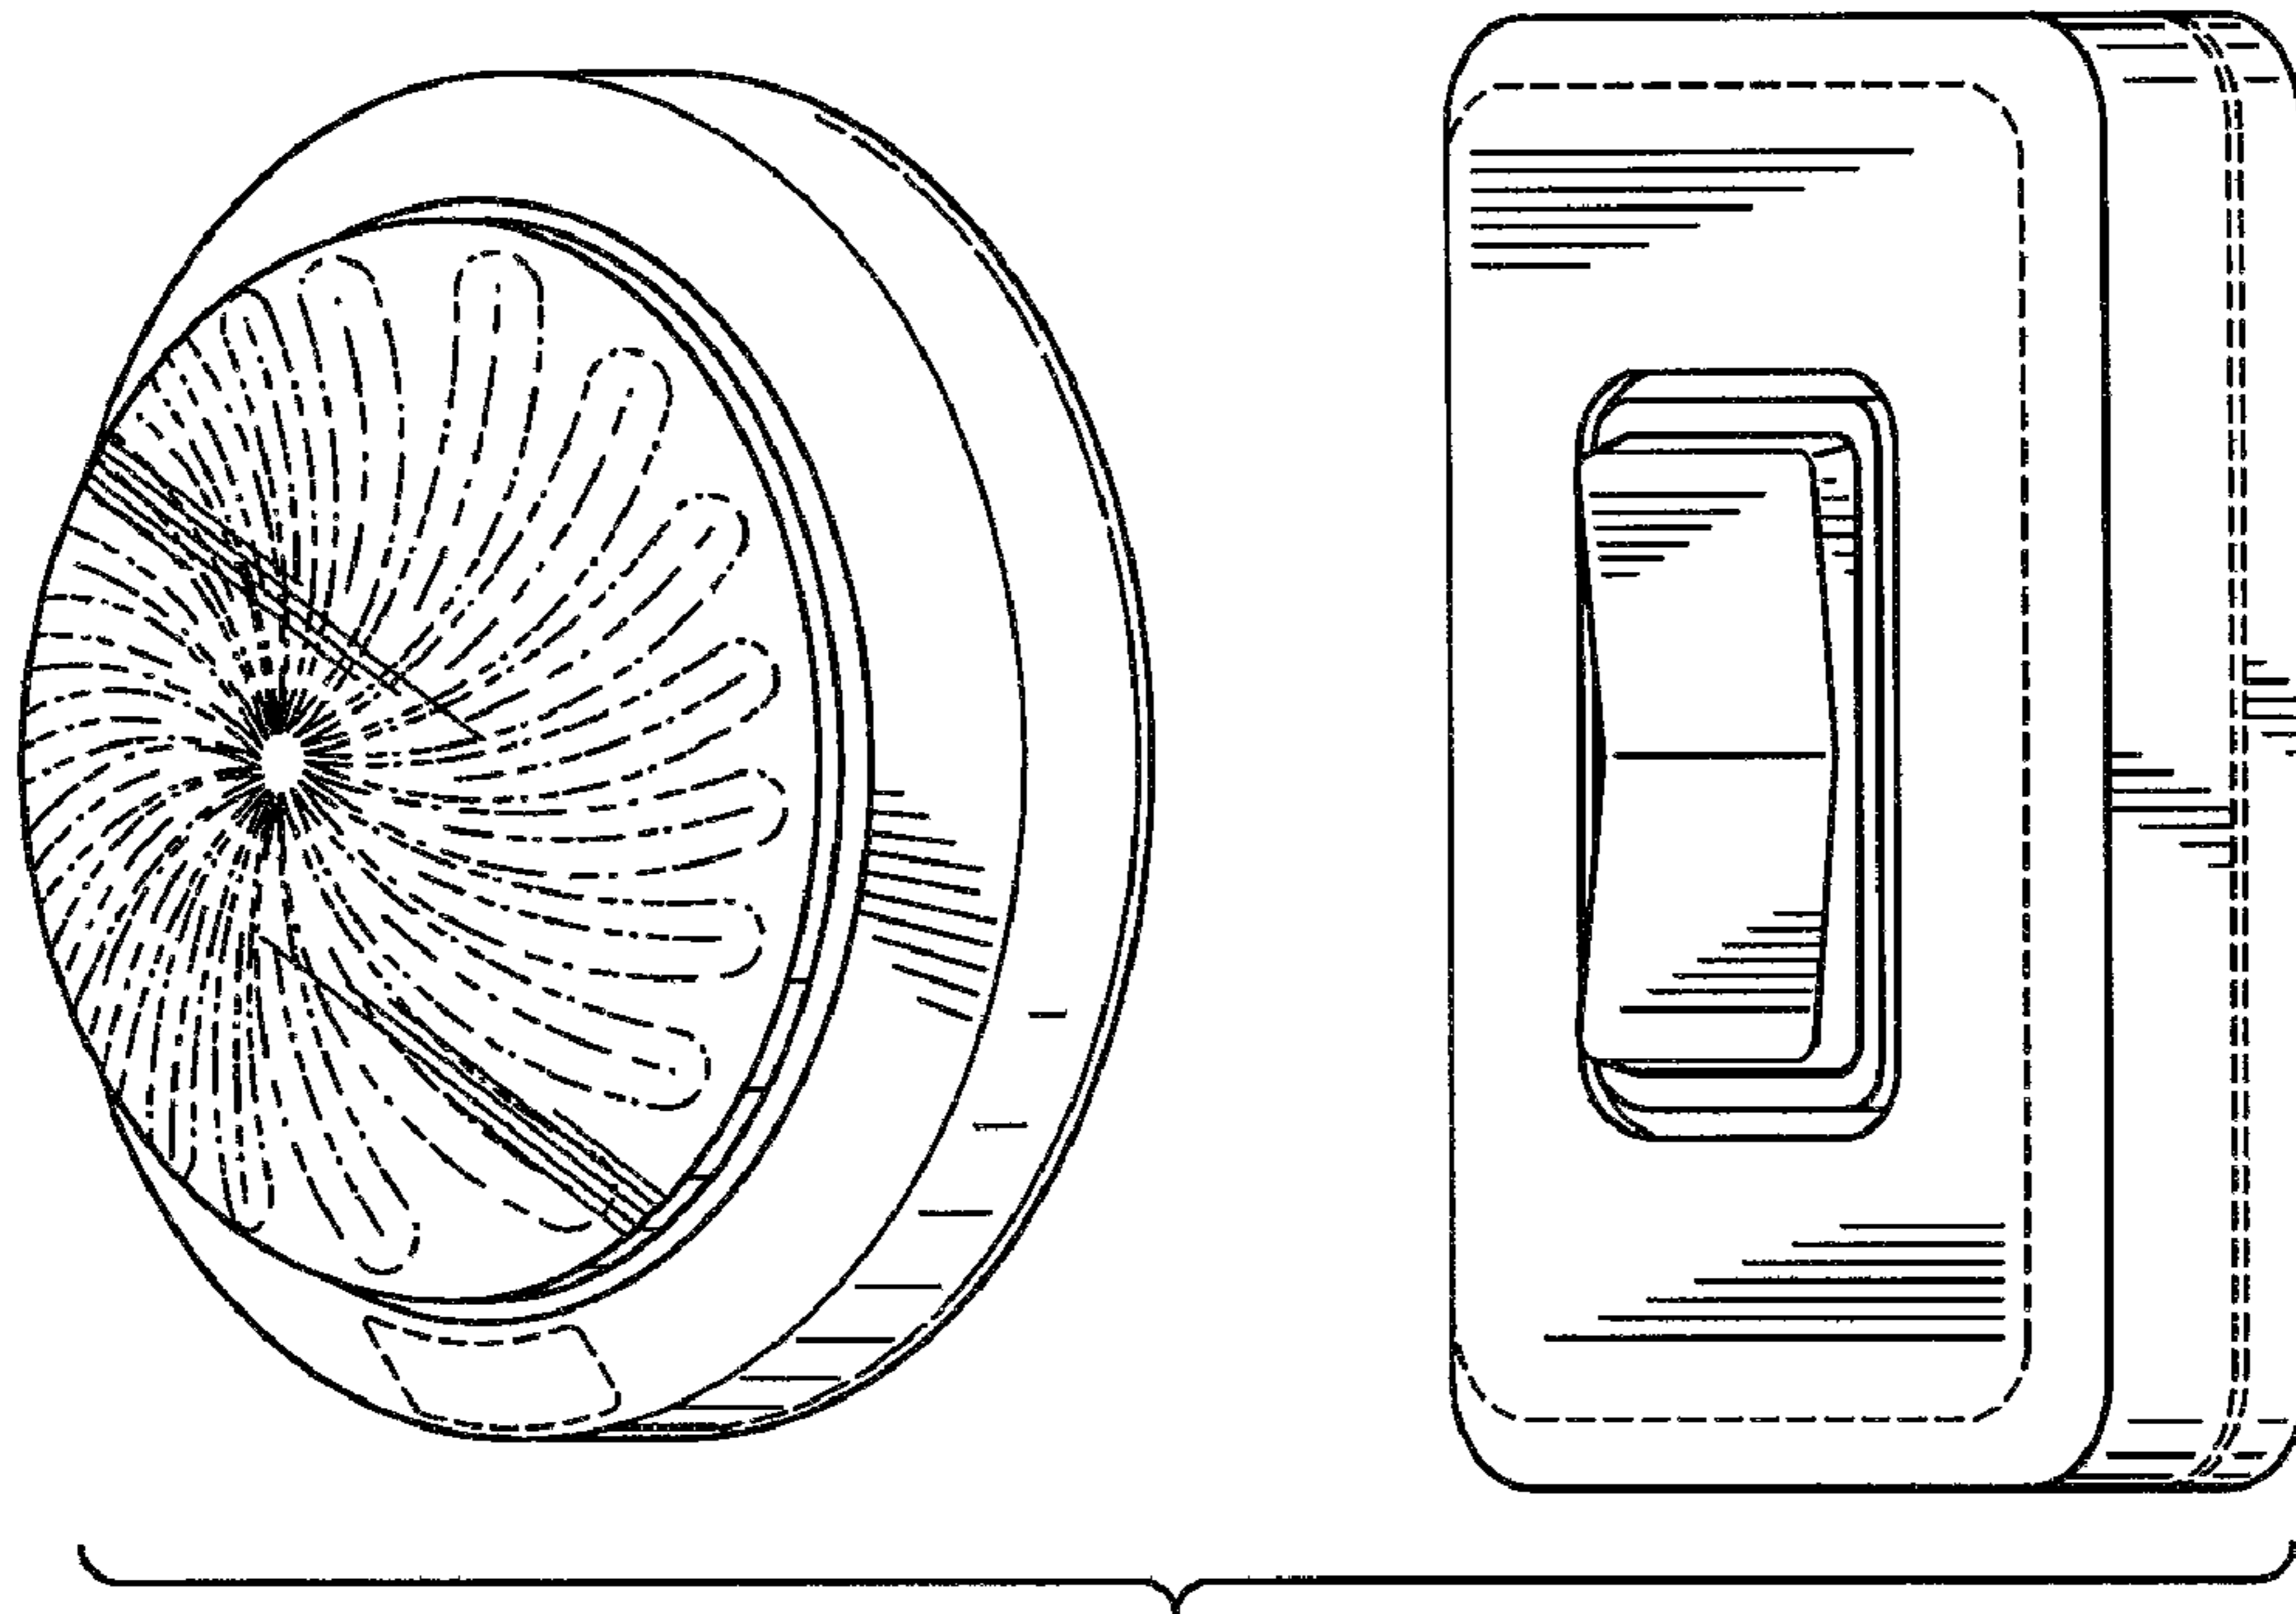

FIG. 6 is a top plan view of the wireless light with on/off switch in accordance with the present invention; and,

FIG. 7 is a bottom plan view of the wireless light in accordance with the present invention, shown separately for ease of illustration. The bottom plan view of the on/off switch is a mirror image of the top plan view shown in FIG. 6.

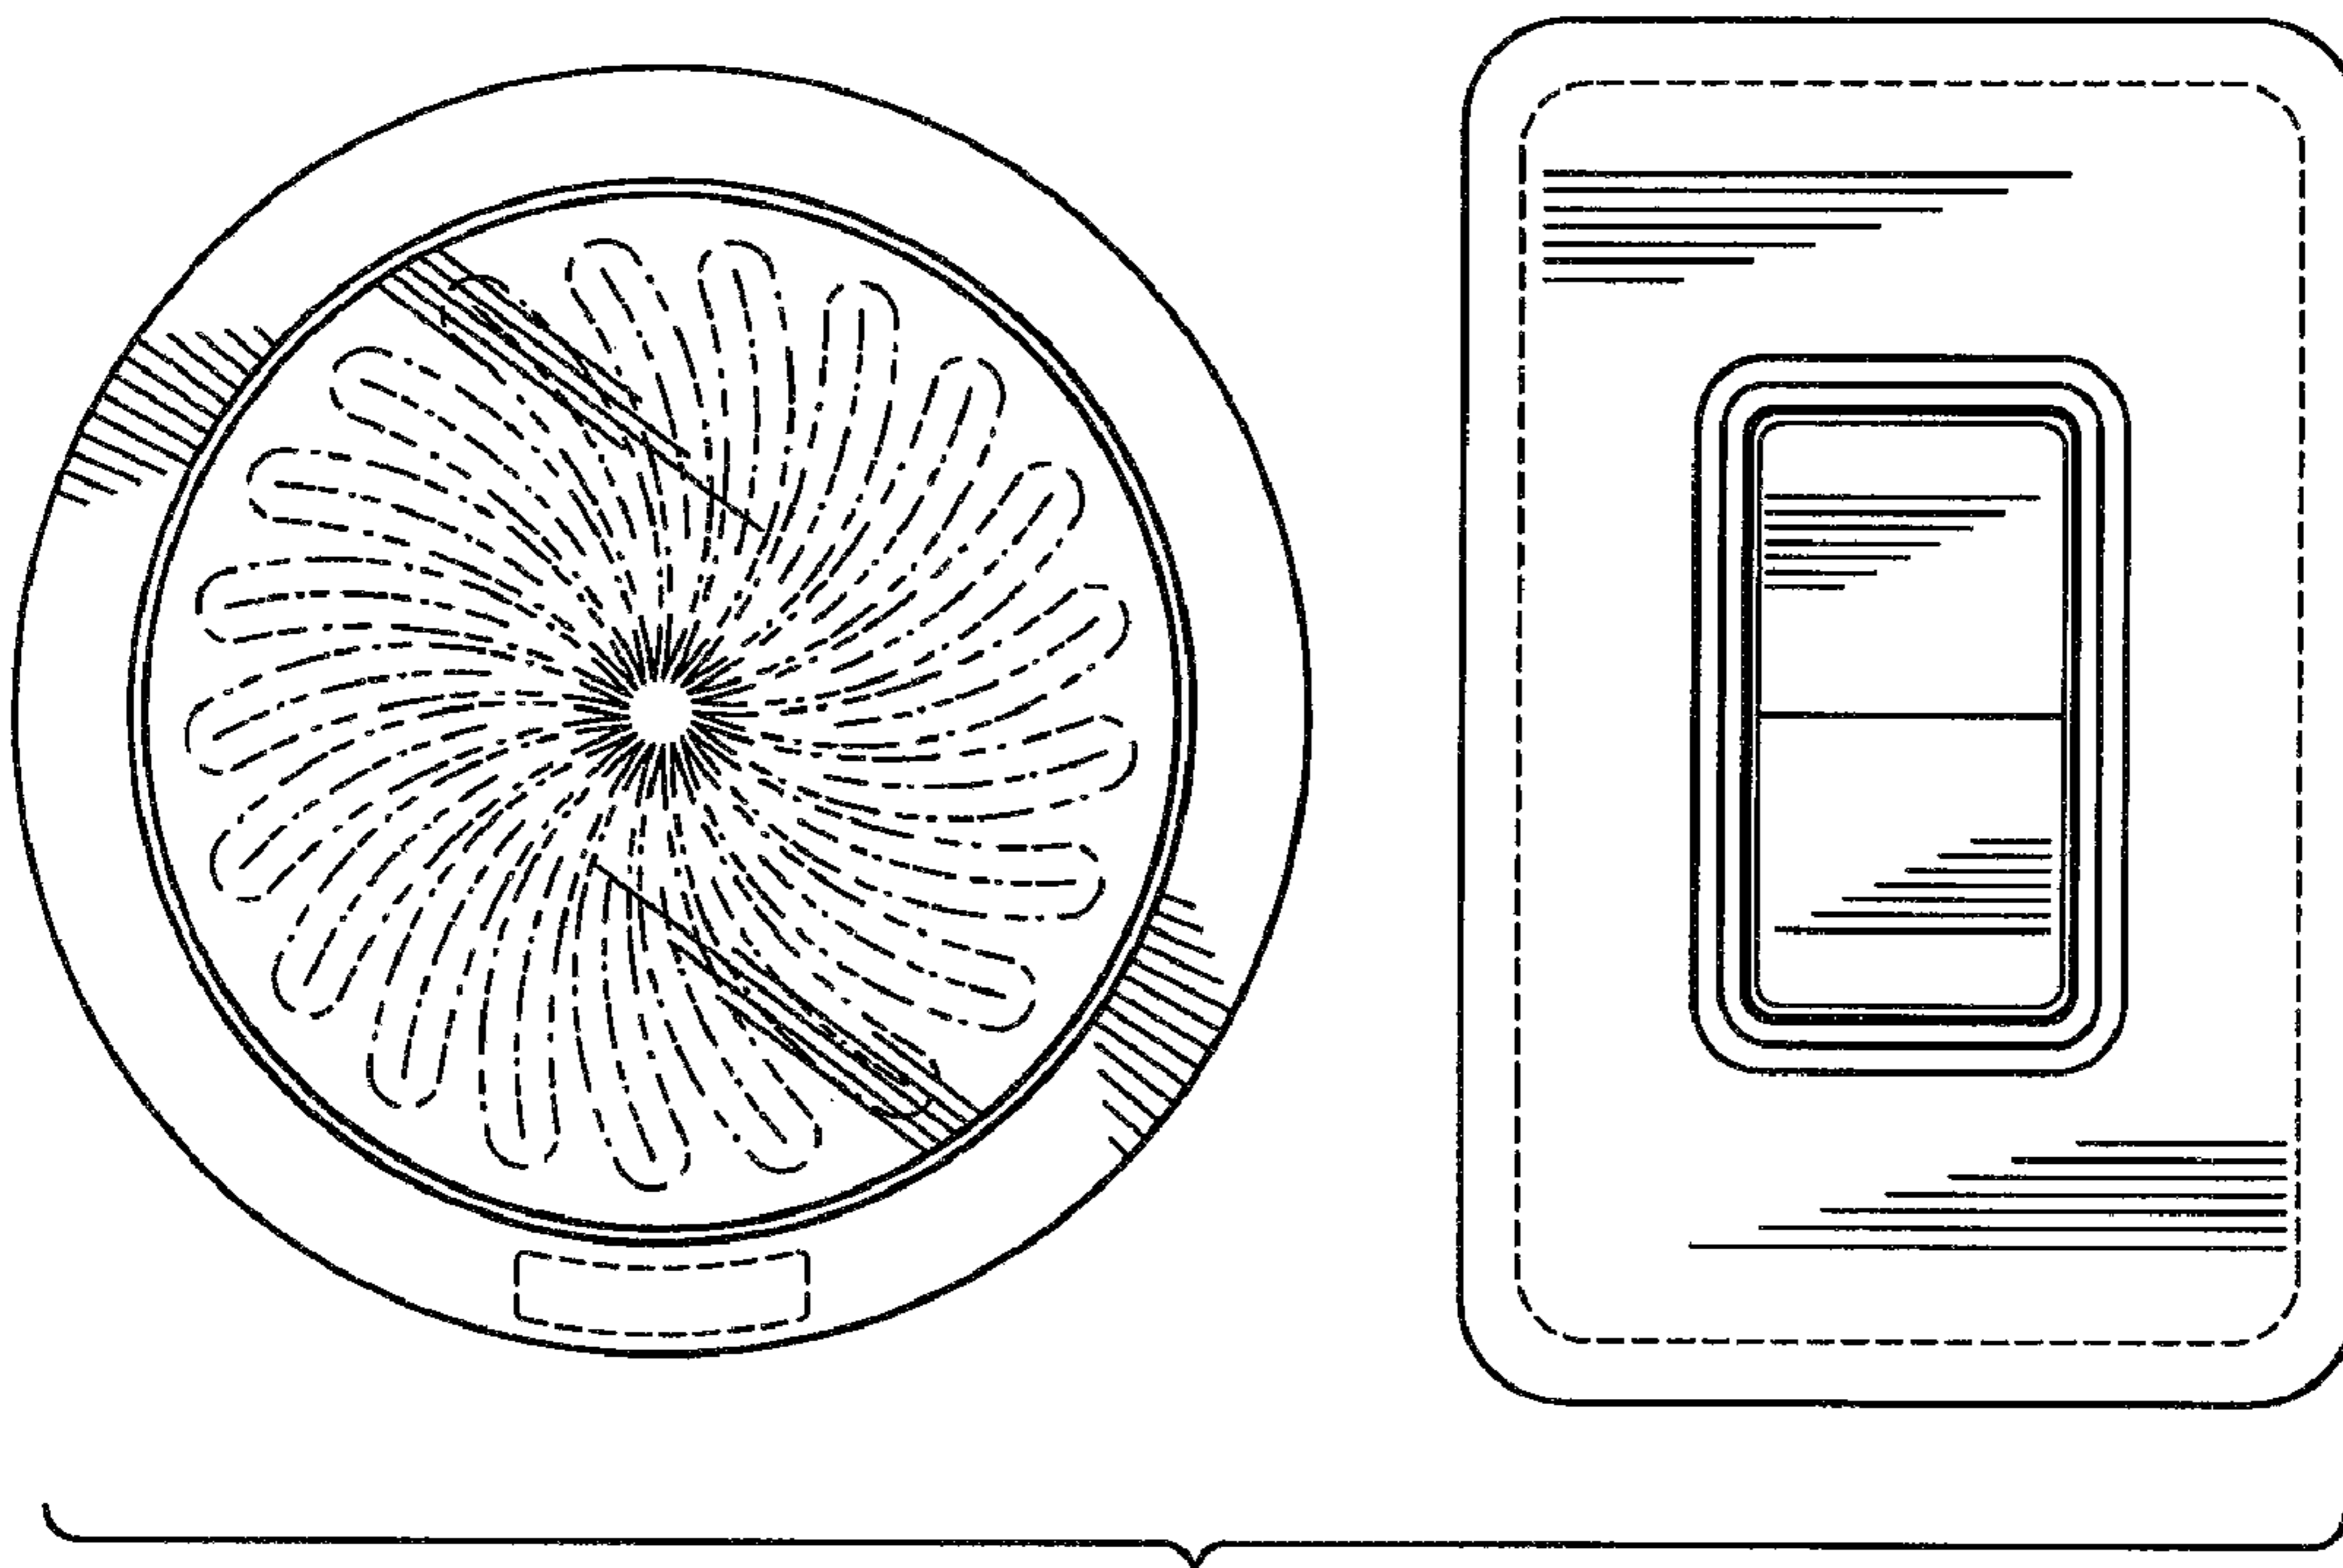

The parts and items shown in dashed lines are part of the environment and are not part of the claimed design.
