CLAIM

The ornamental design for a transitional user interface for a portion of a display screen, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the first image in the sequence for a transitional user interface for a portion of a display screen showing the new design;

FIG. 2 is a front view of the second image thereof;

FIG. 3 is a front view of the third image thereof; and,

FIG. 4 is a front view of the fourth image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1–4. The process or period in which one image transitions to another forms no part of the claimed design. The broken lines showing the display screen, menu portions, circular elements and tab labeling, are for illustrative purposes only and form no part of the claimed design.
