(57) **CLAIM**

The ornamental design for a vehicle upper bumper cover, shown and described.

DESCRIPTION

FIG. **1** is a front elevational view of a vehicle upper bumper cover;

FIG. **2** is a side elevational view of the vehicle upper bumper cover, the opposite side is a mirror image of that shown;

FIG. **3** is a top plan view of the vehicle upper bumper cover;

FIG. **4** is a bottom plan view of the vehicle upper bumper cover; and,

FIG. **5** is rear elevational view of the vehicle upper bumper cover.

The Vehicle Upper Bumper Cover is styled independently of adjacent vehicle panels. To the extent that any feature lines are illustrated, they are intended to illustrate the crest and valley of the feature and are not necessarily sharp bends in the part. Shading is used to illustrate the curvature of the part and not color. Areas shown in or sounded by broken lines are not claimed. Any functional features of the Vehicle Upper Bumper Cover are not claimed. Views are orthogonal projections rendered from computer aided design data. The various views are not necessarily to scale in order to better illustrate the design.
