(57) **CLAIM**

The ornamental design for a stringed instrument wireless communication device, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a stringed instrument wireless communication device according to one embodiment.

FIG. 2 is a left side view of the stringed instrument wireless communication device of FIG. 1.

FIG. 3 is a front view of the stringed instrument wireless communication device of FIG. 1.

FIG. 4 is a back view of the stringed instrument wireless communication device of FIG. 1.

FIG. 5 is a top view of the stringed instrument wireless communication device of FIG. 1; and,

FIG. 6 is a bottom view of the stringed instrument wireless communication device of FIG. 1.

The broken line showing portion of a stringed instrument wireless communication design is included for the purpose of illustrating environmental structure and forms no part of the claimed design.
