(57) **CLAIM**

The ornamental design for a reversible fastener cap, as shown and described.

DESCRIPTION

The article in which the design is embodied is a reversible fastener cap intended to be used as a washer for holding roofing paper, insulation wrap, and coverings to houses, lumber, and other articles using staples and other fasteners.

FIG. 1 is a top plan view of the reversible fastener cap of the present invention. The bottom plan view is a mirror image of FIG. 1.

FIG. 2 is a front edge view of the present invention. The back edge view is a mirror image of FIG. 2.

FIG. 3 is a left edge view of the present invention. The right edge view is a mirror image of FIG. 3.

FIG. 4 shows in broken outline for illustrative purposes only the placement on the present invention of a trademark or logo that forms no part of the claimed design; and,

FIG. 5 is a transverse cross-section of the present invention, better showing some of the features of the ornamental design.
