(57) **CLAIM**

The ornamental design for a baby bottle, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a baby bottle according to a first embodiment;

FIG. 2 is a front view of the baby bottle according to the first embodiment;

FIG. 3 is a rear view of the baby bottle according to the first embodiment;

FIG. 4 is a right side view of the baby bottle according to the first embodiment;

FIG. 5 is a left side view of the baby bottle according to the first embodiment;

FIG. 6 is a top view of the baby bottle according to the first embodiment;

FIG. 7 is a bottom view of the baby bottle according to the first embodiment;

FIG. 8 is an exploded view of the baby bottle according to the first embodiment showing the bottle nipple removed from the bottle container;

FIG. 9 is a perspective view of a baby bottle according to a second embodiment illustrating a baby bottle having an internal volume that varies from that of the first embodiment;

FIG. 10 is a front view of the baby bottle according to the second embodiment;

FIG. 11 is a rear view of the baby bottle according to the second embodiment;

FIG. 12 is a right side view of the baby bottle according to the second embodiment;

FIG. 13 is a left side view of the baby bottle according to the second embodiment; and,

FIG. 14 is an exploded view of the baby bottle according to the first embodiment showing the bottle nipple removed from the bottle container.

The top and bottom views of the baby bottle according to the second embodiment are not shown, as they are identical to the top and bottom views of the baby bottle according to the first embodiment shown in FIGS. 6 and 7, respectively.
