See application file for complete search history.

**DESCRIPTION**

FIG. 1 is a front perspective view of a first embodiment of a portion of a carton, showing my new design, in a closed condition;

FIG. 2 is a top plan view thereof;

FIG. 3 is a front elevation view thereof, the rear elevation being a mirror image thereto;

FIG. 4 is a left elevation view thereof, the right elevation being a mirror image thereto;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a front perspective view thereof in an open condition with the center punch-out removed;

FIG. 7 is a top plan view thereof;

FIG. 8 is a front elevation view thereof, the rear elevation being a mirror image thereto;

FIG. 9 is a left elevation view thereof, the right elevation being a mirror image thereto;

FIG. 10 is a front perspective view of a second embodiment of a portion of a carton, showing my new design, in an open condition;

FIG. 11 is a top plan view thereof;

FIG. 12 is a front elevation view thereof, the rear elevation being a mirror image thereto; and,

FIG. 13 is a left elevation view thereof, the right elevation being a mirror image thereto.

The dash-dot-dot broken line portion of the figure drawings is included to show unclaimed subject matter only and forms no part of the claimed design.

The even dashed line shown on the top surface of the design in FIGS. 1 and 2 describes the perforations present in the top surface of the design.
