(57) **CLAIM**

The ornamental design for a multi-directional lighting fixture, as shown and described.

DESCRIPTION

FIG. 1 is a right perspective view of the top of a multi-directional lighting fixture according to a first embodiment of the invention;

FIG. 2 is a left perspective view of the bottom of the multi-directional lighting fixture illustrated in FIG. 1;

FIG. 3 is a top plan view of the multi-directional lighting fixture illustrated in FIGS. 1 and 2;

FIG. 4 is a bottom plan view of the multi-directional lighting fixture illustrated in FIGS. 1–3;

FIG. 5 is a right side elevational view of the multi-directional lighting fixture illustrated in FIGS. 1–4, the left side elevational view being the mirror image thereof;

FIG. 6 is a left end elevational view of the multi-directional lighting fixture illustrated in FIGS. 1–5, the right end elevational view being the mirror image thereof;

FIG. 7 is a right perspective view of the top of a multi-directional lighting fixture according to a second embodiment;

FIG. 8 is a left perspective view of the bottom of the multi-directional lighting fixture illustrated in FIG. 7;

FIG. 9 is a top plan view of the multi-directional lighting fixture illustrated in FIGS. 7 and 8;

FIG. 10 is a bottom plan view of the multi-directional lighting fixture illustrated in FIGS. 7–9;

FIG. 11 is a right side elevational view of the multi-directional lighting fixture illustrated in FIGS. 7–10, the left side elevational view being the mirror image thereof;

FIG. 12 is a left end elevational view of the multi-directional lighting fixture illustrated in FIGS. 7–11, the right end elevational view being the mirror image thereof;

FIG. 13 is a left perspective view of the bottom of a multi-directional lighting fixture according to a third embodiment;

FIG. 14 is a top plan view of the multi-directional lighting fixture illustrated in FIG. 13;

FIG. 15 is a bottom plan view of the multi-directional lighting fixture illustrated in FIGS. 13 and 14;

FIG. 16 is a right side elevational view of the multi-directional lighting fixture illustrated in FIGS. 13–15, the left side elevational view being the mirror image thereof; and,

FIG. 17 is a left end elevational view of the multi-directional lighting fixture illustrated in FIGS. 13–16, the right end elevational view being the mirror image thereof.
