(57) **CLAIM**

I claim the ornamental design for a handheld communication device, as shown and described.

FIG. 1 is a perspective view of a handheld communication device with the display in a closed position according to the present invention.

FIG. 2 is a bottom plan view of the handheld communication device of FIG. 1.

FIG. 3 is a front end view of the handheld communication device of FIG. 1.

FIG. 4 is a rear end view of the handheld communication device of FIG. 1.

FIG. 5 is a first side elevational view of the handheld communication device of FIG. 1.

FIG. 6 is a top plan view of the handheld communication device of FIG. 1.

FIG. 7 is a second side elevational view of the handheld communication device of FIG. 1.

FIG. 8 is a perspective view of the handheld communication device of FIG. 1 in an open position.

FIG. 9 is a bottom plan view of the handheld communication device of FIG. 1 in an open position.

FIG. 10 is a front end view of the handheld communication device of FIG. 1 in an open position.

FIG. 11 is a rear end view of the handheld communication device of FIG. 1 in an open position.

FIG. 12 is a first side elevational view of the handheld communication device of FIG. 1 in an open position.

FIG. 13 is a top plan view of the handheld communication device of FIG. 1 in an open position; and,

FIG. 14 is a second side elevational view of the handheld communication device of FIG. 1 in an open position.
