(57) **CLAIM**

I claim the ornamental design for an earpiece having sensor for measuring physiological data, as shown and described.

DESCRIPTION

FIG. **1** is an outside perspective view of the earpiece having sensor for measuring physiological data;

FIG. **2** is an outside side view of the earpiece having sensor for measuring physiological data;

FIG. **3** is an inside side view of the earpiece having sensor for measuring physiological data;

FIG. **4** is a front view of the earpiece having sensor for measuring physiological data;

FIG. **5** is a rear view of the earpiece having sensor for measuring physiological data;

FIG. **6** is a top view of the earpiece having sensor for measuring physiological data; and,

FIG. **7** is a bottom view of the earpiece having sensor for measuring physiological data.
