(57) **CLAIM**

We claim the ornamental design for a computer controller front bezel, substantially as shown and described.

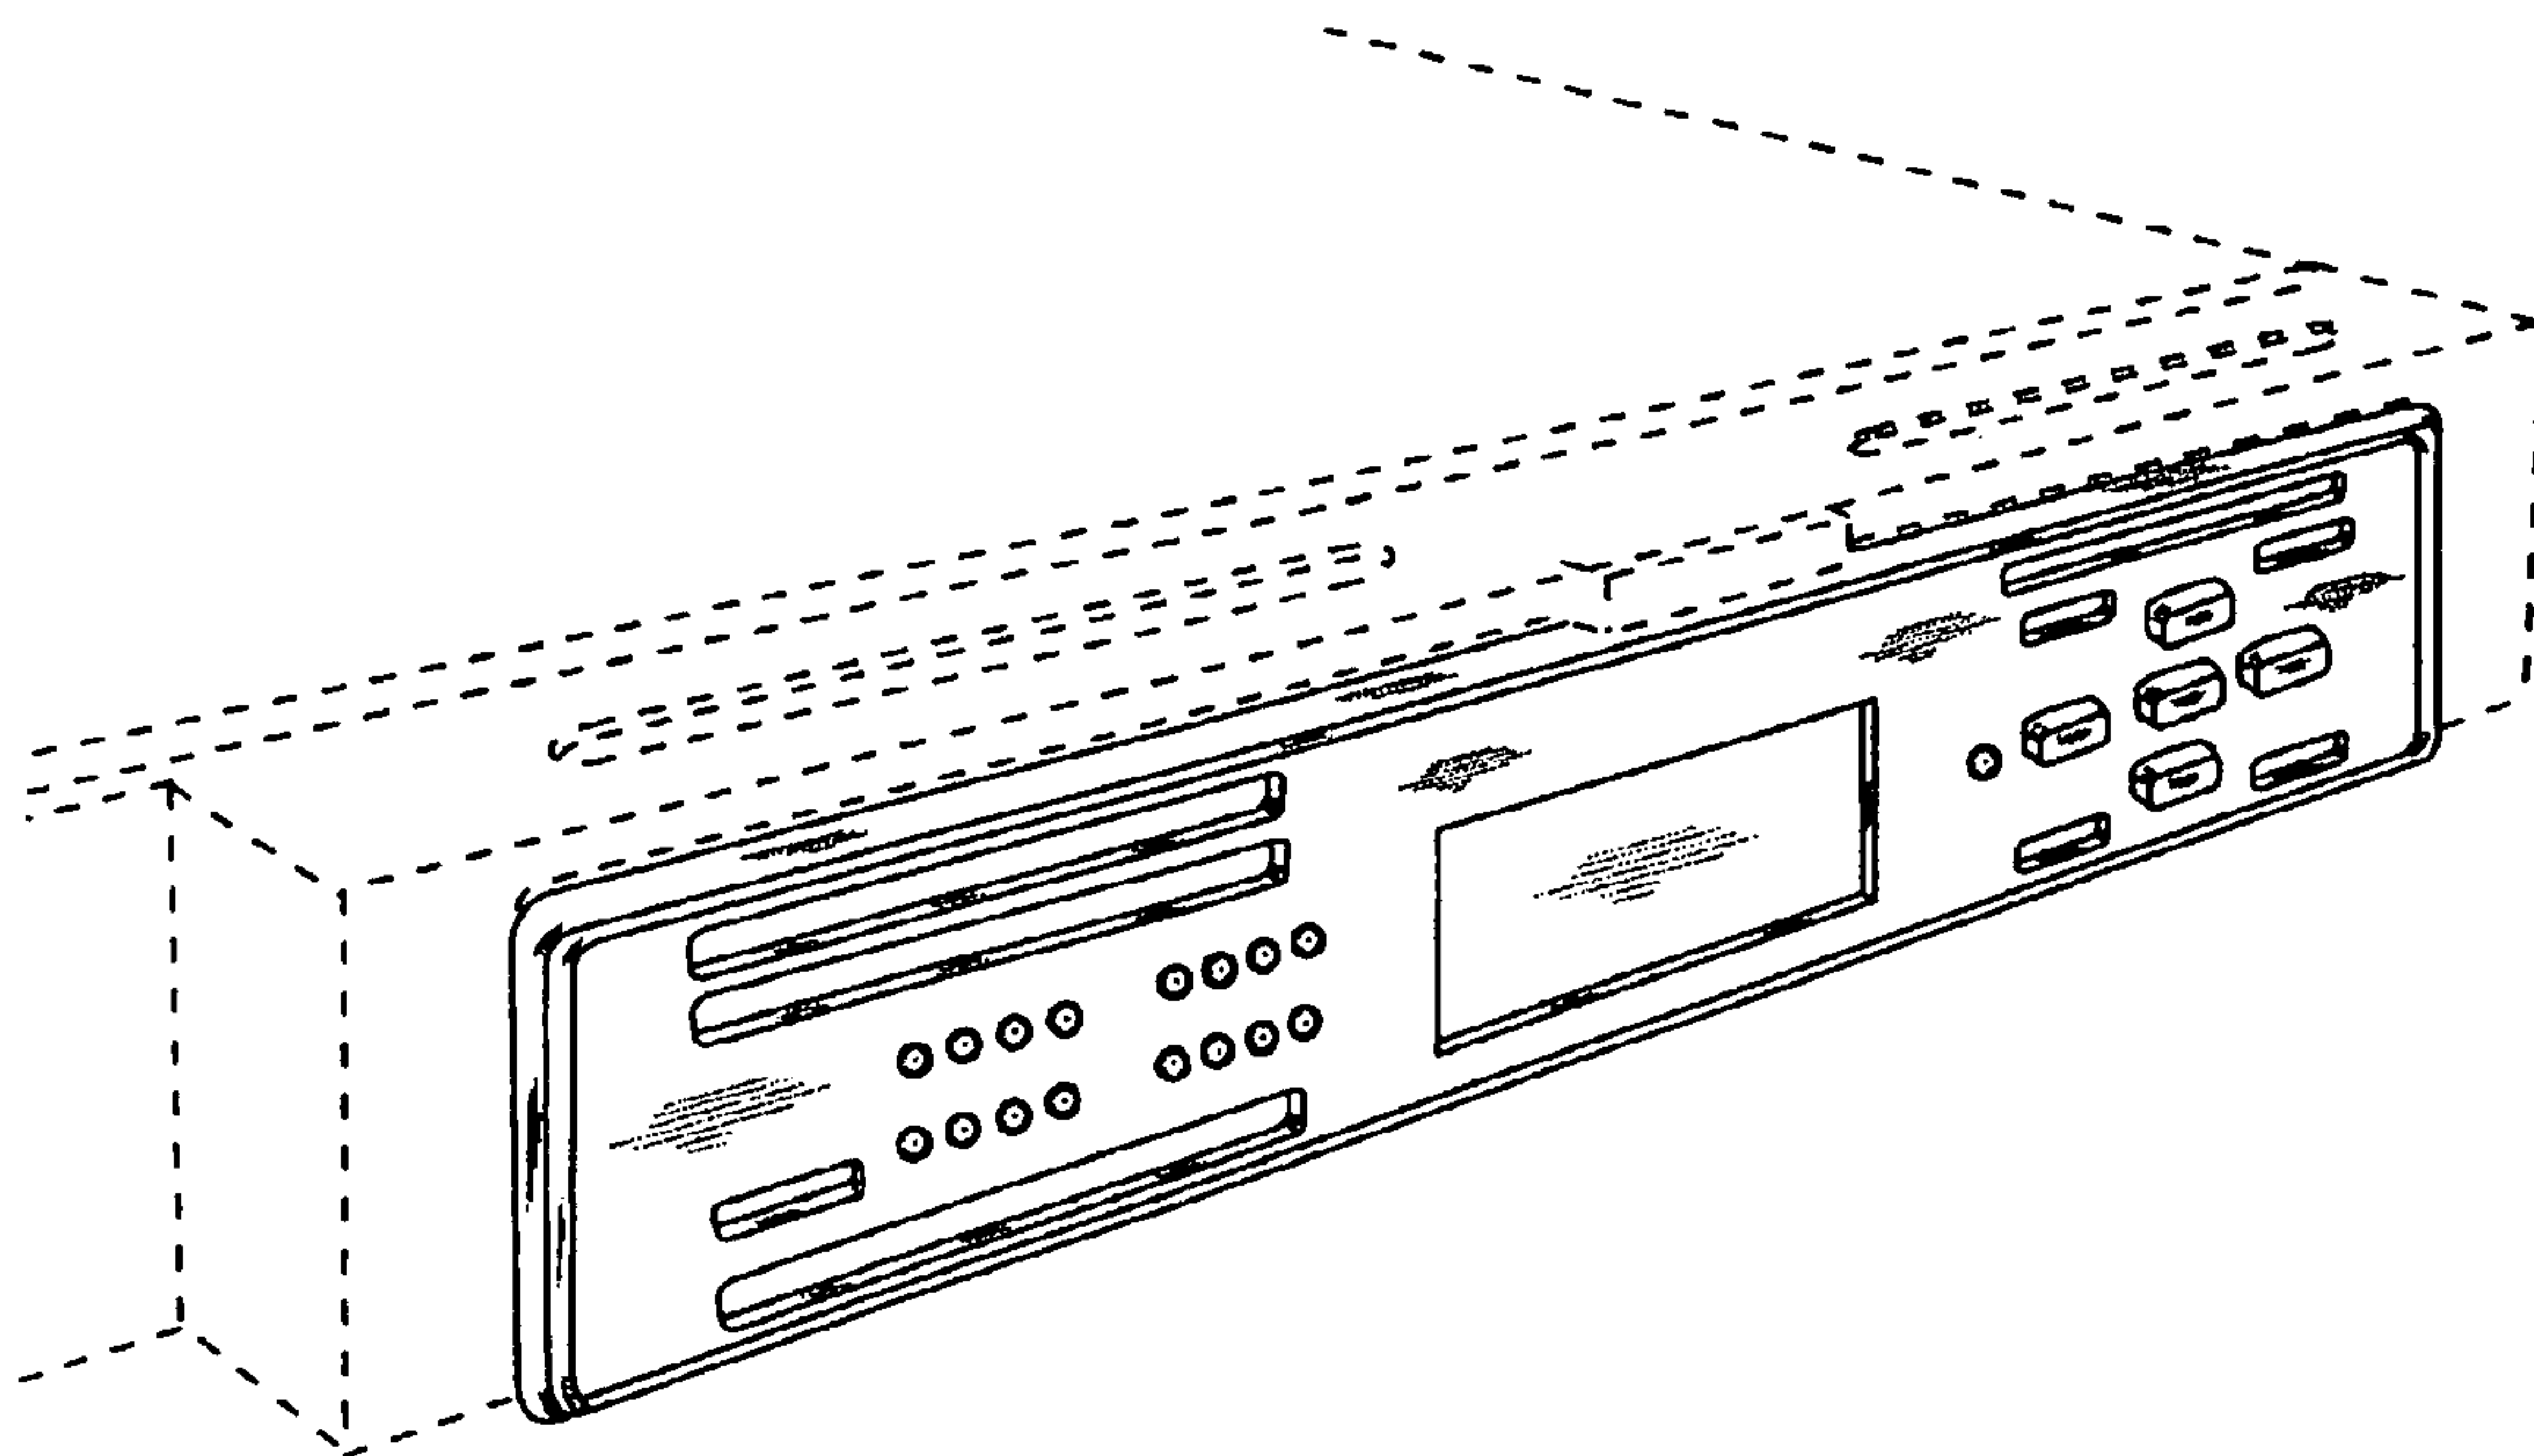

DESCRIPTION

FIG. 1 is a perspective view of a computer controller front bezel; and,

FIG. 2 is a front view thereof, with horizontally oriented quad grouped status LEDs.

Broken lines shown in the drawings illustrate portions of the computer controller and form no part of the claimed design. The bezel includes a plain and unornamented top, bottom, sides and back which are not shown.
