(57) **CLAIM**

The ornamental design for sheet material with surface pattern, as shown and described.

DESCRIPTION

The sole FIGURE is a top plan view of sheet material with surface pattern, showing our new design.

The broken lines around the design indicate that a specific length and width of sheet material forms no part of the claimed design, and that the surface pattern repeats uniformly throughout the length and width of the sheet material. The broken lines form no part of the claimed design.

The material is of insignificant thickness and so the edge views are linear and their appearance is not claimed.

1 Claim, 1 Drawing Sheet
