(57) **CLAIM**

The ornamental design for electrical power cord adapter, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view showing a first embodiment of an electrical power cord adapter, with a handle portion thereof in a first position.

FIG. 2 is a top plan view of the design shown in FIG. 1.

FIG. 3 is an elevational view taken from the right side of FIG. 1.

FIG. 4 is a front elevational view taken from the left side of FIG. 3.

FIG. 5 is a rear elevational view taken from the right side of FIG. 3.

FIG. 6 is a bottom plan view of the design shown in FIG. 1.

FIG. 7 is a perspective view of the design shown in FIG. 1, with the handle portion thereof in a second position.

FIG. 8 is a top plan view of the design shown in FIG. 7.

FIG. 9 is an elevational view taken from the right side of FIG. 7.

FIG. 10 is a front elevational view taken from the left side of FIG. 9.

FIG. 11 is a rear elevational view taken from the right side of FIG. 9.

FIG. 12 is a bottom plan view of the design shown in FIG. 7.

FIG. 13 is a perspective view showing a second embodiment of an electrical power cord adapter, with a handle portion thereof in a first position.

FIG. 14 is a top plan view of the design shown in FIG. 13.

FIG. 15 is an elevational view taken from the right side of FIG. 13.

FIG. 16 is a front elevational view taken from the left side of FIG. 15.

FIG. 17 is a rear elevational view taken from the right side of FIG. 15.

FIG. 18 is a bottom plan view of the design shown in FIG. 13.

FIG. 19 is a perspective view of the design shown in FIG. 1 with the handle portion thereof in a second position.

FIG. 20 is a top plan view of the design shown in FIG. 19.

FIG. 21 is an elevational view taken from the right side of FIG. 19.

FIG. 22 is a front elevational view taken from the left side of FIG. 21.

FIG. 23 is a rear elevational view taken from the right side of FIG. 21; and,

FIG. 24 is a bottom plan view of the design shown in FIG. 19.

The superimposed broken lines showing a portion of a cord, prongs and receptacle openings are included for the purpose of illustrating environment and form no part of the claimed design.

The small feature located on the inside portion of the handle as shown in broken lines in FIGS. 4, 5, 8, 12, 16, 17, 20 and 24 forms no part of the claimed design.

The broken lines in FIGS. 1-5, 7-11, 13-17 and 19-23 showing a lens feature for an internal lamp used for illumination form no part of the claimed design.
