(57) **CLAIM**

The ornamental design for microelectronic connector, as shown and described.

**DESCRIPTION**

The microelectronic connector is used for making an electrical and mechanical connection to a mating ball terminal as shown in broken line in FIG. 7.

FIG. 1 is a perspective view of a microelectronic connector showing my new design;

FIG. 2 is a front elevational view thereof, the rear elevational view being identical to the front elevational view;

FIG. 3 is a left side elevational view thereof;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a bottom view showing a tubular base thereof;

FIG. 6 is a top plan view thereof; and,

FIG. 7 is a rear elevational view thereof, showing a typical usage configuration.

The broken line portion of FIG. 7 is included to show an unclaimed mating ball terminal only and forms no part of the claimed design.
