(57) **CLAIM**

We claim the ornamental design for a foldable support for a
domed illumination element, as shown and described.

DESCRIPTION

FIG. 1 shows a top plan view of a first embodiment of a
foldable support for a domed illumination element, the bot-
tom view being a mirror image thereof.

FIG. 2 shows a front elevation view of the first embodiment of
the foldable support for the domed illumination element,
shown in FIG. 1, where the back, right side and left side
elevation views are identical thereto.

FIG. 3 shows a perspective view of a second embodiment of
a foldable support for a domed illumination element.

FIG. 4 shows a top plan view of the second embodiment of the
foldable support for a domed illumination element shown in
FIG. 3, the bottom view being a mirror image thereof; and,

FIG. 5 shows a front elevation view of the second embodi-
ment of the foldable support for the domed illumination ele-
ment, shown in FIG. 3, where the back, right side and left side
elevation views are identical thereto.

The broken lines are for illustration purposes only and form
no part of the claimed design.
