(57) CLAIM

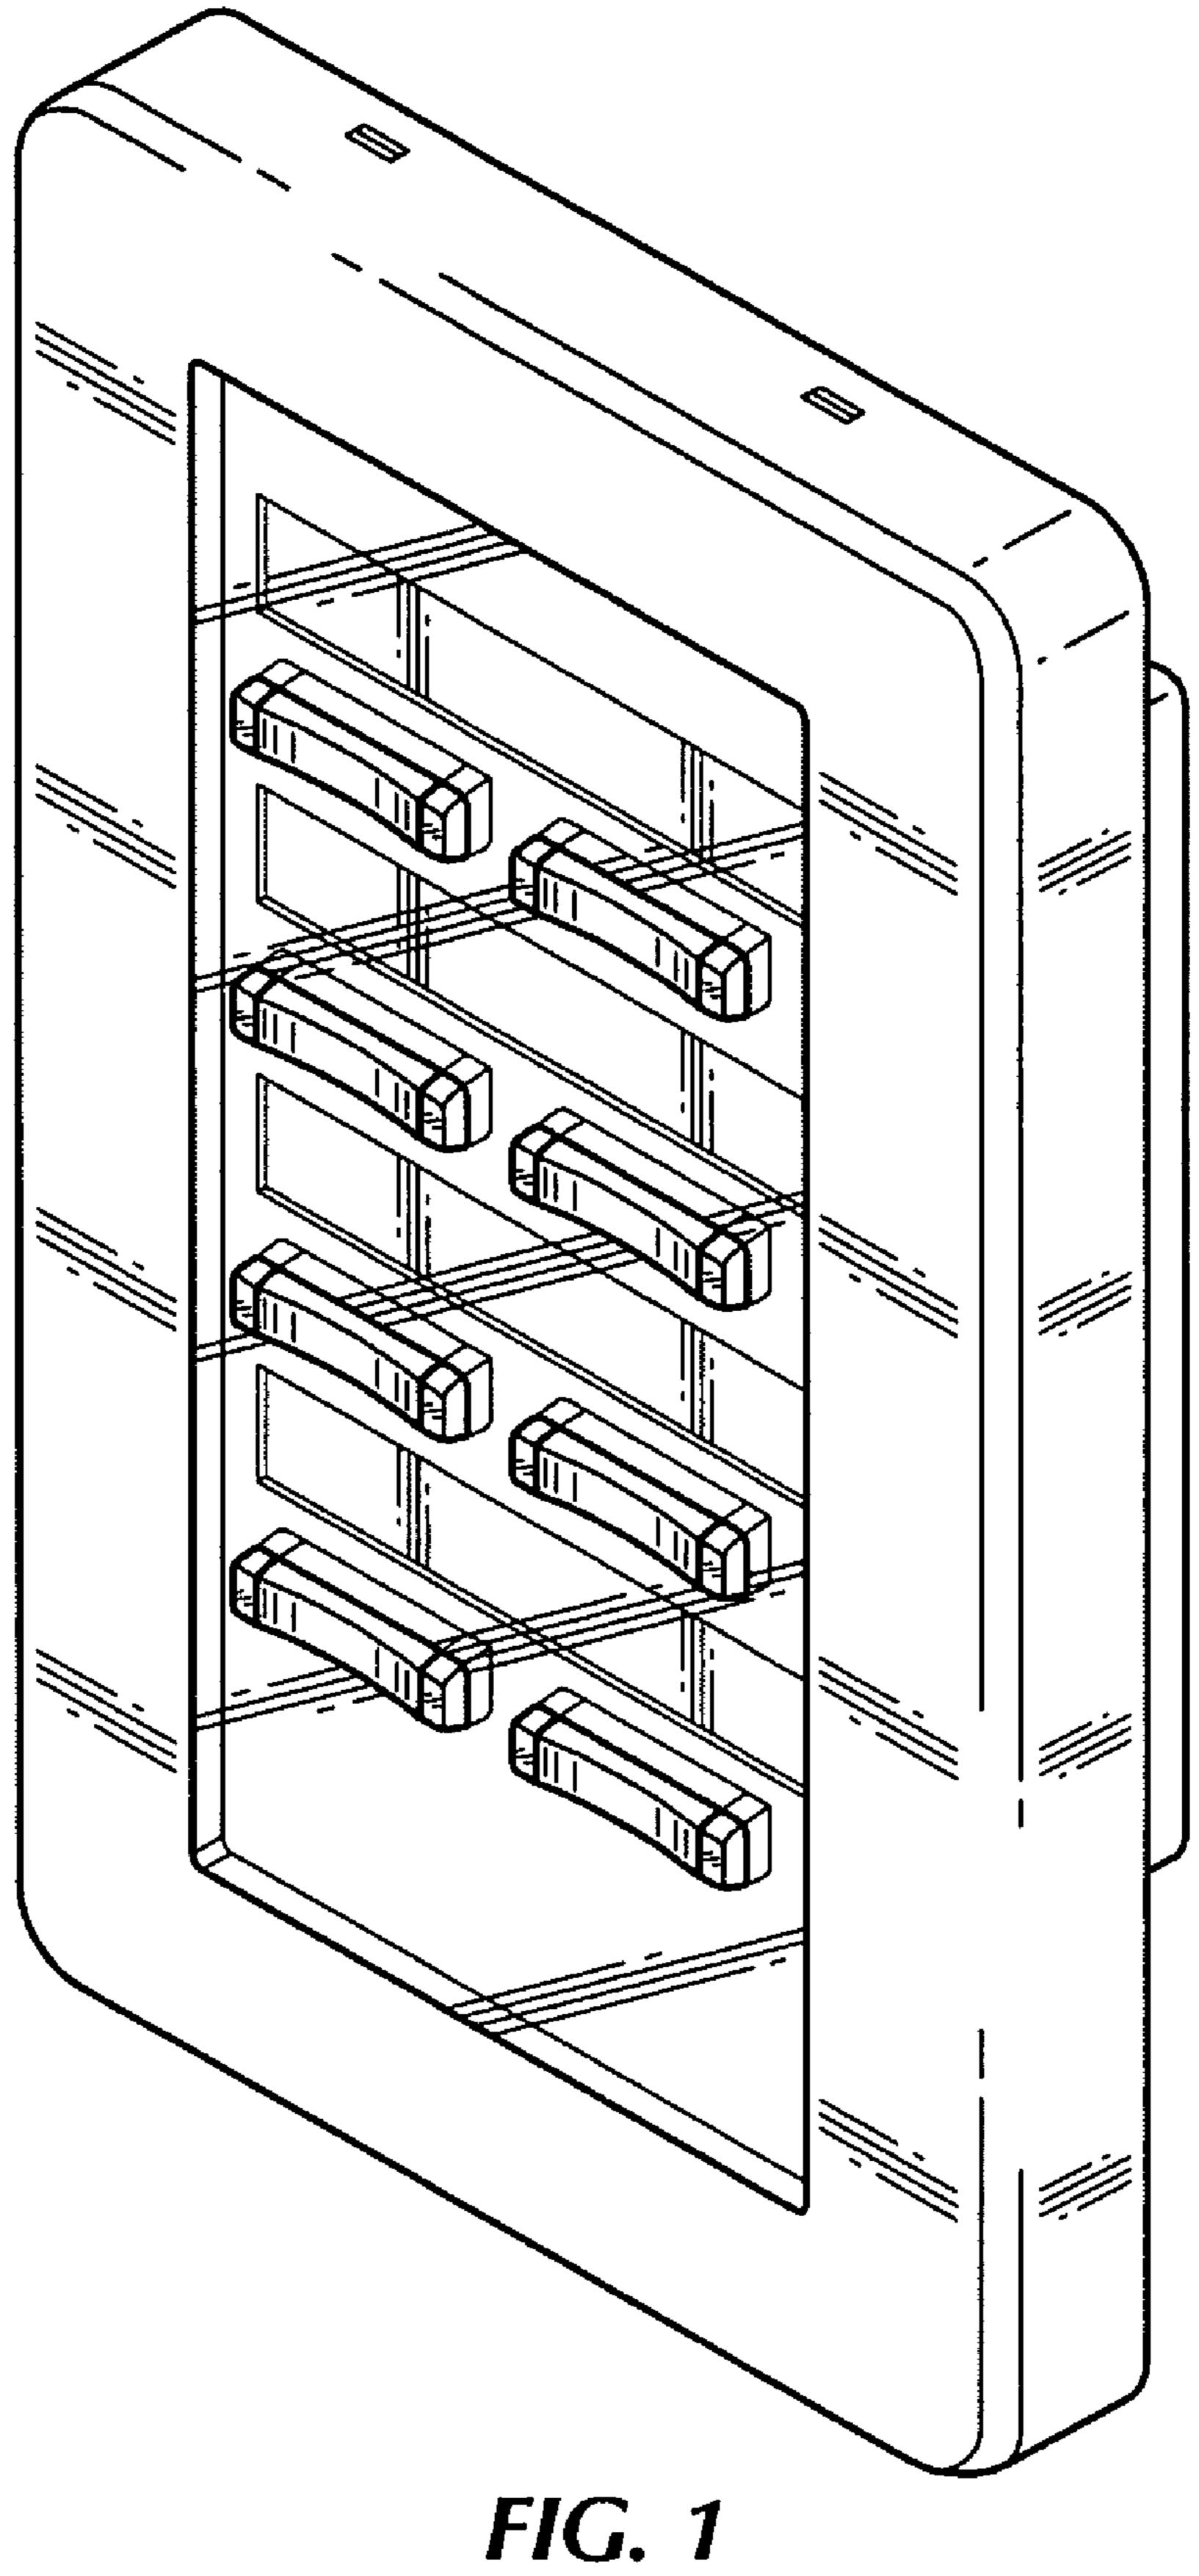

The ornamental design for a switch, as shown and described.

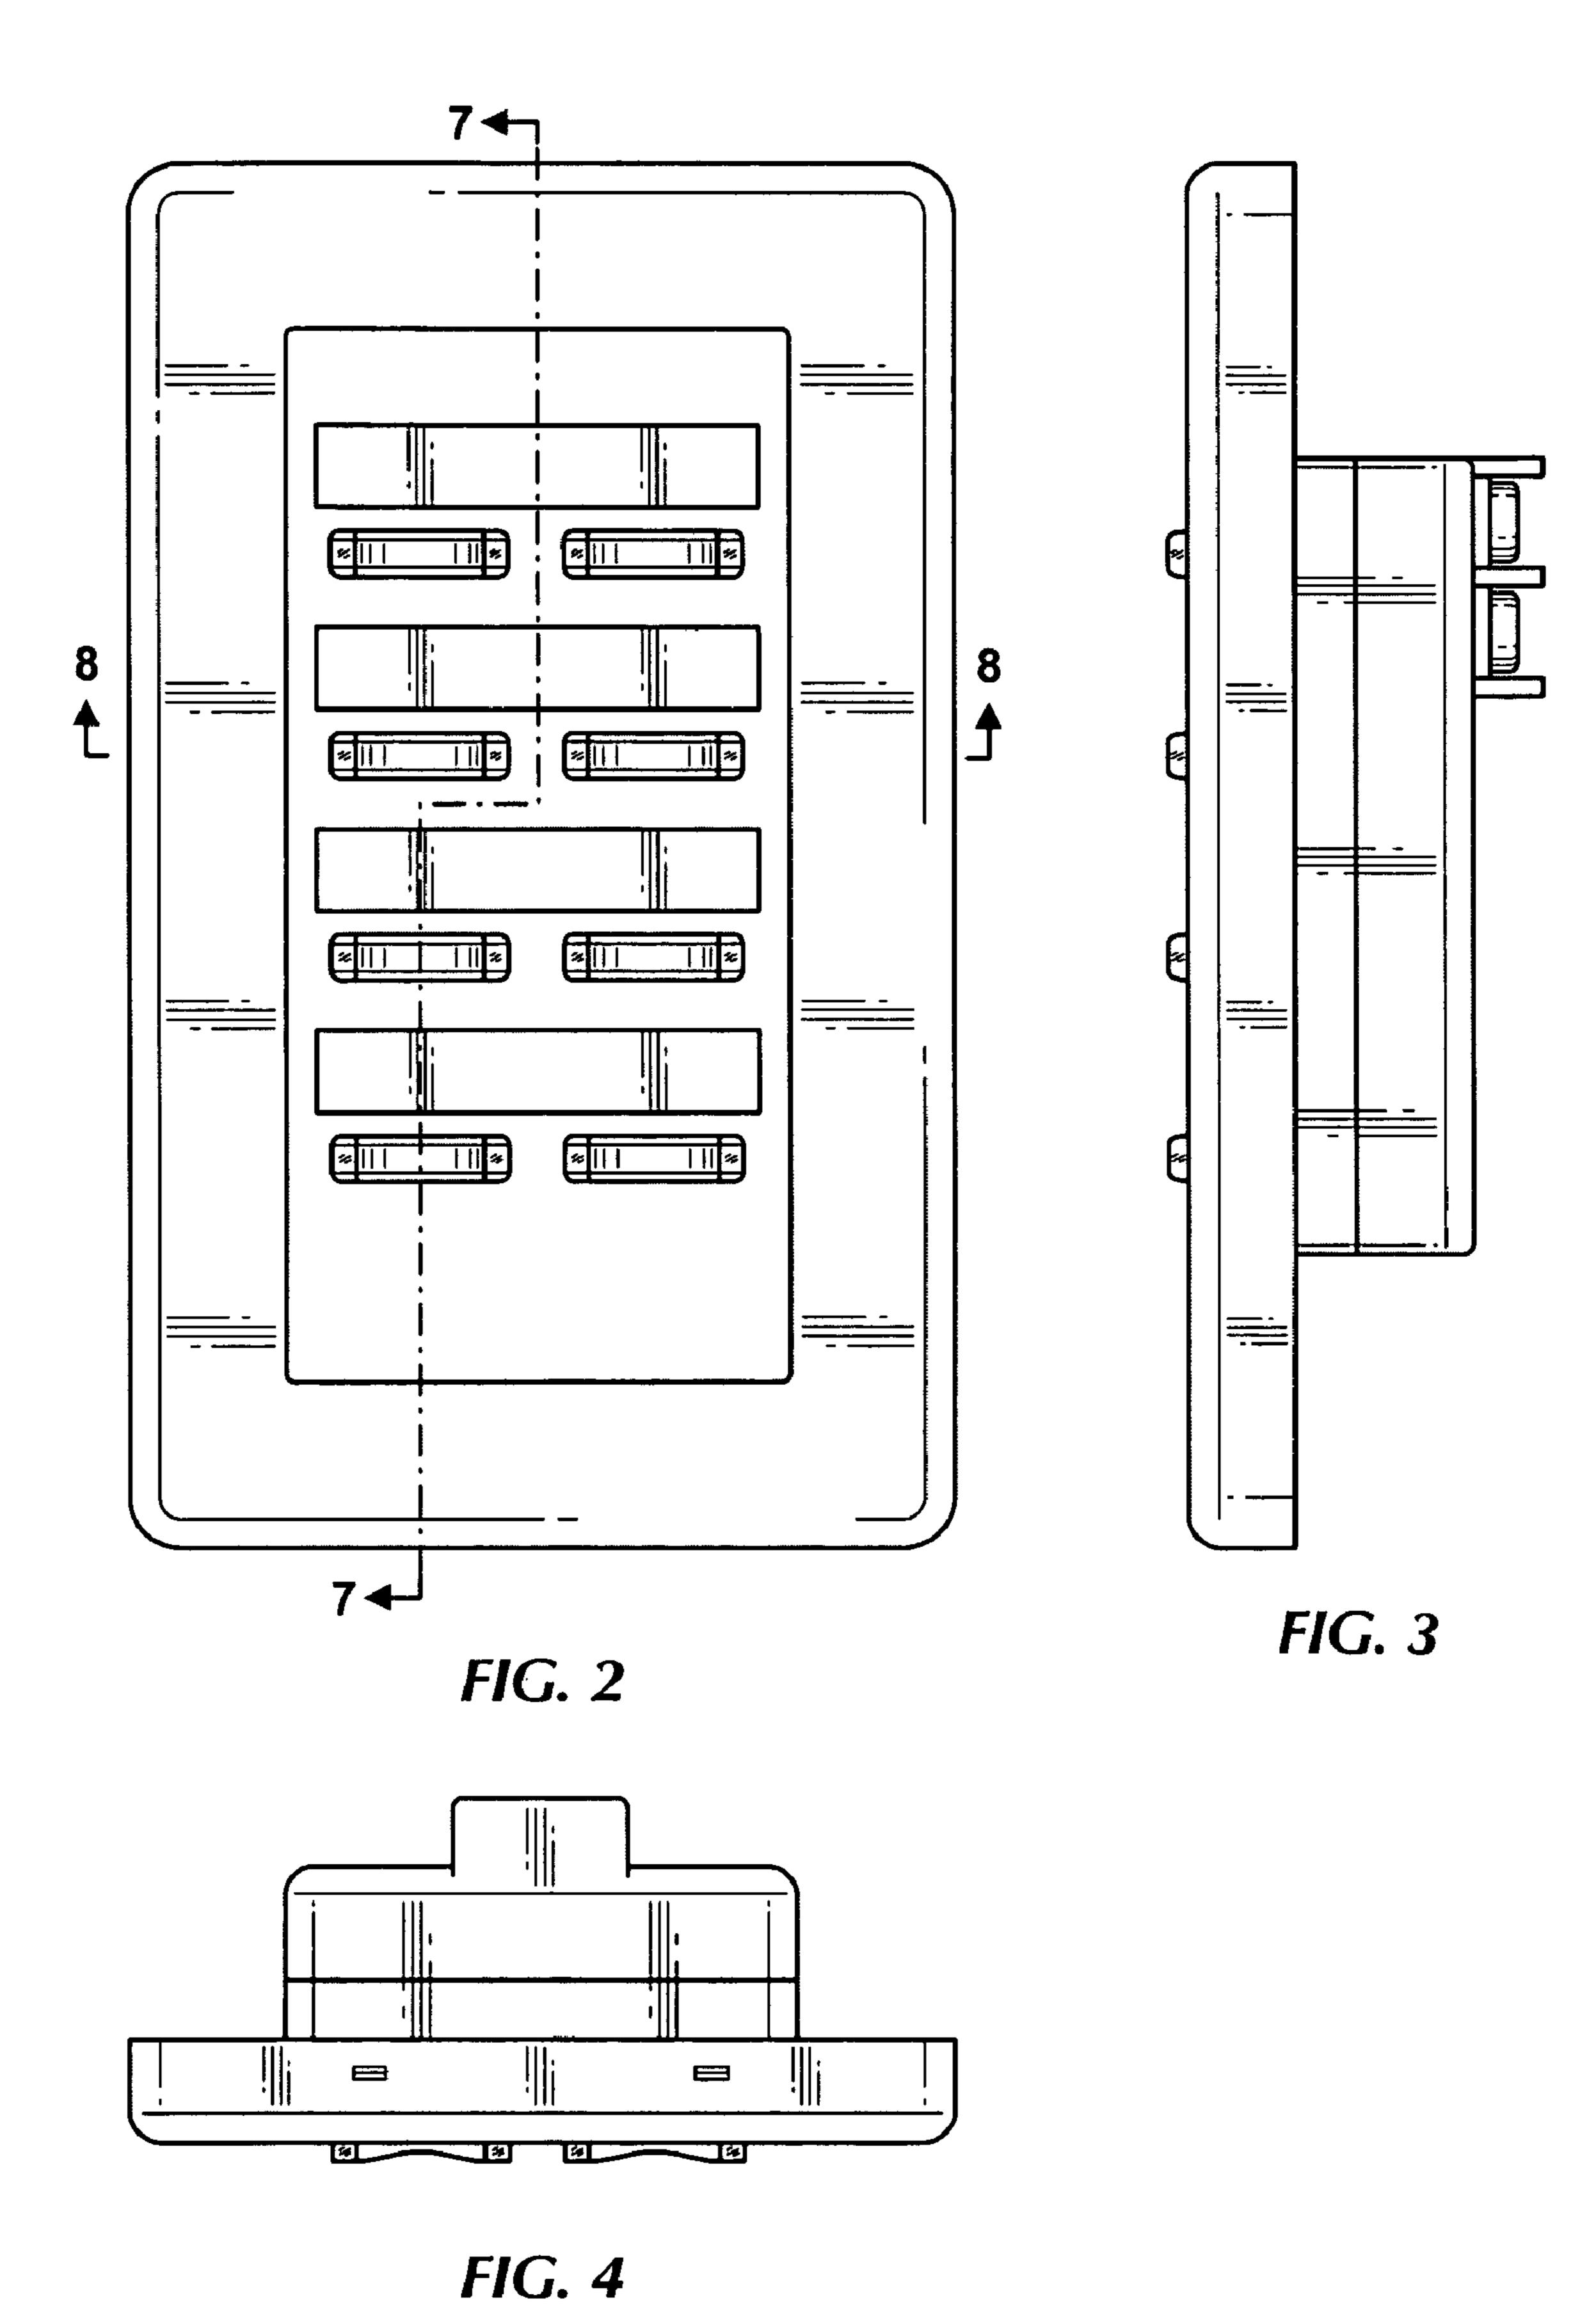

DESCRIPTION

- FIG. 1 is a perspective view of the design for a switch according to the invention.
- FIG. 2 is a front view of the design according to the invention.
- FIG. 3 is a right side view of the design according to the invention.
- FIG. 4 is a top view of the design according to the invention.
- FIG. 5 is a rear view of the design according to the invention.
- FIG. 6 is a bottom view of the design according to the invention.
- FIG. 7 is a sectional view of the design along the line 7—7, which shifts at the middle of the line, in FIG. 2 according to the invention, where the internal components are omitted.
- FIG. 8 is a sectional view of the design along the line 8—8 in FIG. 2 according to the invention where the internal components are omitted.
- FIG. 9 is a top view of the design according to the invention in an alternative position, where the right top button is pushed; and,
- FIG. 10 shows an enlarged view of the design according to the invention identified by the area boxed by dash-dot-dash line in FIG. 7.
- A left side view of the design according to the invention is a mirror image of the right side view as shown in FIG. 3.
- The elements shown in broken lines are for illustrative purposes only and form no part of the claimed invention.
