(57) **CLAIM**

The ornamental design for a telescoping display system, as shown and described.

**DESCRIPTION**

FIG. 1 is an isometric view of a telescoping display system, according to the invention;

FIG. 2 is an isometric view thereof used in conjunction with a display panel;

FIG. 3 is a front view thereof used in conjunction with a display panel;

FIG. 4 is a rear view thereof used in conjunction with a display panel;

FIG. 5 is a right view thereof used in conjunction with a display panel;

FIG. 6 is a left view thereof used in conjunction with a display panel;

FIG. 7 is a top side view thereof used in conjunction with a display panel;

FIG. 8 is a bottom side view thereof used in conjunction with a display panel;

FIG. 9 is a view of the telescoping display system in an alternate position of use;

FIG. 10 is an isometric view thereof used in conjunction with a display panel;

FIG. 11 is front view thereof used in conjunction with a display panel;

FIG. 12 is a rear view thereof used in conjunction with a display panel;

FIG. 13 is a right view thereof used in conjunction with a display panel;

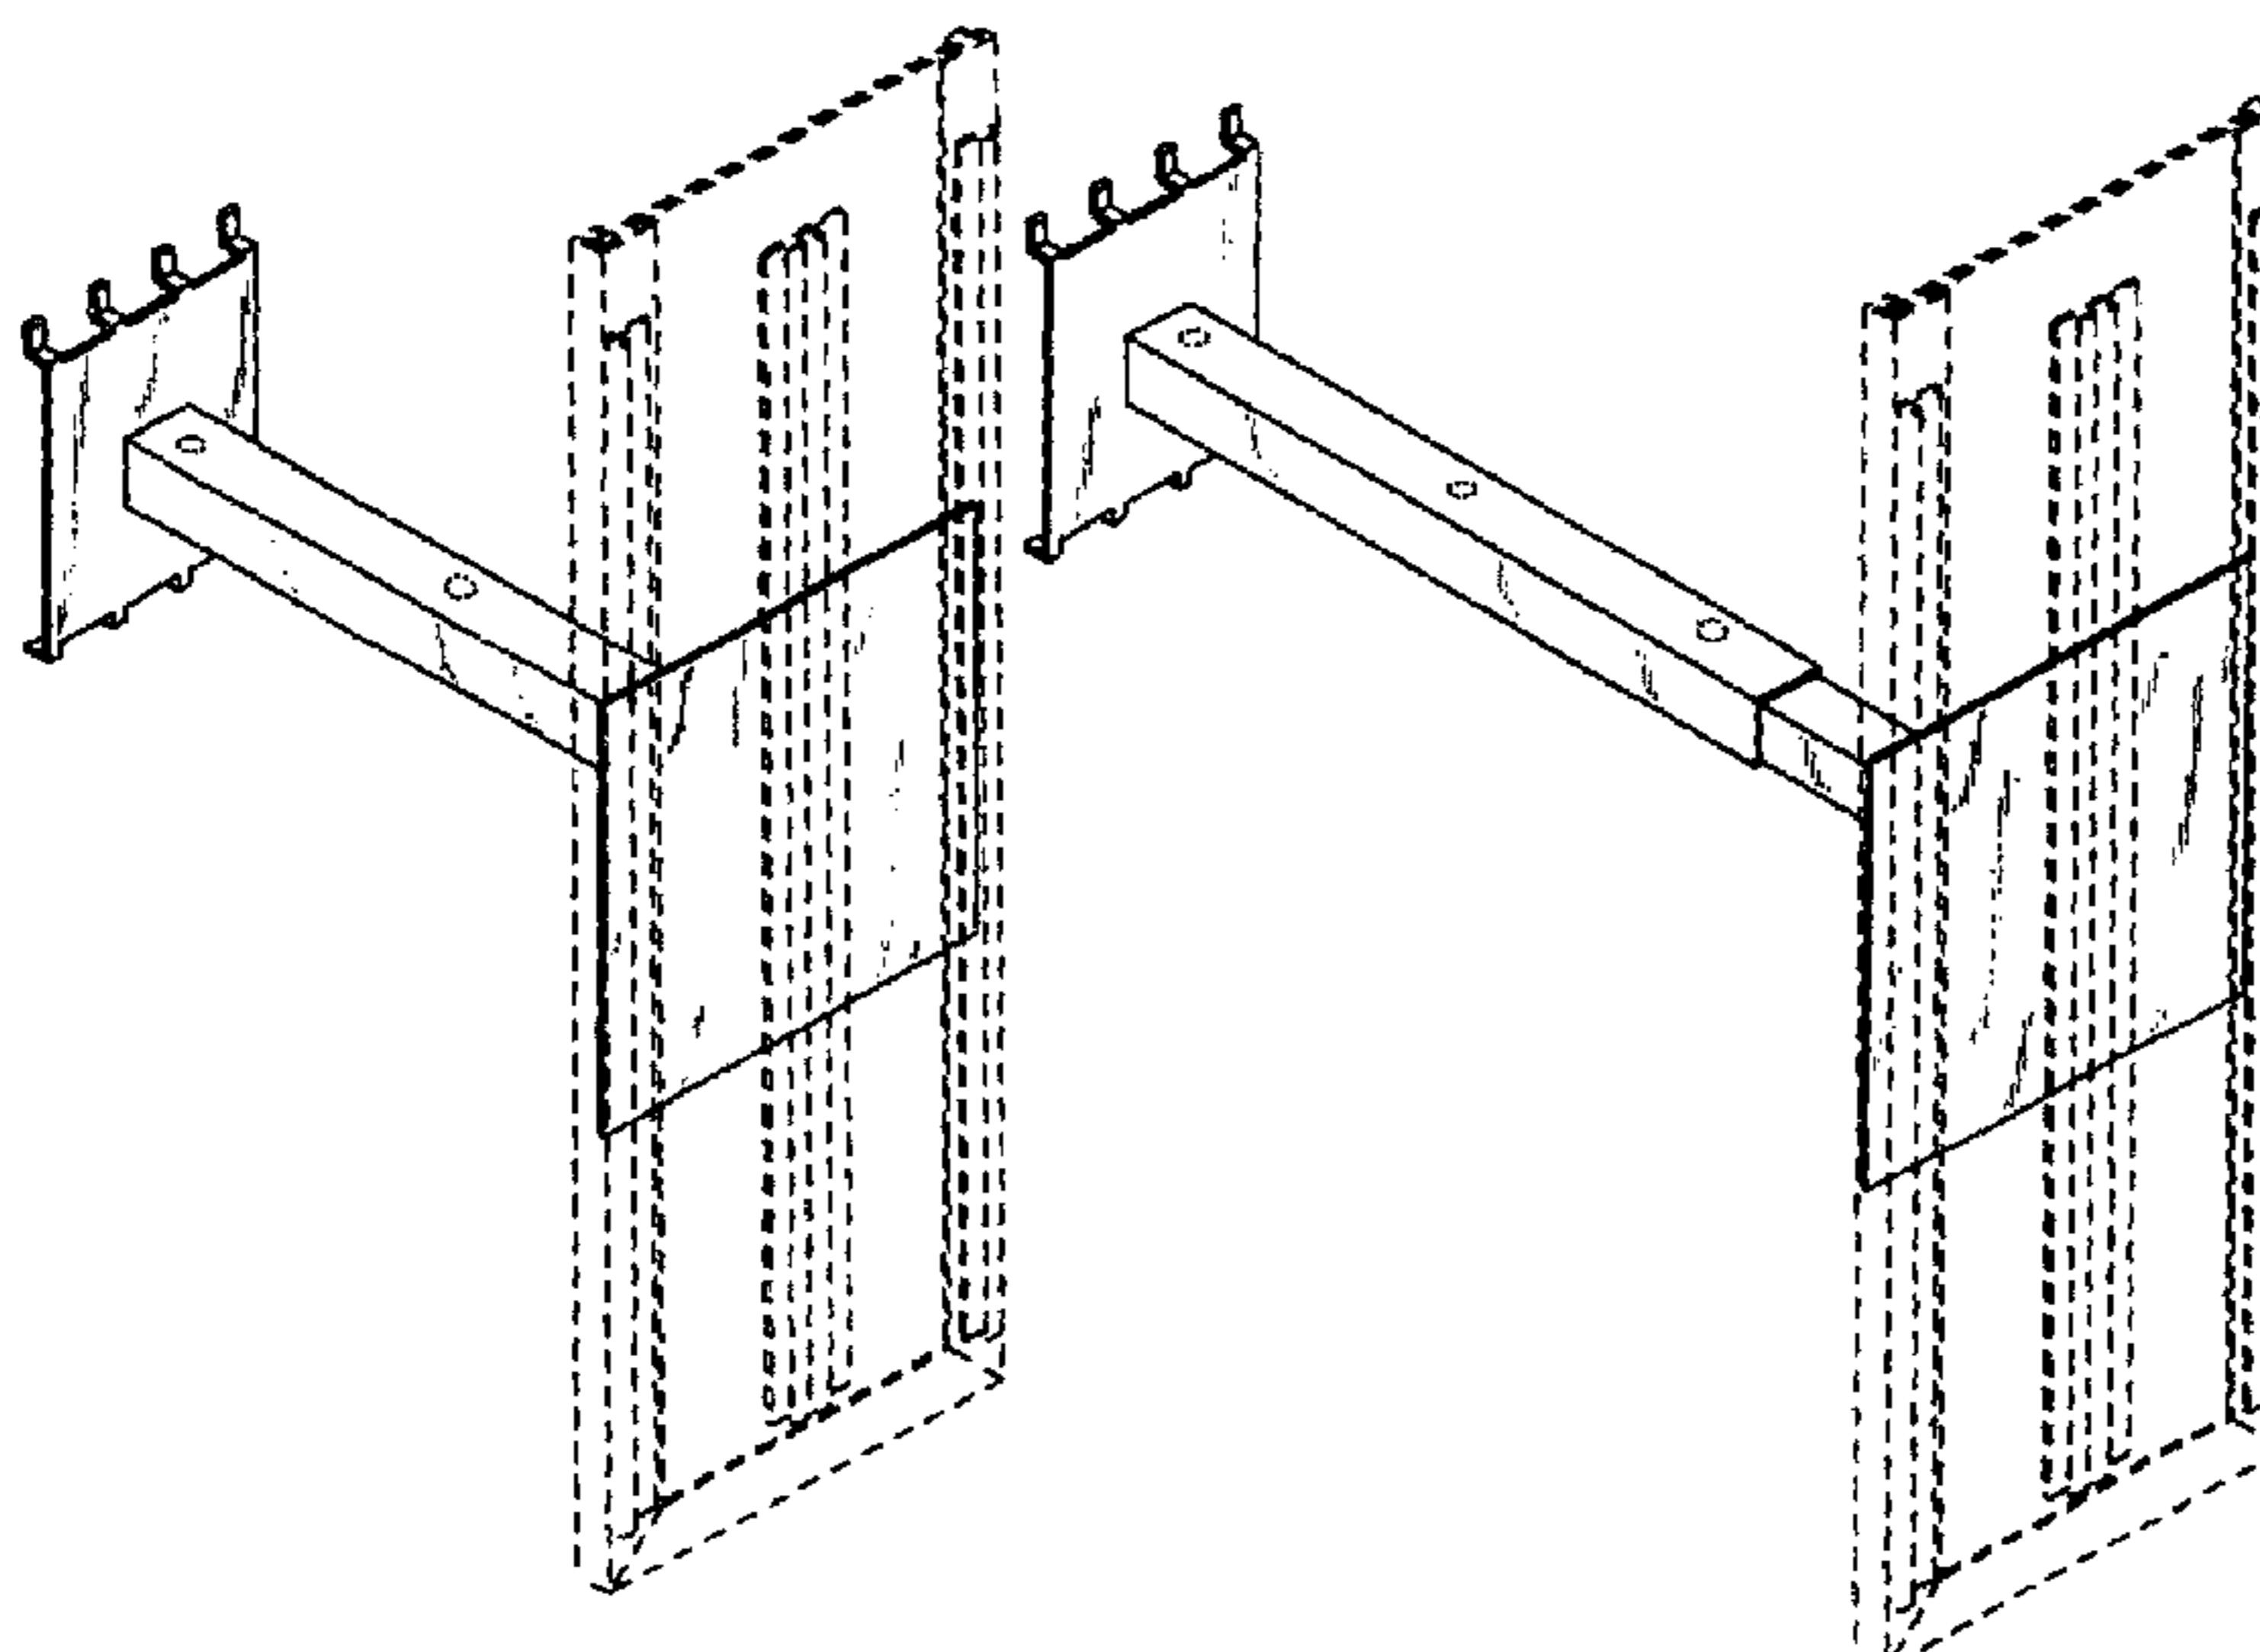

FIG. 14 is a left view thereof used in conjunction with a display panel;

FIG. 15 is a top side view thereof used in conjunction with a display panel; and,

FIG. 16 is a bottom side view thereof used in conjunction with a display panel.

In the drawings, the broken lines designate optional unclaimed features and are for illustrative purposes only and form no part of the claimed design.
