(57) **CLAIM**

The ornamental design for a catheter connector, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a catheter connector showing my new design;

FIG. 2 is a top view of the catheter connector shown in FIG. 1;

FIG. 3 is a bottom view of the catheter connector shown in FIG. 1;

FIG. 4 is a side view of the catheter connector shown in FIG. 1;

FIG. 5 is another side view of the catheter connector shown in FIG. 1;

FIG. 6 is a rear view of a first portion of the catheter connector shown in FIG. 1;

FIG. 7 is a front view of the first portion of the catheter connector shown in FIG. 1;

FIG. 8 is a front view of a second portion of the catheter connector shown in FIG. 1; and,

FIG. 9 is a rear view of the second portion of the catheter connector shown in FIG. 1.

The uneven broken lines in FIGS. 7, 8, and 9 represent boundaries of the claimed design. The uneven broken line representation of an aperture within the area circumscribed by the circular shaped boundary, as well as all of the boundaries themselves, are for illustrative purposes only and form no part of the claimed design.
