(57) **CLAIM**

We claim the ornamental design for a pet nail grooming tool, as shown and described.

FIG. 1 is a perspective view of the pet nail grooming tool shown in use by a user;  
FIG. 2 is a top plan view of the pet nail grooming tool;  
FIG. 3 is a bottom view of the pet nail grooming tool;  
FIG. 4 is a front view of the pet nail grooming tool;  
FIG. 5 is a rear view of the pet nail grooming tool;  
FIG. 6 is a side elevation view of the pet nail grooming tool;  
FIG. 7 is a side elevation view of the pet nail grooming tool showing the side opposite of the side shown in FIG. 6 in an inverted position for use by a user;  
FIG. 8 is a side elevation view of the pet nail grooming tool showing the translucent head cap removed;  
FIG. 9 is a front view of the pet nail grooming tool, having the translucent head cap removed;  
FIG. 10 is a side elevation view of the pet nail grooming tool translucent head cap alone;  
FIG. 11 is a bottom view of the pet nail grooming tool showing the translucent head cap removed;  
FIG. 12 is a bottom view of the pet nail grooming tool translucent head cap alone;  
FIG. 13 is a top plan view of the pet nail grooming tool showing the translucent head cap removed;  
FIG. 14 is a front view of the pet nail grooming tool translucent head cap alone;  
FIG. 15 is a top plan view of the pet nail grooming tool translucent head cap alone; and,  
FIG. 16 is a perspective view of the cap pulled away from a partial perspective view of the pet nail grooming tool.  
The broken line drawing of a user's hands and a pet's paw as illustrated in FIG. 1 forms no part of the design of the pet nail grooming tool, as shown and described.
