(57) **CLAIM**

The ornamental design for a pegasus faucet, as shown and described.

DESCRIPTION

FIG. 1 is a frontal perspective view of a pegasus faucet showing two wing-shaped handles and a spout shaped like the head and neck of a horse between the handles.

FIG. 2 is a rear view of the right handle, the rear of the left handle being a mirror image of the rear of the right handle.

FIG. 3 is a top plan view showing the handles and a base end portion of the spout.

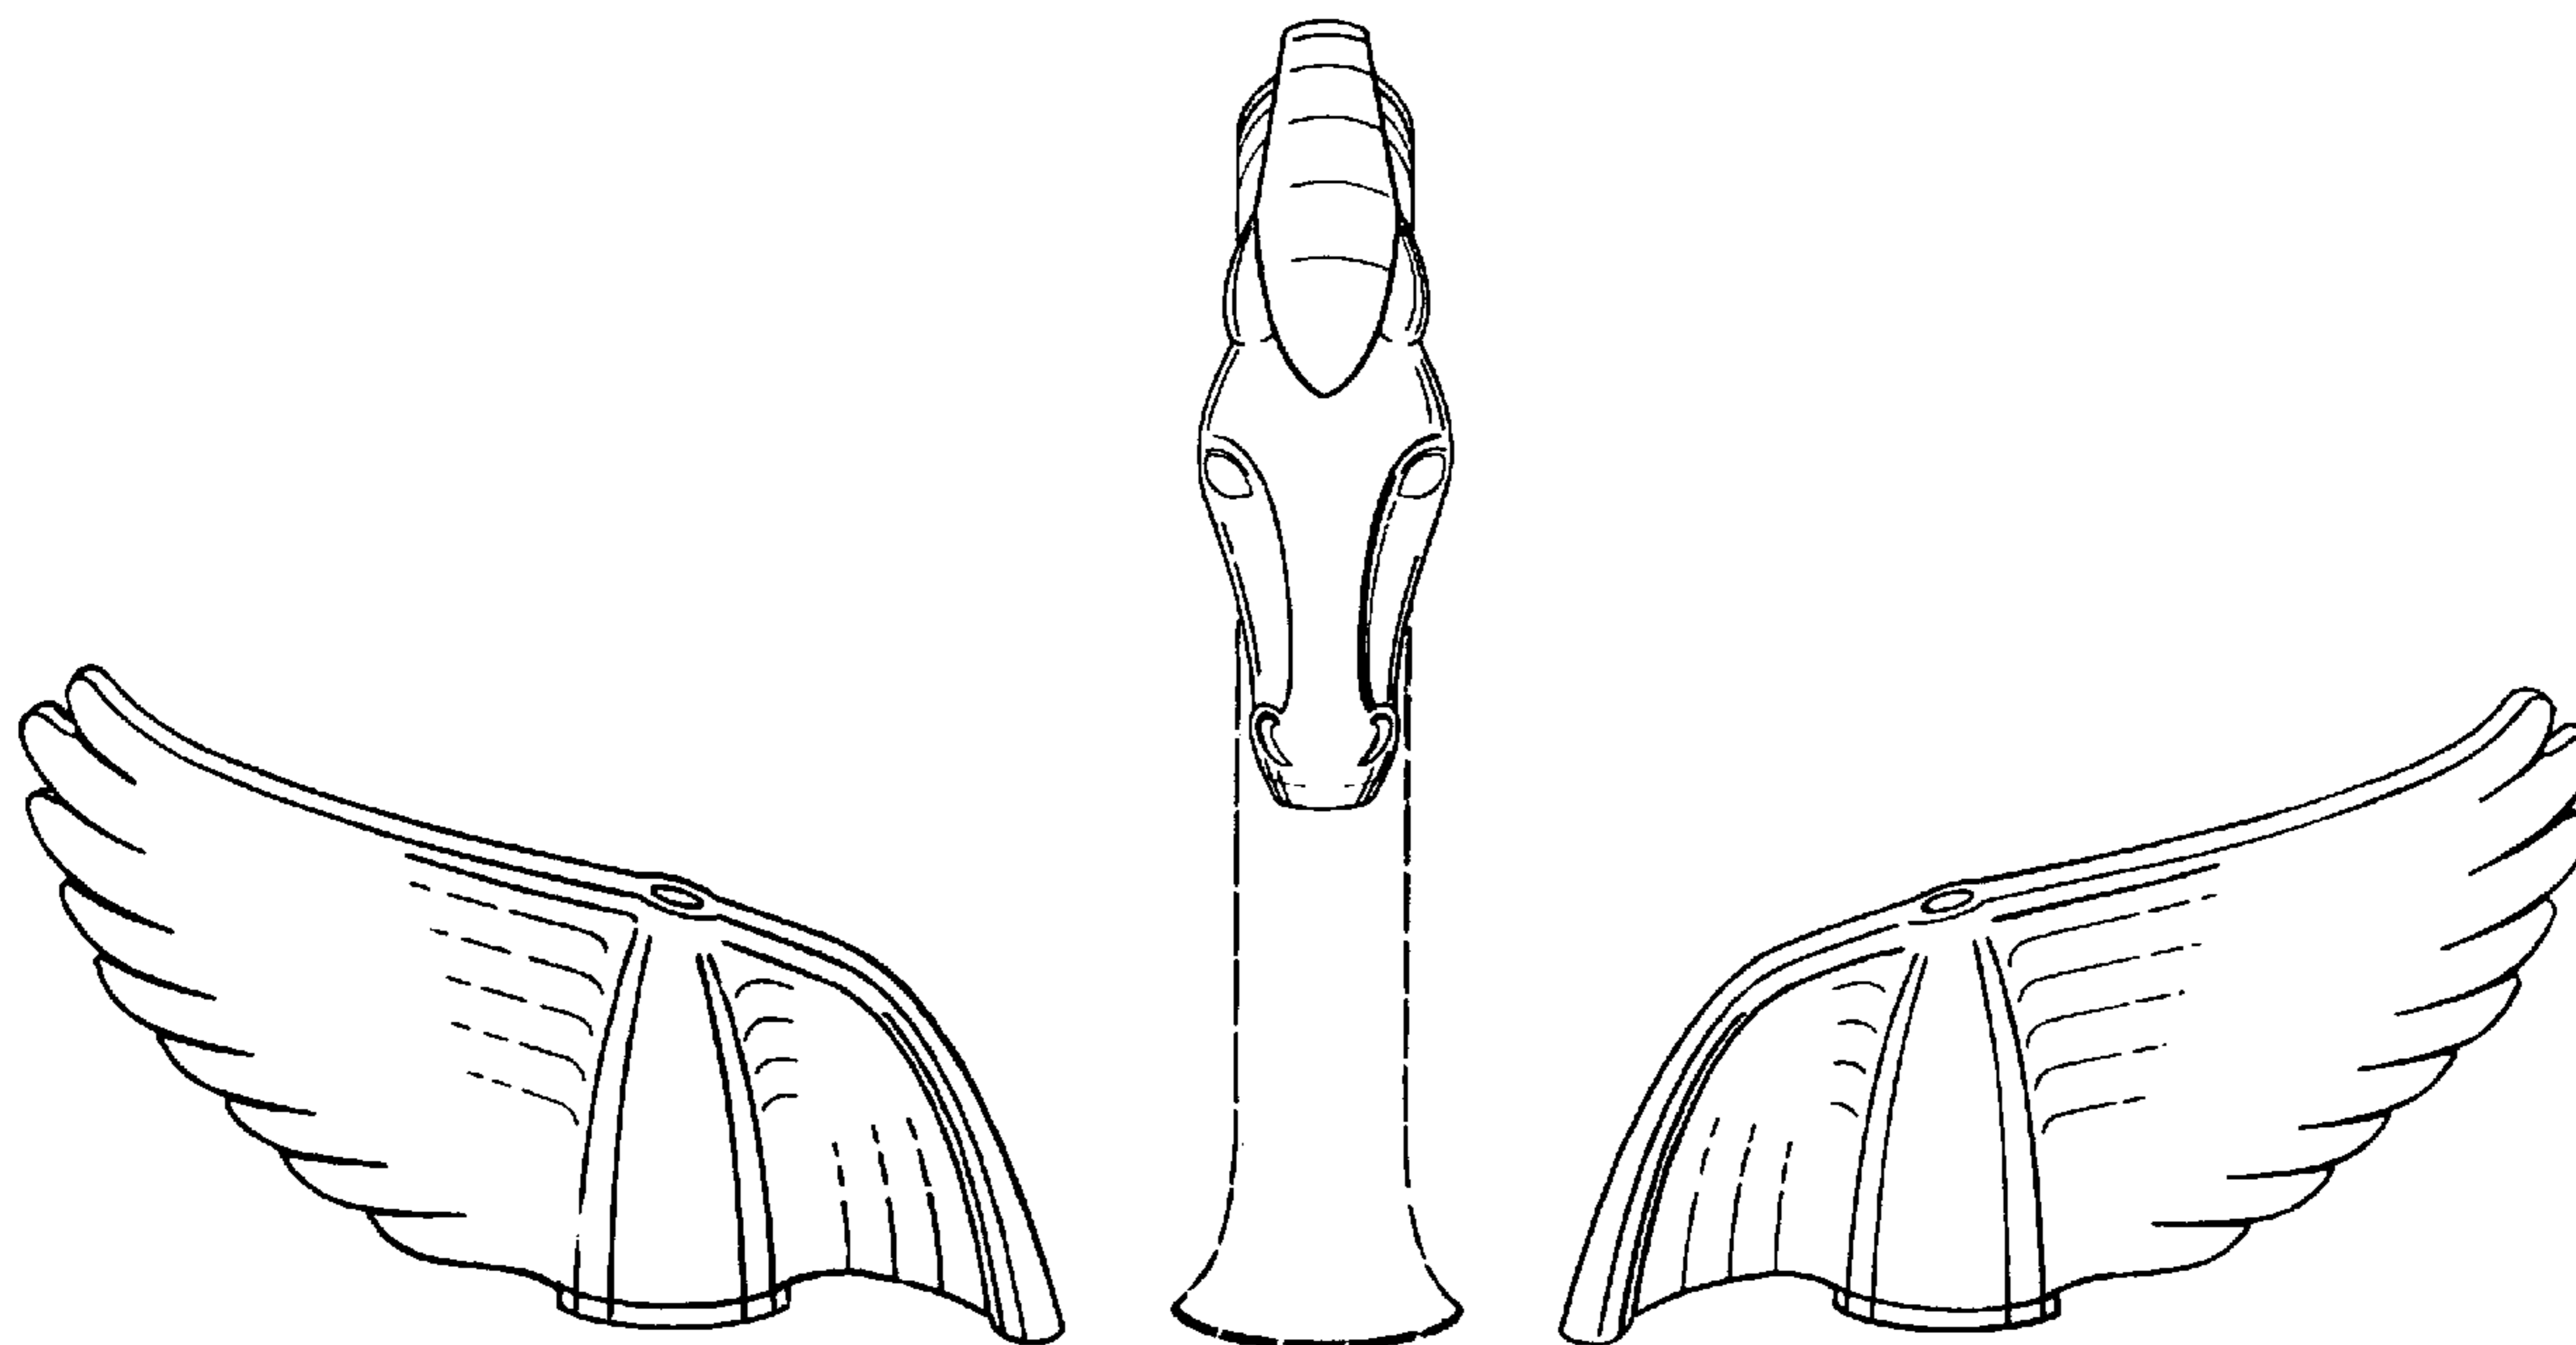

FIG. 4 is a left side view of a distal end portion of the spout, the right side being a mirror image of the left side.

FIG. 5 is an enlarged frontal view of a distal end portion of the spout; and,

FIG. 6 is a top view of the distal end portion of the spout.

The spout portions shown by broken lines are for the purpose of illustrating portions of the pegasus faucet that form no part of the claimed design.
