(57) **CLAIM**

The ornamental design for a tire tread, as shown and  
described.

**DESCRIPTION**

FIG. 1 is a perspective view of a tire tread, it being understood  
that the tread pattern repeats circumferentially and uniformly  
throughout the outer circumference and shoulder area of the  
tire; and,

FIG. 2 is a front elevation view thereof, the rear elevation view  
being identical thereto.

In the drawing, the shading represents the recessed groove  
portions of the tire tread having a depth. The broken line  
disclosure of the tire side wall and bead areas are for illustra-  
tive purposes only and form no part of the claimed design.
