(57) **CLAIM**

The ornamental design for the multipurpose valise for children, as shown and described.

DESCRIPTION

FIG. 1, is a front elevational view. The rear elevational view is identical.

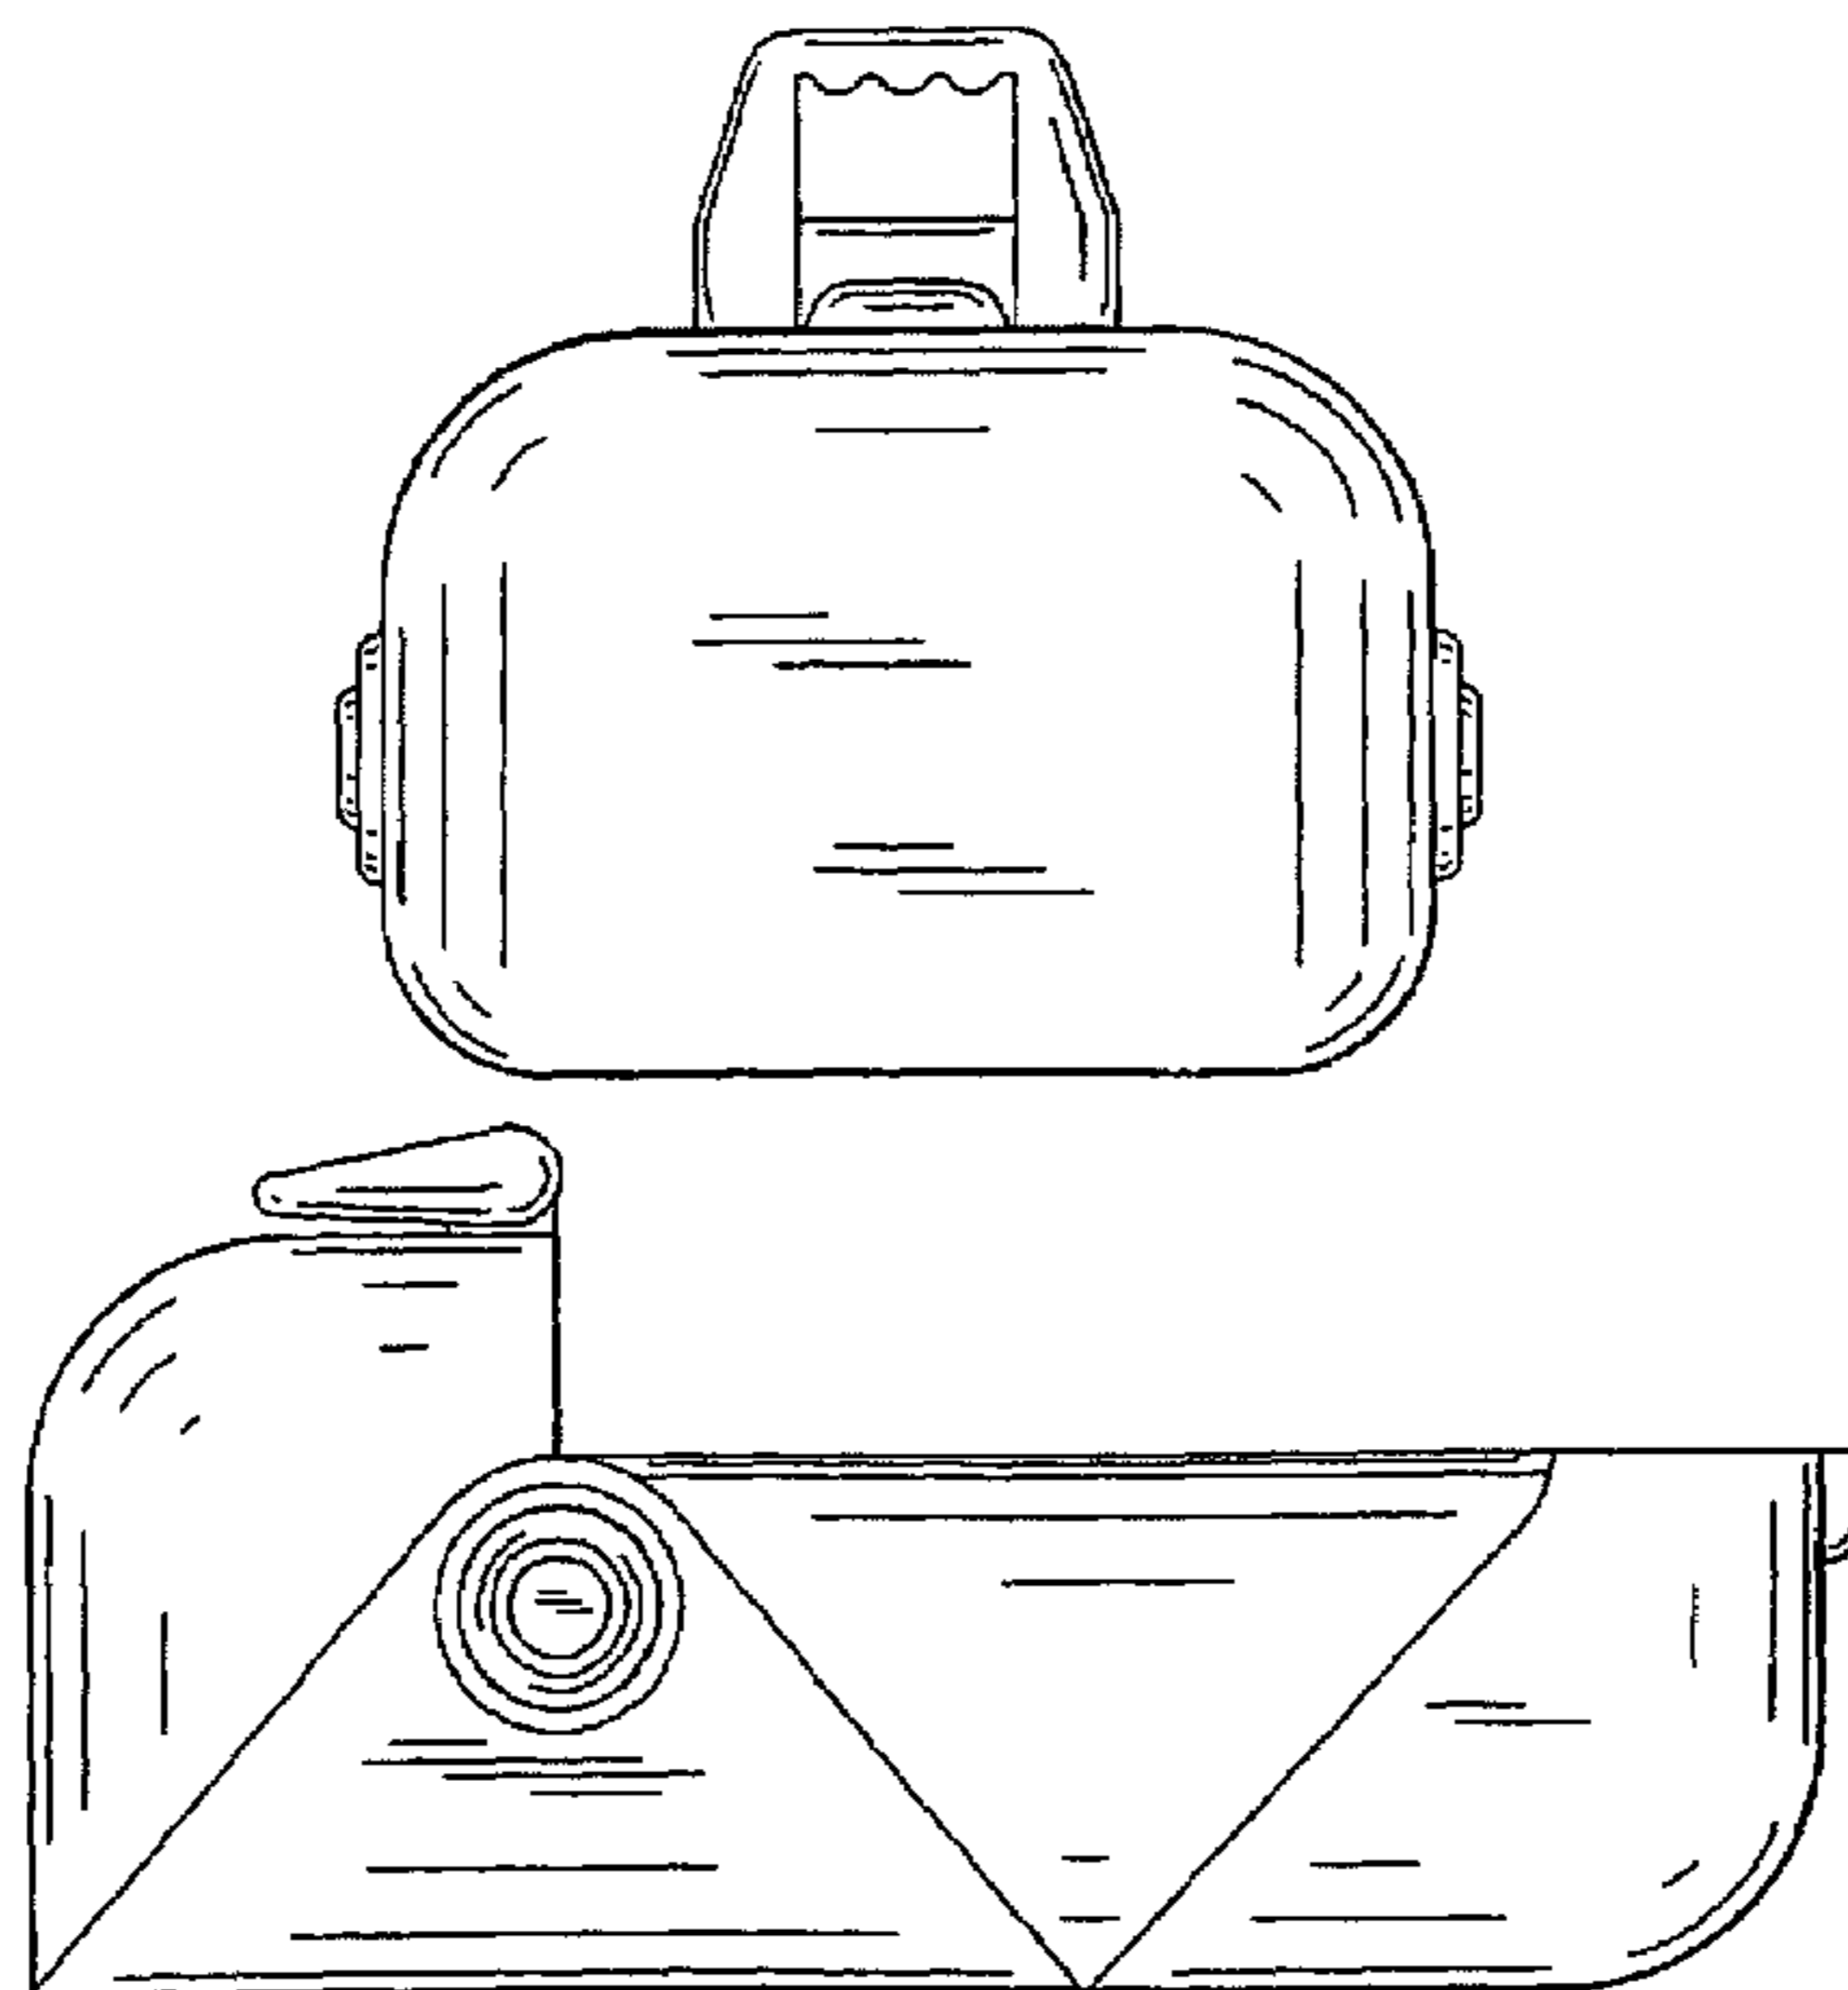

FIG. 2 is a first side elevation of the valise. The opposite second side is a mirror image of the first side.

FIG. 3 is a first side elevation of the valise showing the valise of FIGS. 1 and 2 with a rear part opened. The opposite second side is a mirror image of the first side.

FIG. 4 is a first side elevation of the closed valise showing the valise with front and rear parts opened and partially elevated. The opposite second side is a mirror image of the first side; and,

FIG. 5 is a first side elevation of the valise showing the valise with front and rear parts lowered and aligned. The opposite second side is a mirror image of the first side.
