(57) **CLAIM**

The ornamental design for an abutment for partition walls, as shown and described.

DESCRIPTION

The ornamental design of an abutment for partition walls pertain to elongated plaster moldings designed to run between a ceiling and a floor and having an abutment surface for abutment against the end surface of a partition wall or as a join between two such walls.

FIG. 1 is a front view of an abutment for partition walls in accordance with one embodiment of the design;

FIG. 2 is a plan view of the abutment for partition walls of FIG. 1;

FIG. 3 is a rear view of the abutment for partition walls of FIG. 1;

FIG. 4 is a left side view of the abutment for partition walls of FIG. 1;

FIG. 5 is a right side view of the abutment for partition walls of FIG. 1;

FIG. 6 is a perspective view of the abutment for partition walls of FIG. 1;

FIG. 7 is a front view of an abutment for partition walls in accordance with a second embodiment of the design;

FIG. 8 is a plan view of the abutment for partition walls of FIG. 7;

FIG. 9 is a rear view of the abutment for partition walls of FIG. 7;

FIG. 10 is a left side view of the abutment for partition walls of FIG. 7;

FIG. 11 is a right side view of the abutment for partition walls of FIG. 7; and,

FIG. 12 is a perspective view of the abutment for partition walls of FIG. 7.
