(57) **CLAIM**

The ornamental design for screen with a transitional graphical user interface for a video inbox, as shown and described.

DESCRIPTION

The claimed screen with a transitional graphical user interface for a video inbox is used for displaying and interacting with streaming video within an e-mail application.

FIG. 1 is a front view of a first image for a screen with a transitional graphical user interface for a video inbox;

FIG. 2 is a front view of a second image thereof;

FIG. 3 is a front view of a third image thereof;

FIG. 4 is a front view of a fourth image thereof;

FIG. 5 is a front view of a fifth image thereof;

FIG. 6 is a front view of a sixth image thereof; and,

FIG. 7 is a front view of a seventh image thereof.

The broken-line drawing of a portion of a screen in all views is included for the purpose of illustrating environment structure and forms no part of the claimed design.

The subject matter in this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.
