(57) **CLAIM**

The ornamental design for a combined epilator and integrated tweezers, as shown and described.

DESCRIPTION

FIG. 1 is a left side view of the epilator illustrating the new design, wherein the head of the epilator is covered by a

housing cap, and the accompanying tweezers are installed in the epilator body to form an integrated unit;

FIG. 2 is a front view thereof;

FIG. 3 is a right side view thereof;

FIG. 4 is a rear view thereof;

FIG. 5 is a front perspective view thereof;

FIG. 6 is a rear perspective view thereof, and

FIG. 7 is a bottom perspective view thereof.

FIG. 8 is a left side view of the epilator illustrating the new design, wherein the housing cap has been removed from the epilator head and the accompanying tweezers are placed adjacent to the epilator.

FIG. 9 is a front view thereof;

FIG. 10 is a right side view thereof; and

FIG. 11 is a rear view thereof.

FIG. 12 is a front perspective view of the epilator illustrating the new design, wherein the housing cap has been removed from the epilator head and positioned above the epilator, and the accompanying tweezers are placed adjacent to the epilator.

FIG. 13 is a rear perspective view thereof; and

FIG. 14 is a second perspective view thereof showing the upper portion of the epilator.

FIG. 15 is a front view of the epilator illustrating the new design, wherein the housing cap has been removed from the epilator head, and the accompanying tweezers are partly withdrawn from the epilator body; and

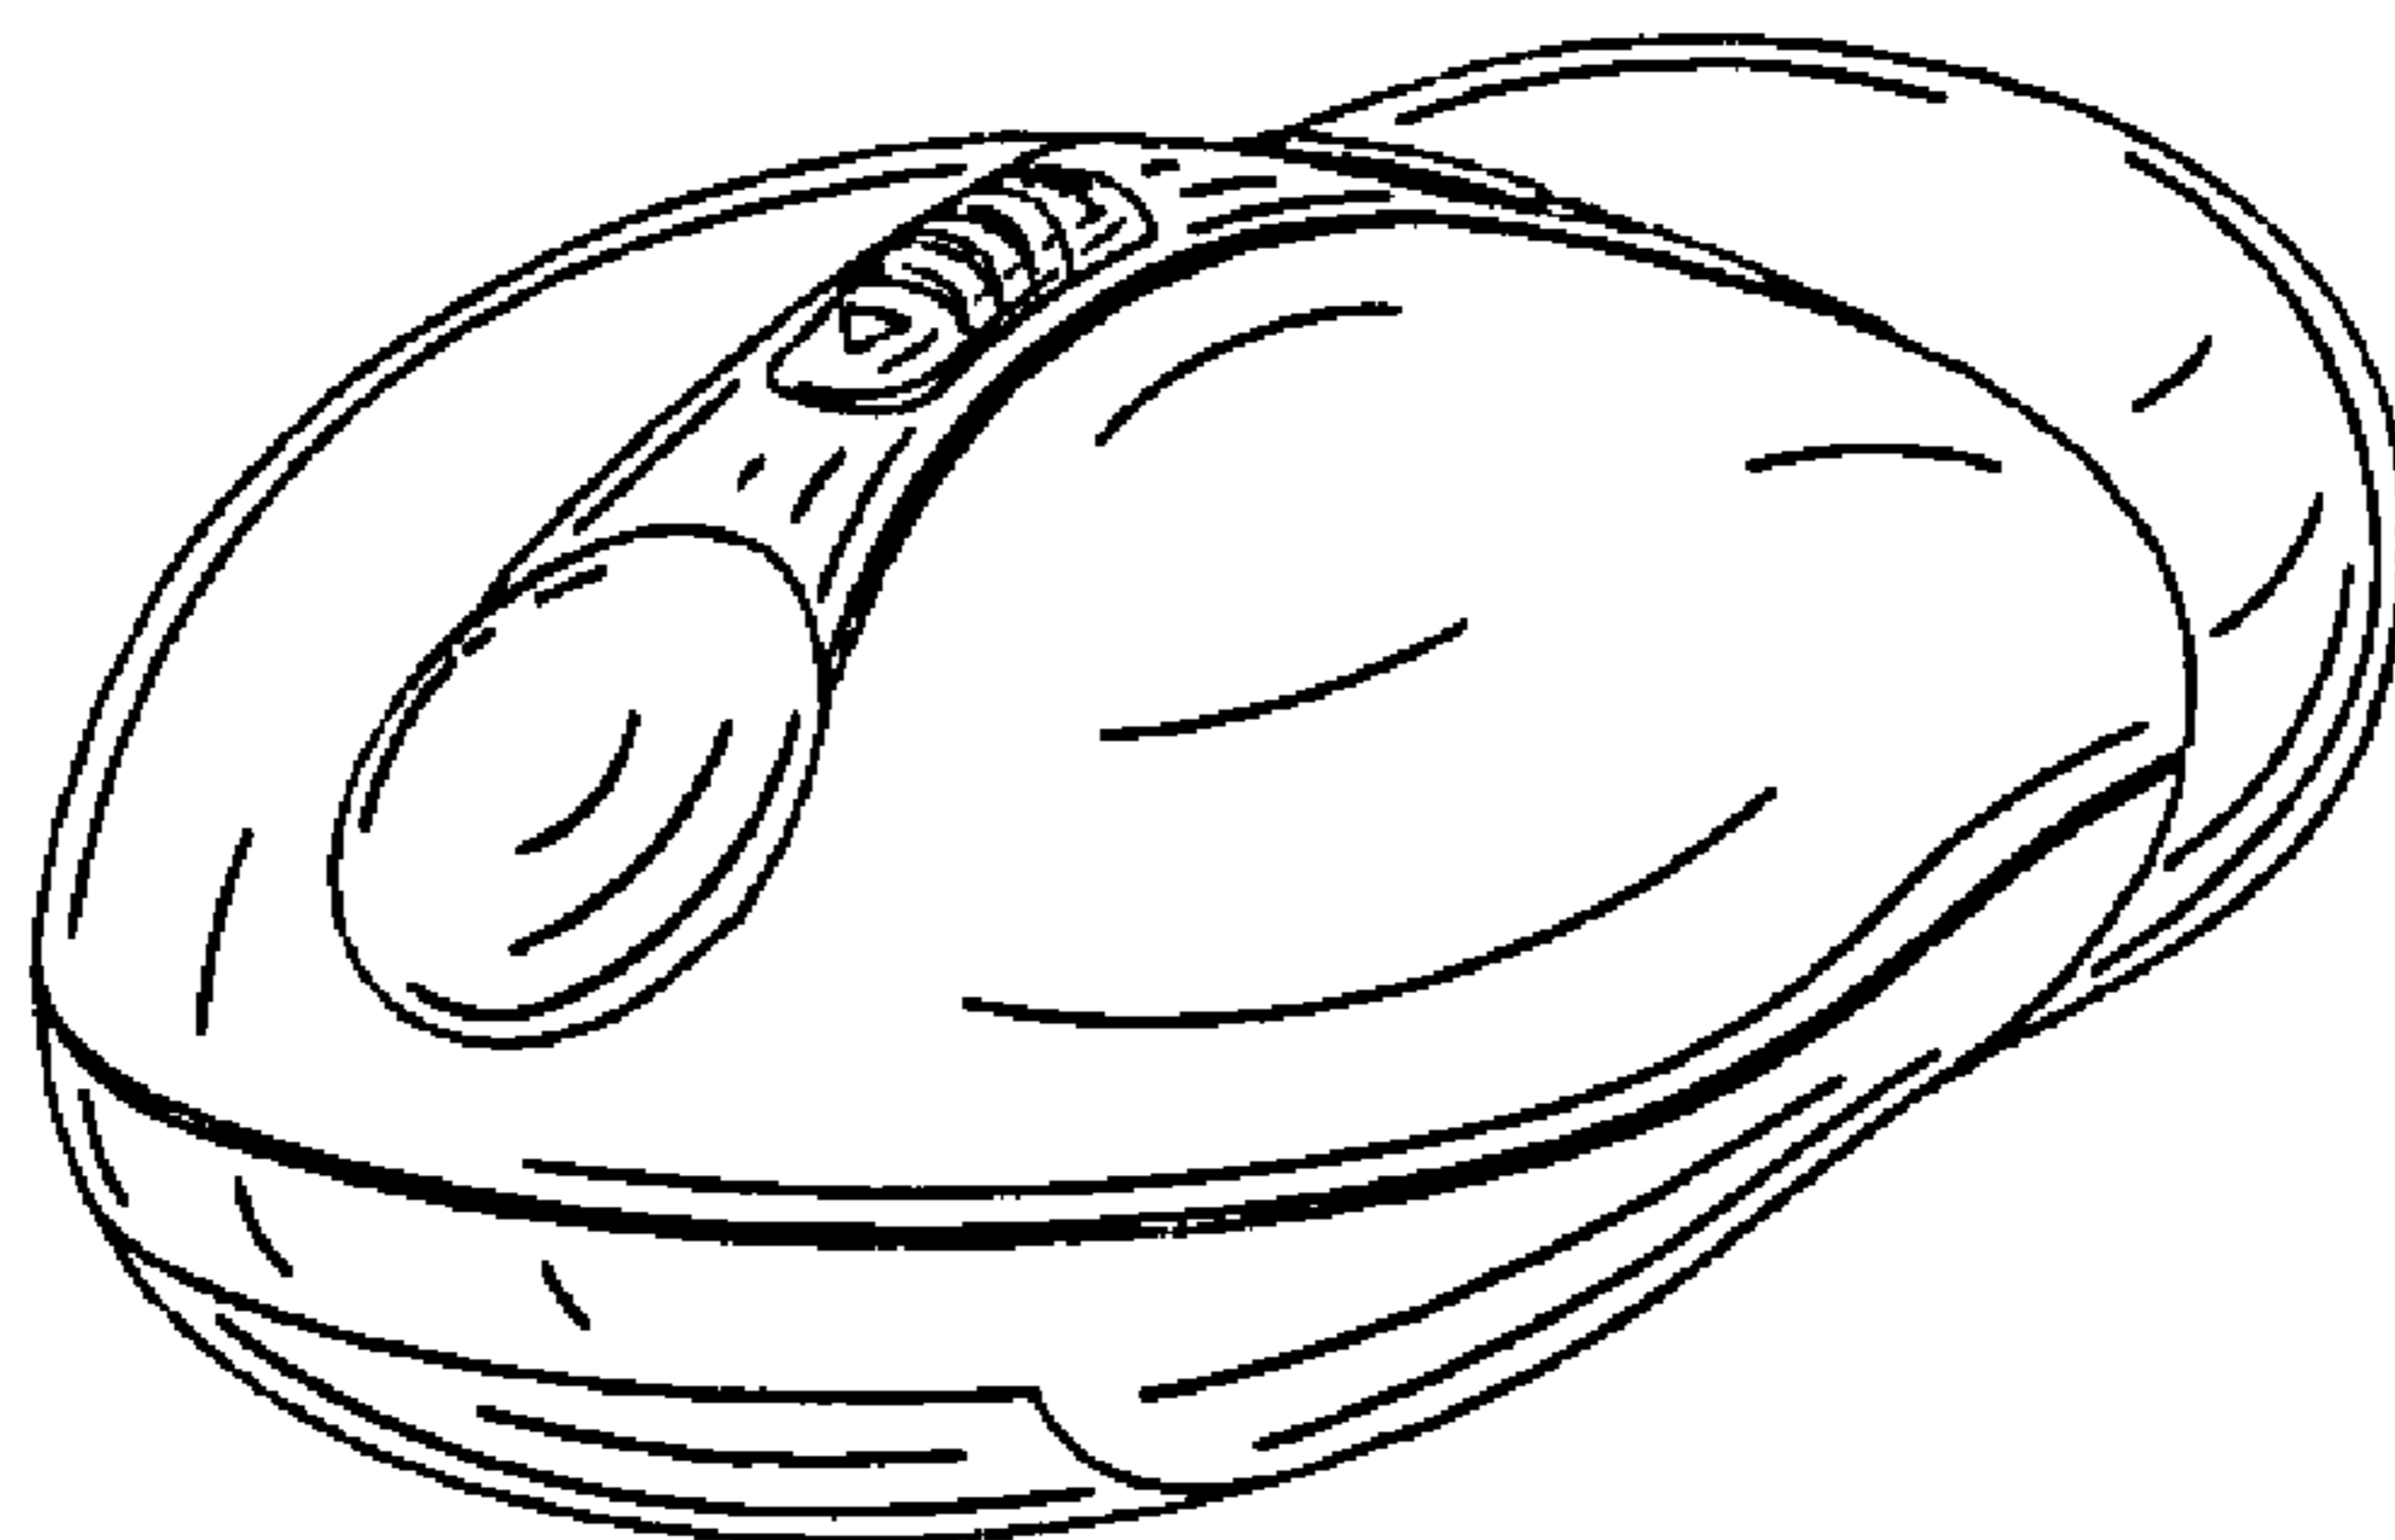

FIG. 16 is a right side view thereof; and,

FIG. 17 is a front perspective view of the epilator illustrating the new design, wherein the housing cap has been removed from the epilator head and positioned above the epilator, and the accompanying tweezers are partly withdrawn from the epilator body.

The housing cap has been removed in FIGS. 8-11, 15, and 16 for convenience of illustration.

The epilating head portion of the epilator is shown in broken lines for illustrative purposes only and forms no part of the claimed design.
