(57) **CLAIM**

The ornamental design for a “portable satellite station screen unit,” as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a portable satellite station screen unit in an open position.

FIG. 2 is a top plan view of the open portable satellite station screen unit of FIG. 1.

FIG. 3 is a bottom plan view of the open portable satellite station screen unit of FIG. 1.

FIG. 4 is a front view of the open portable satellite station screen unit of FIG. 1.

FIG. 5 is a rear view of the open portable satellite station screen unit of FIG. 1.

FIG. 6 is a right side view of the open portable satellite station screen unit of FIG. 1.

FIG. 7 is a left side view of the open portable satellite station screen unit of FIG. 1.

FIG. 8 is a perspective view of the portable satellite station screen unit of FIG. 1 in a closed position.

FIG. 9 is a top plan view of the closed portable satellite station screen unit of FIG. 8.

FIG. 10 is a bottom plan view of the closed portable satellite station screen unit of FIG. 8.

FIG. 11 is a rear view of the closed portable satellite station screen unit of FIG. 8.

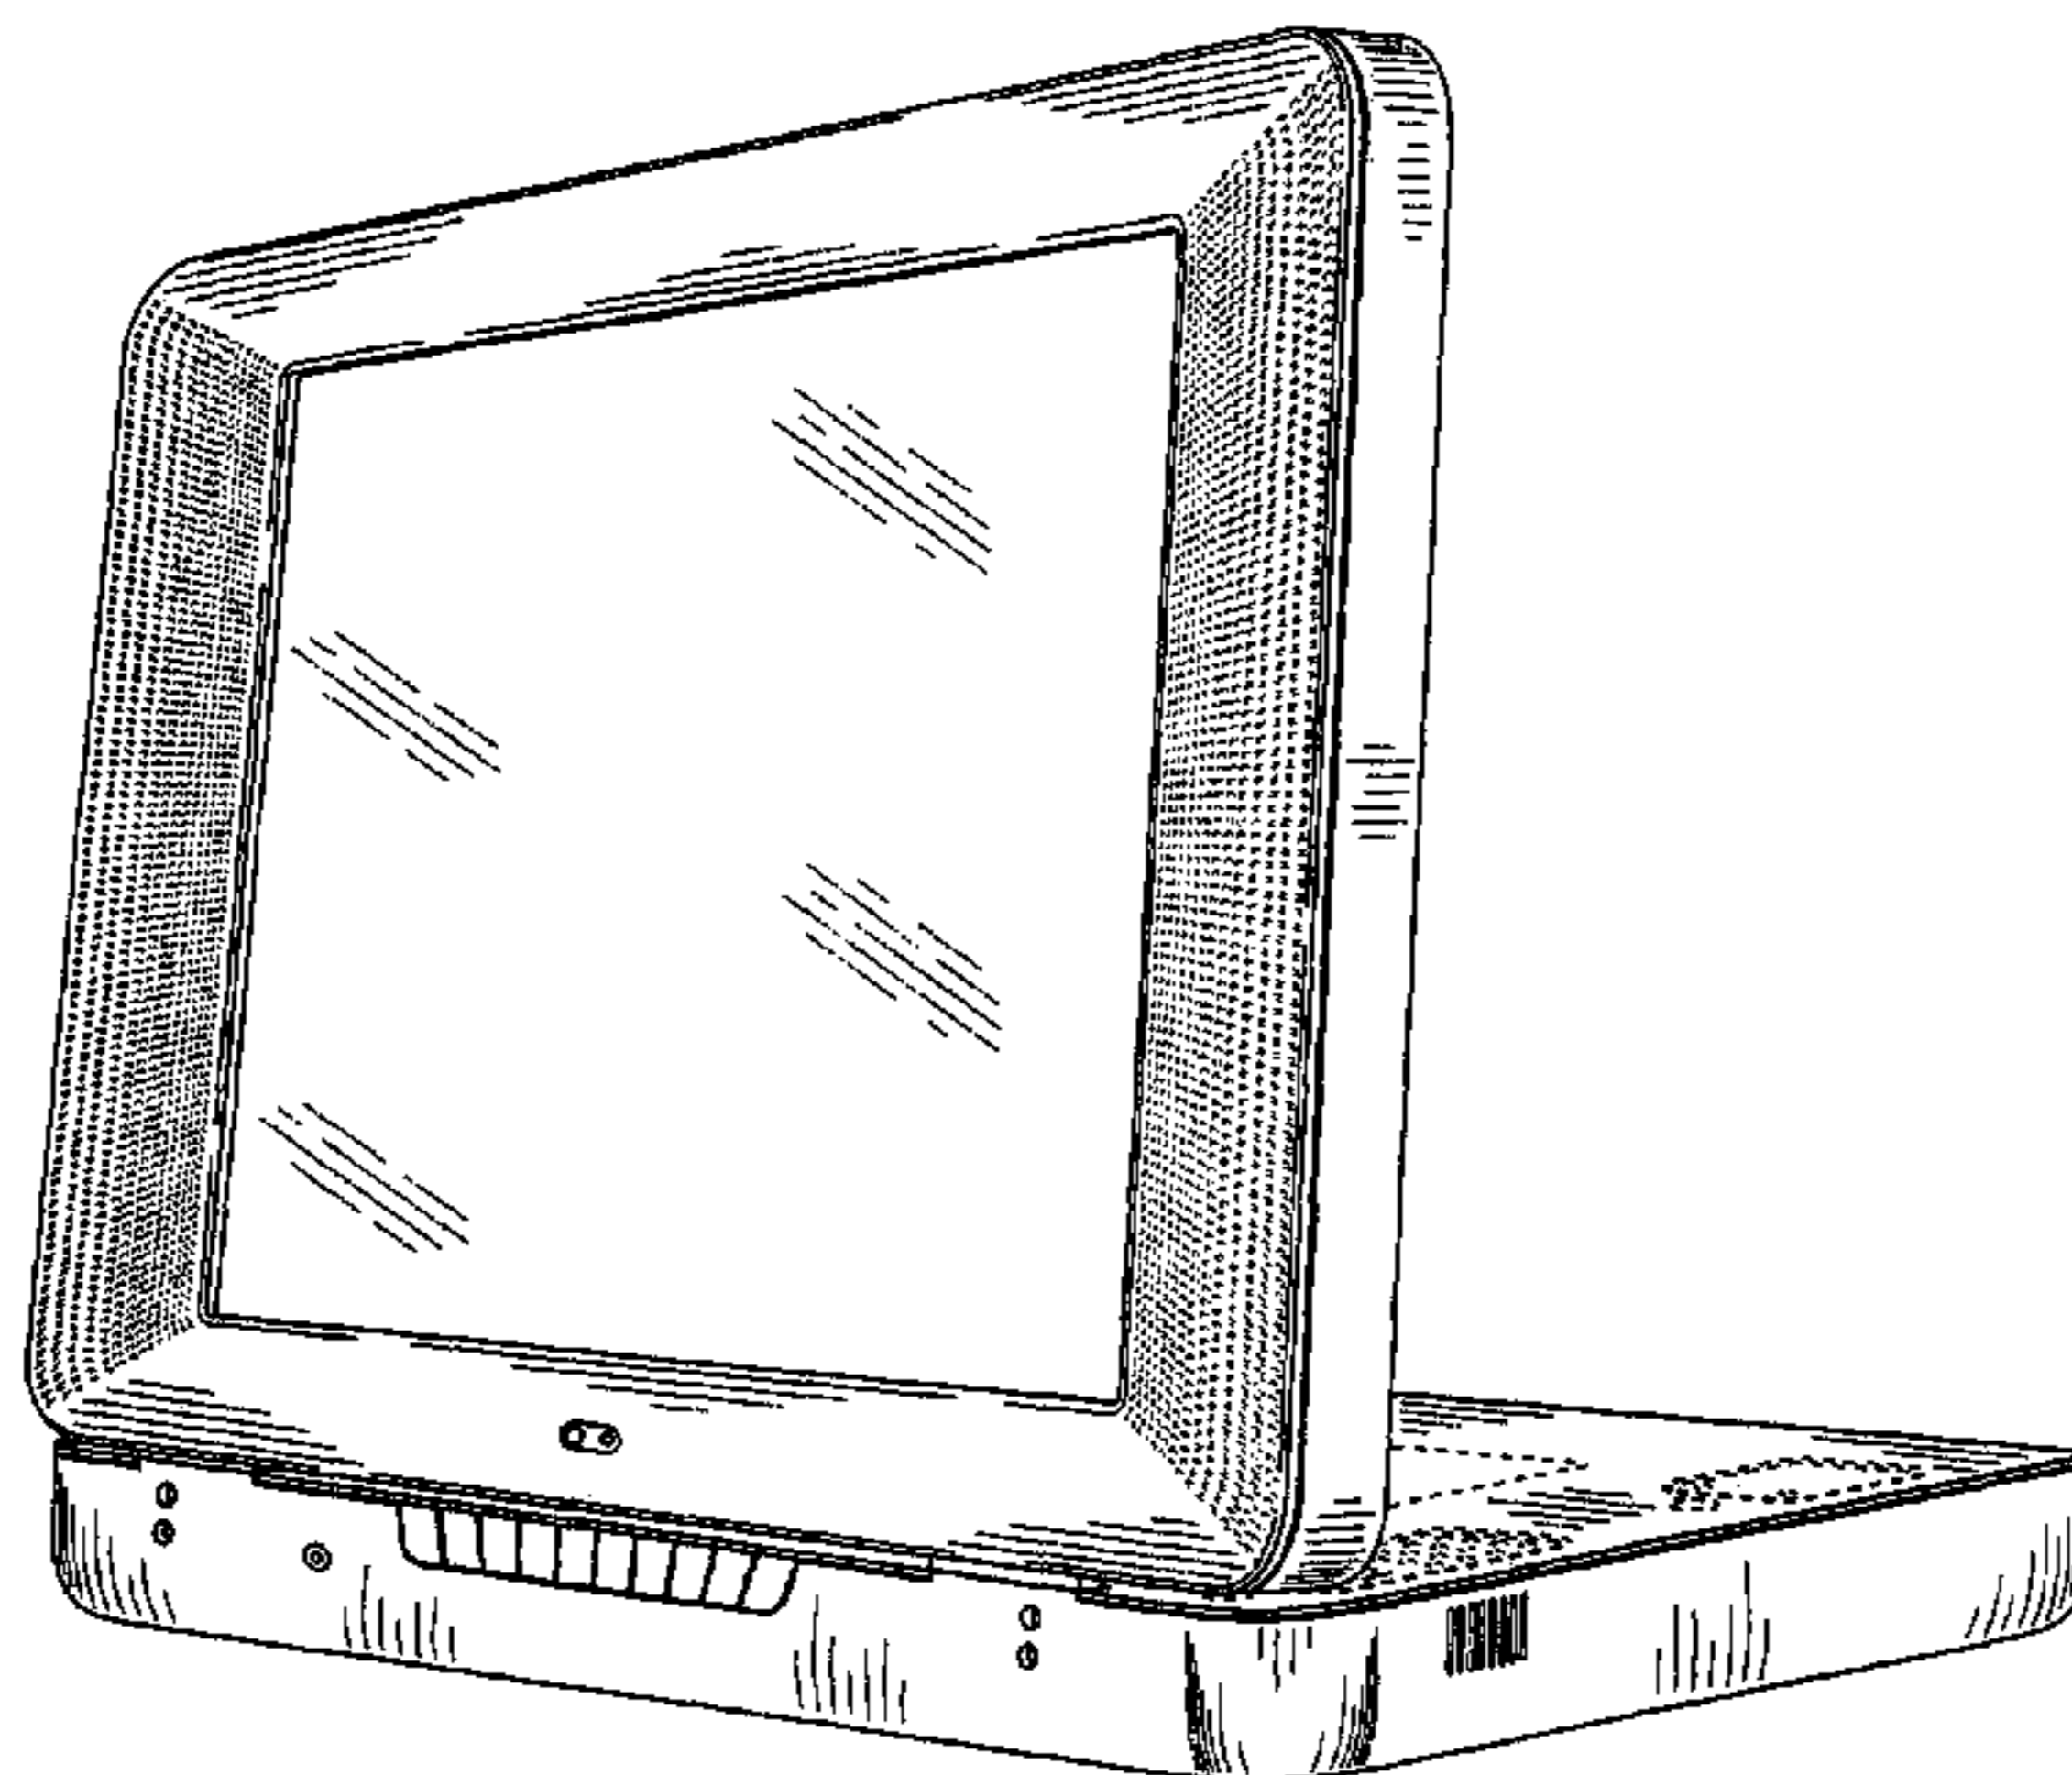

FIG. 12 is a front view of the closed portable satellite station screen unit of FIG. 8.

FIG. 13 is a right side view of the closed portable satellite station screen unit of FIG. 8; and,

FIG. 14 is a left side view of the closed portable satellite station screen unit of FIG. 8.

The features shown in broken lines are for illustrative purposes only and do not form part of the claimed design.
