(57) **CLAIM**

The ornamental design for an electrical switch keypad, as shown and described.

**DESCRIPTION**

FIG. 1 is an end view of an electrical switch keypad according to the present invention, this view being common to all of the embodiments.

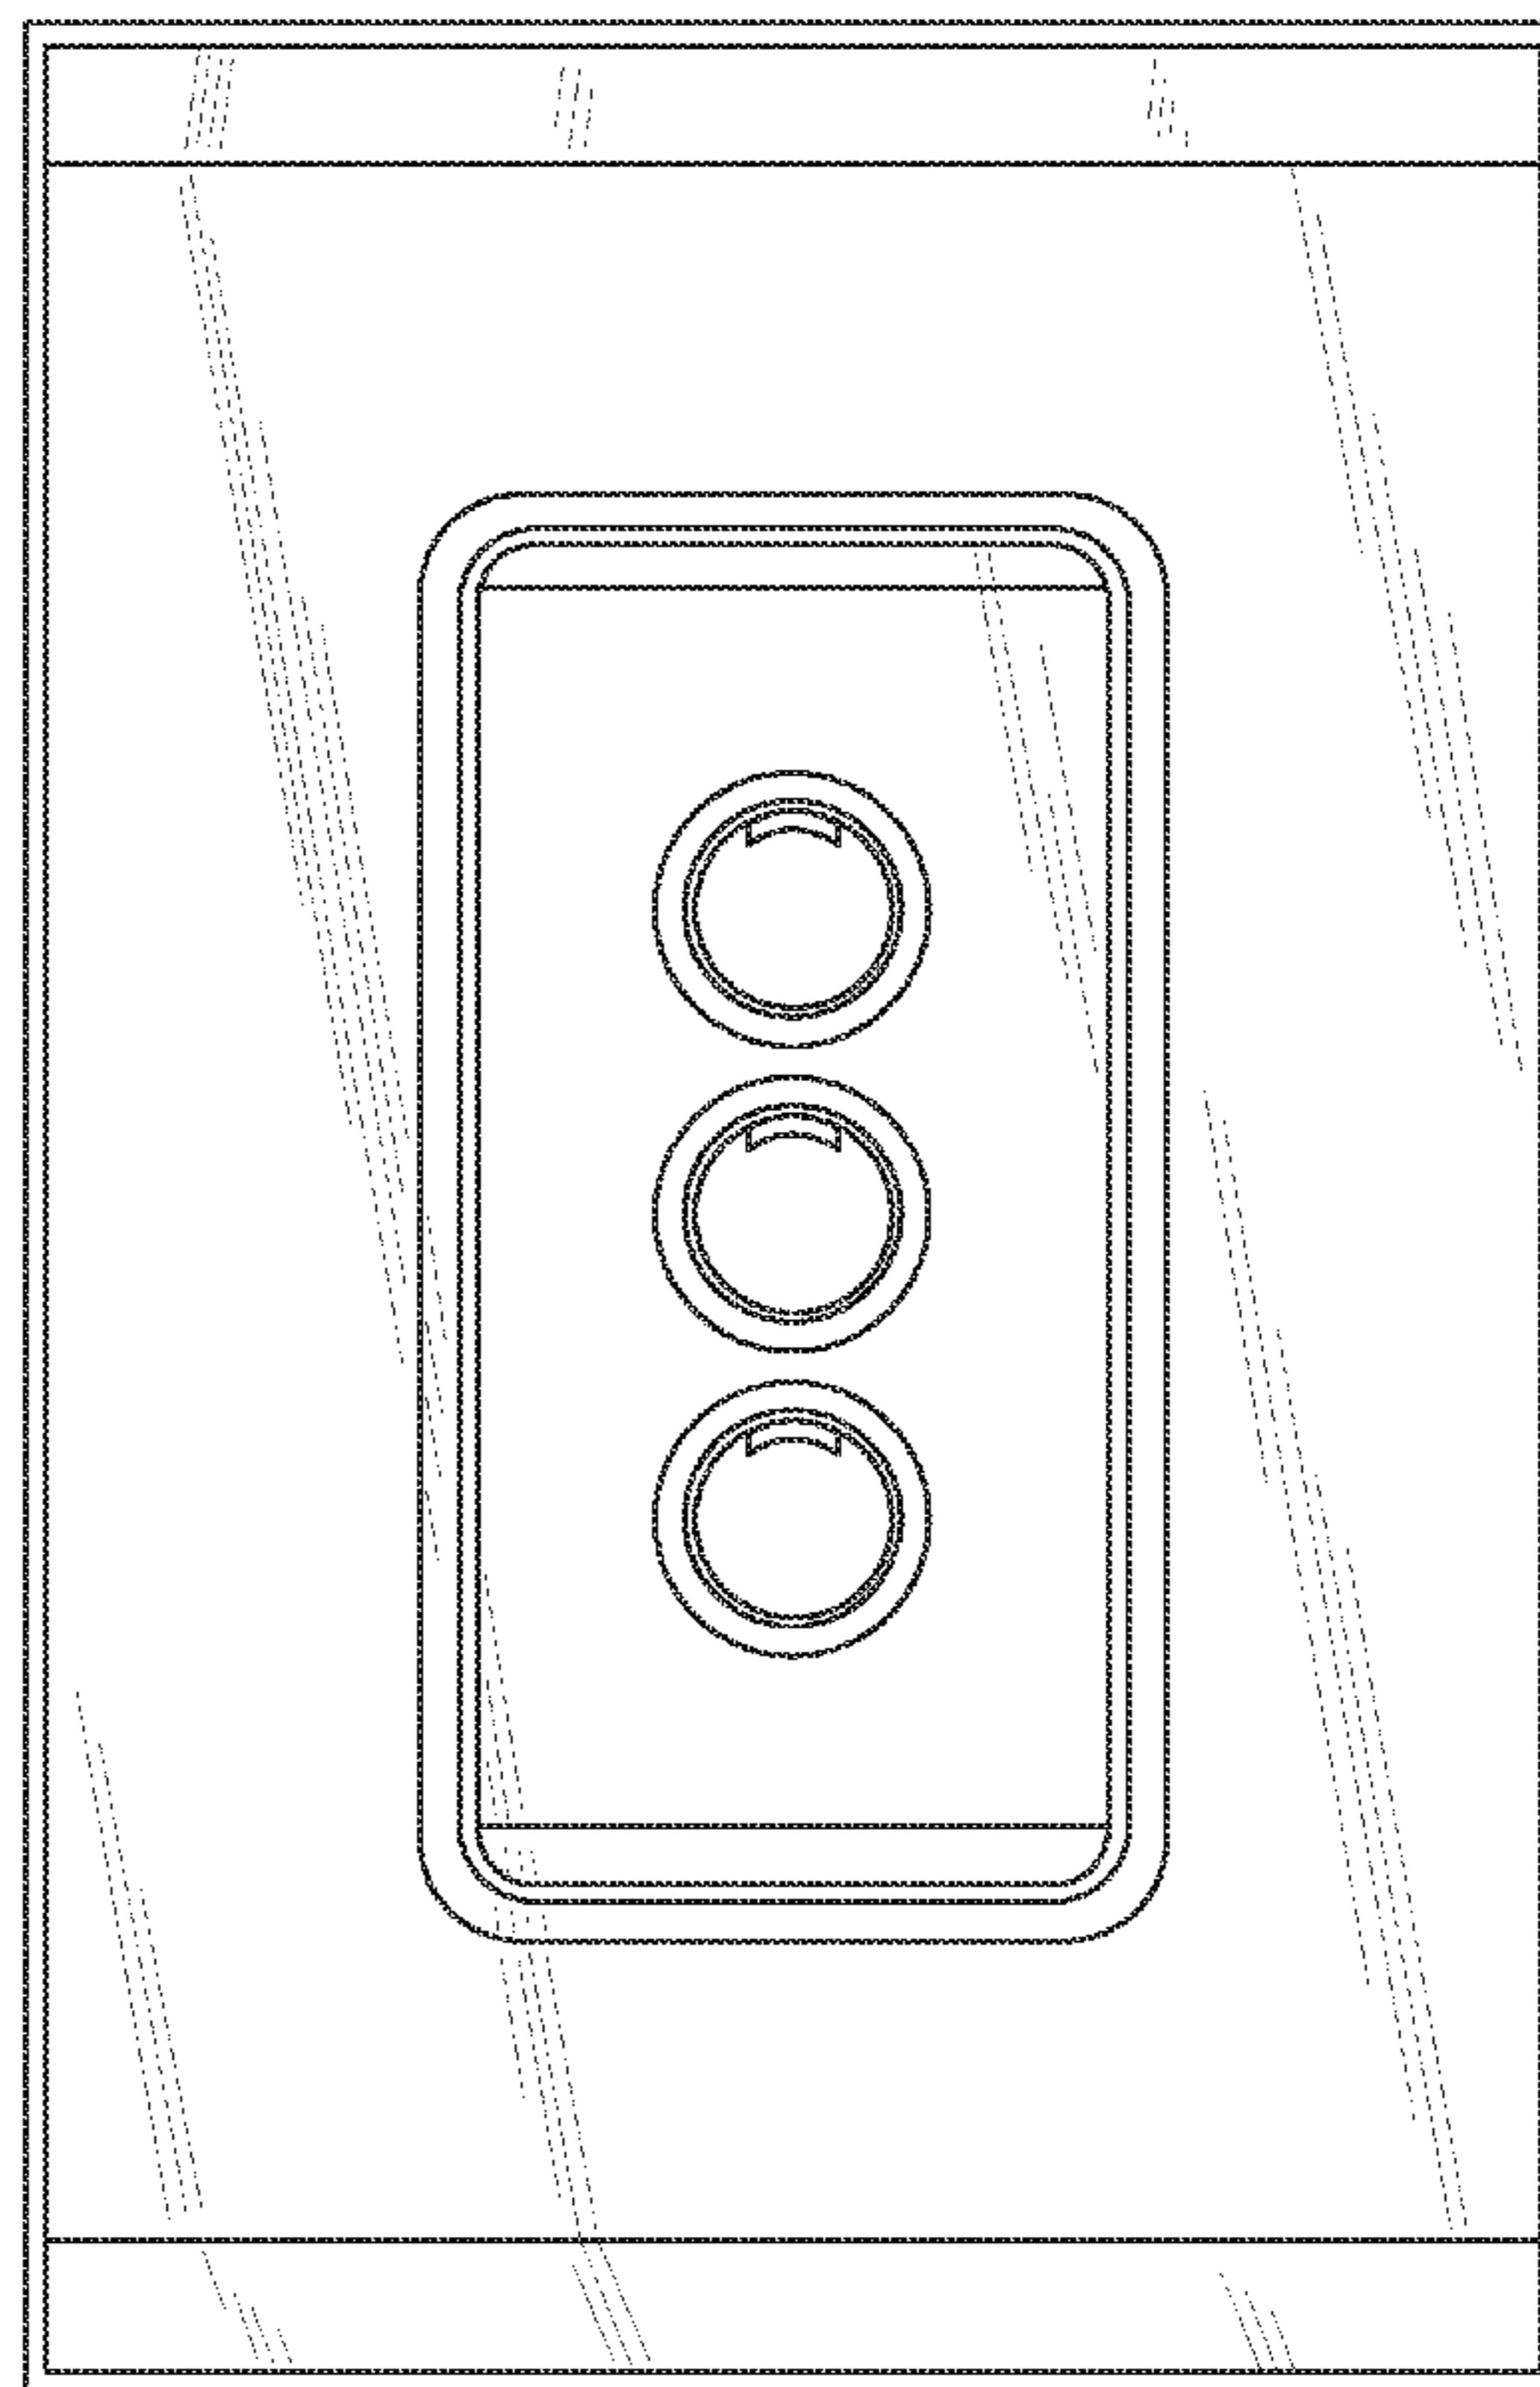

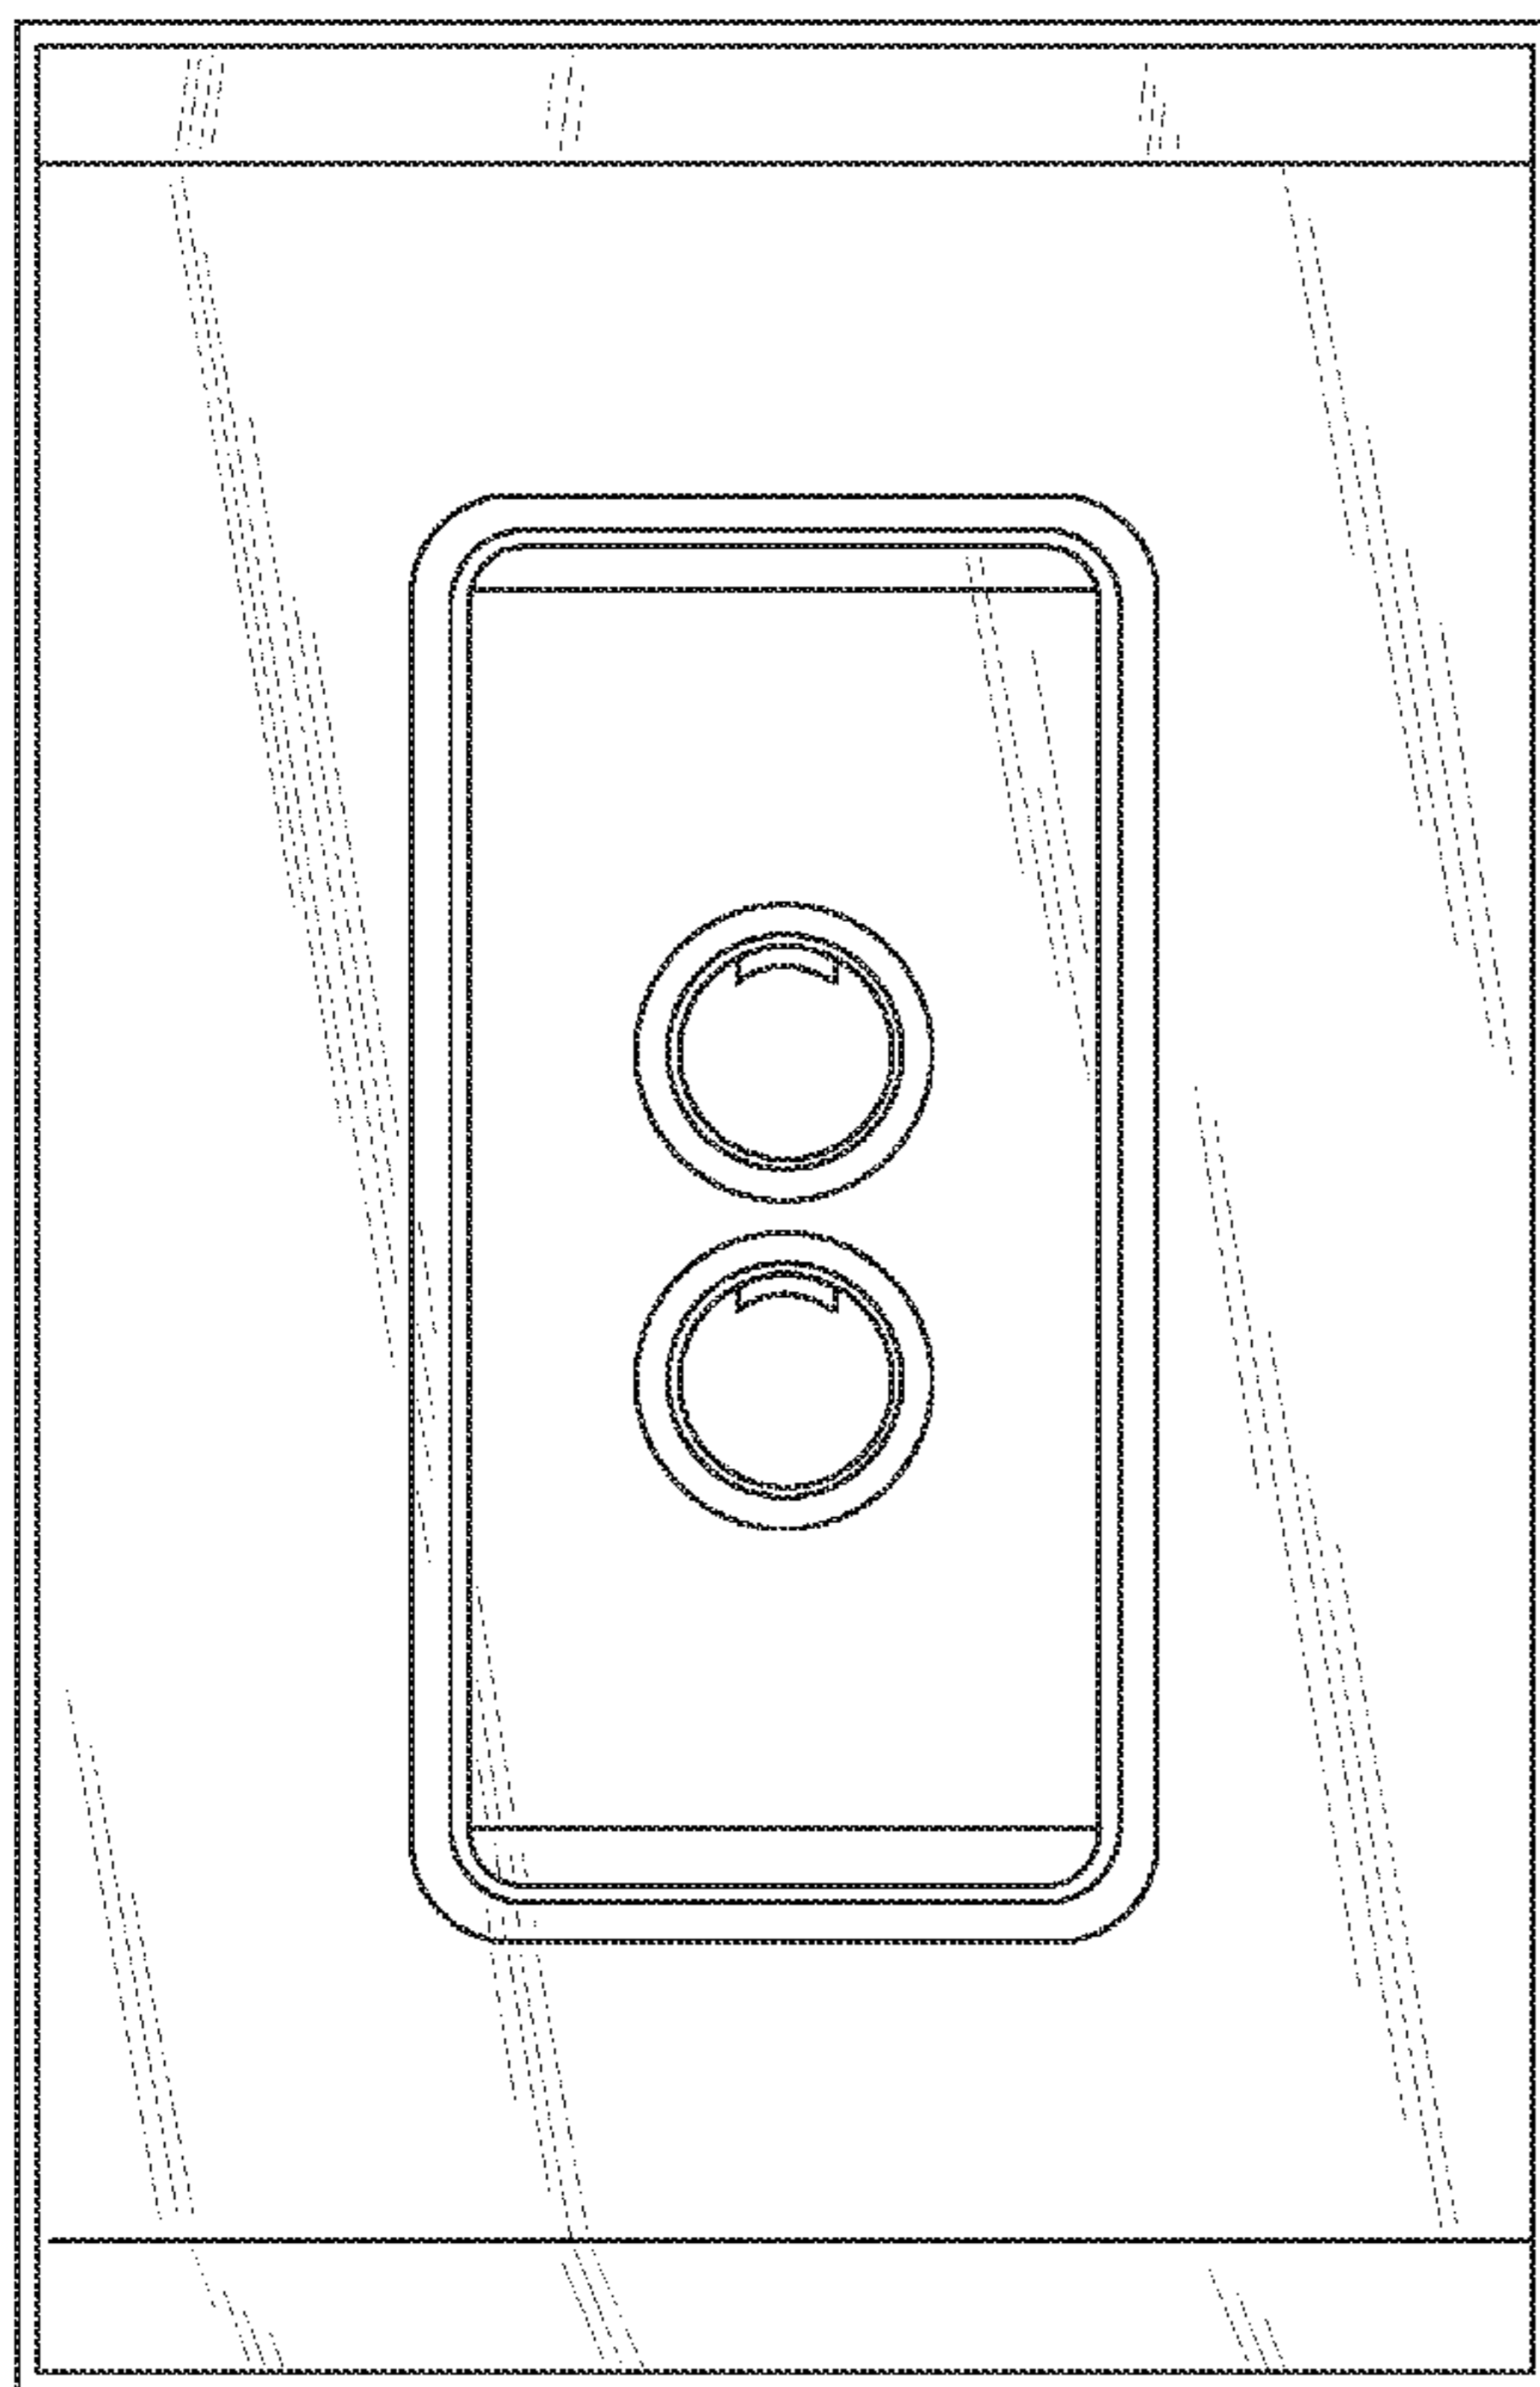

FIGS. 2-4 are front, right side, and perspective views respectively of a first embodiment of the electrical switch keypad showing our new design.

FIGS. 5-7 are front, right side, and perspective views respectively of a second embodiment of the electrical switch keypad; and,

FIGS. 8-10 are front, right side, and perspective views respectively of a third embodiment of the electrical switch keypad.

For each embodiment the left side view is a mirror image of the illustrated right side view. The broken lines in each perspective view show surfaces seen through the translucent top surfaces of the keypad.
