(57) **CLAIM**

We claim the ornamental design for a media device, as shown and described.

DESCRIPTION

FIG. 1 is a view of a front surface of a media device, taken at a line of sight that is perpendicular to the front surface;

FIG. 2 is a view of a rear surface of a media device, taken at a line of sight that is perpendicular to the rear surface;

FIG. 3 is a left side view of a media device;

FIG. 4 is a front perspective view illustrating an alternative switched-on in-use appearance of the side of the media device shown in FIG. 1;

FIG. 5 is a perspective view illustrating an alternative switched-on in-use appearance of the side of the media device shown in FIG. 4; and,

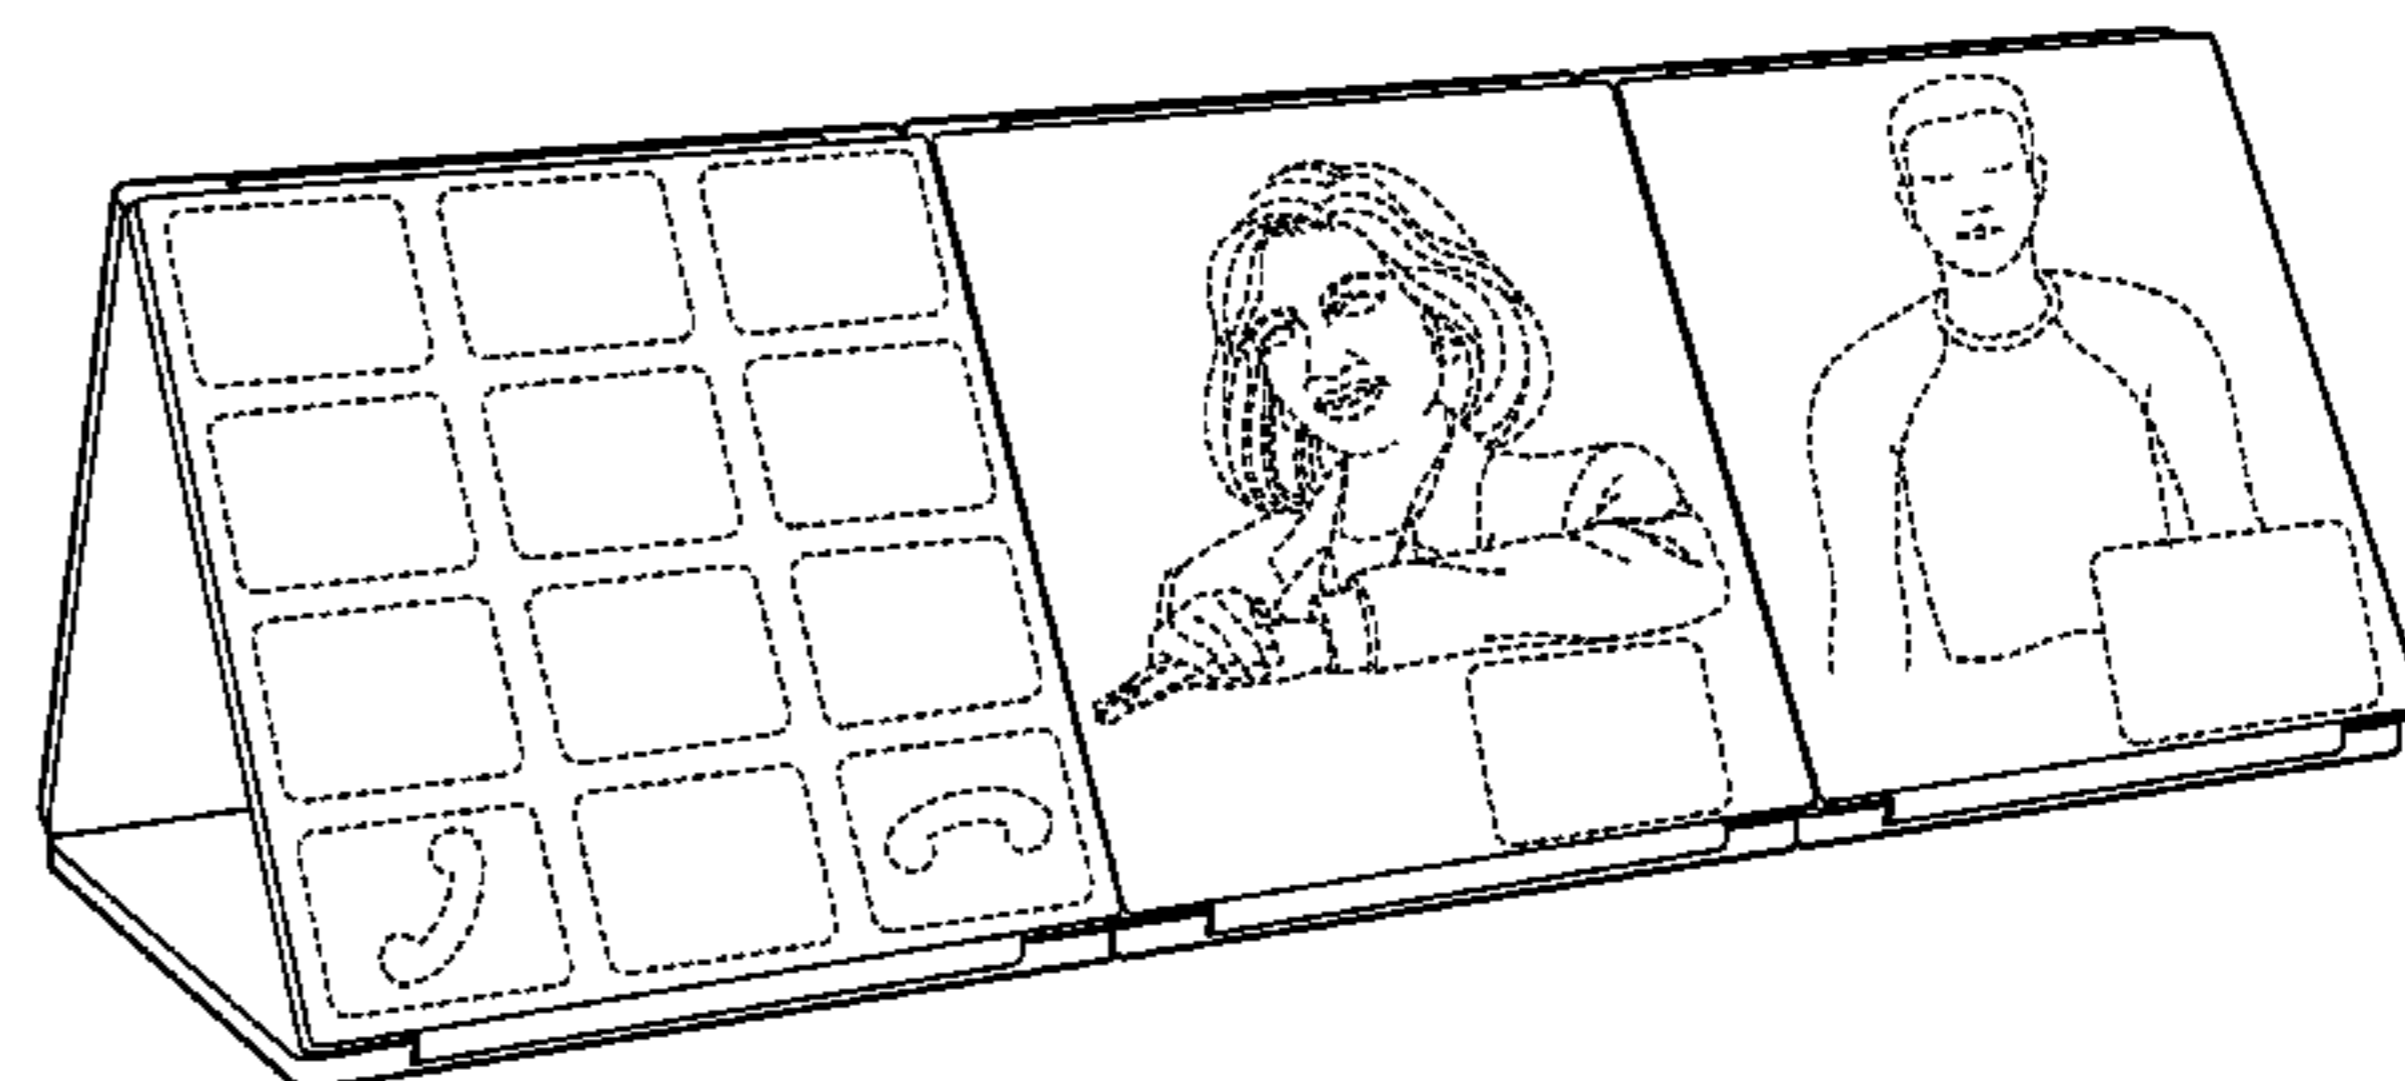

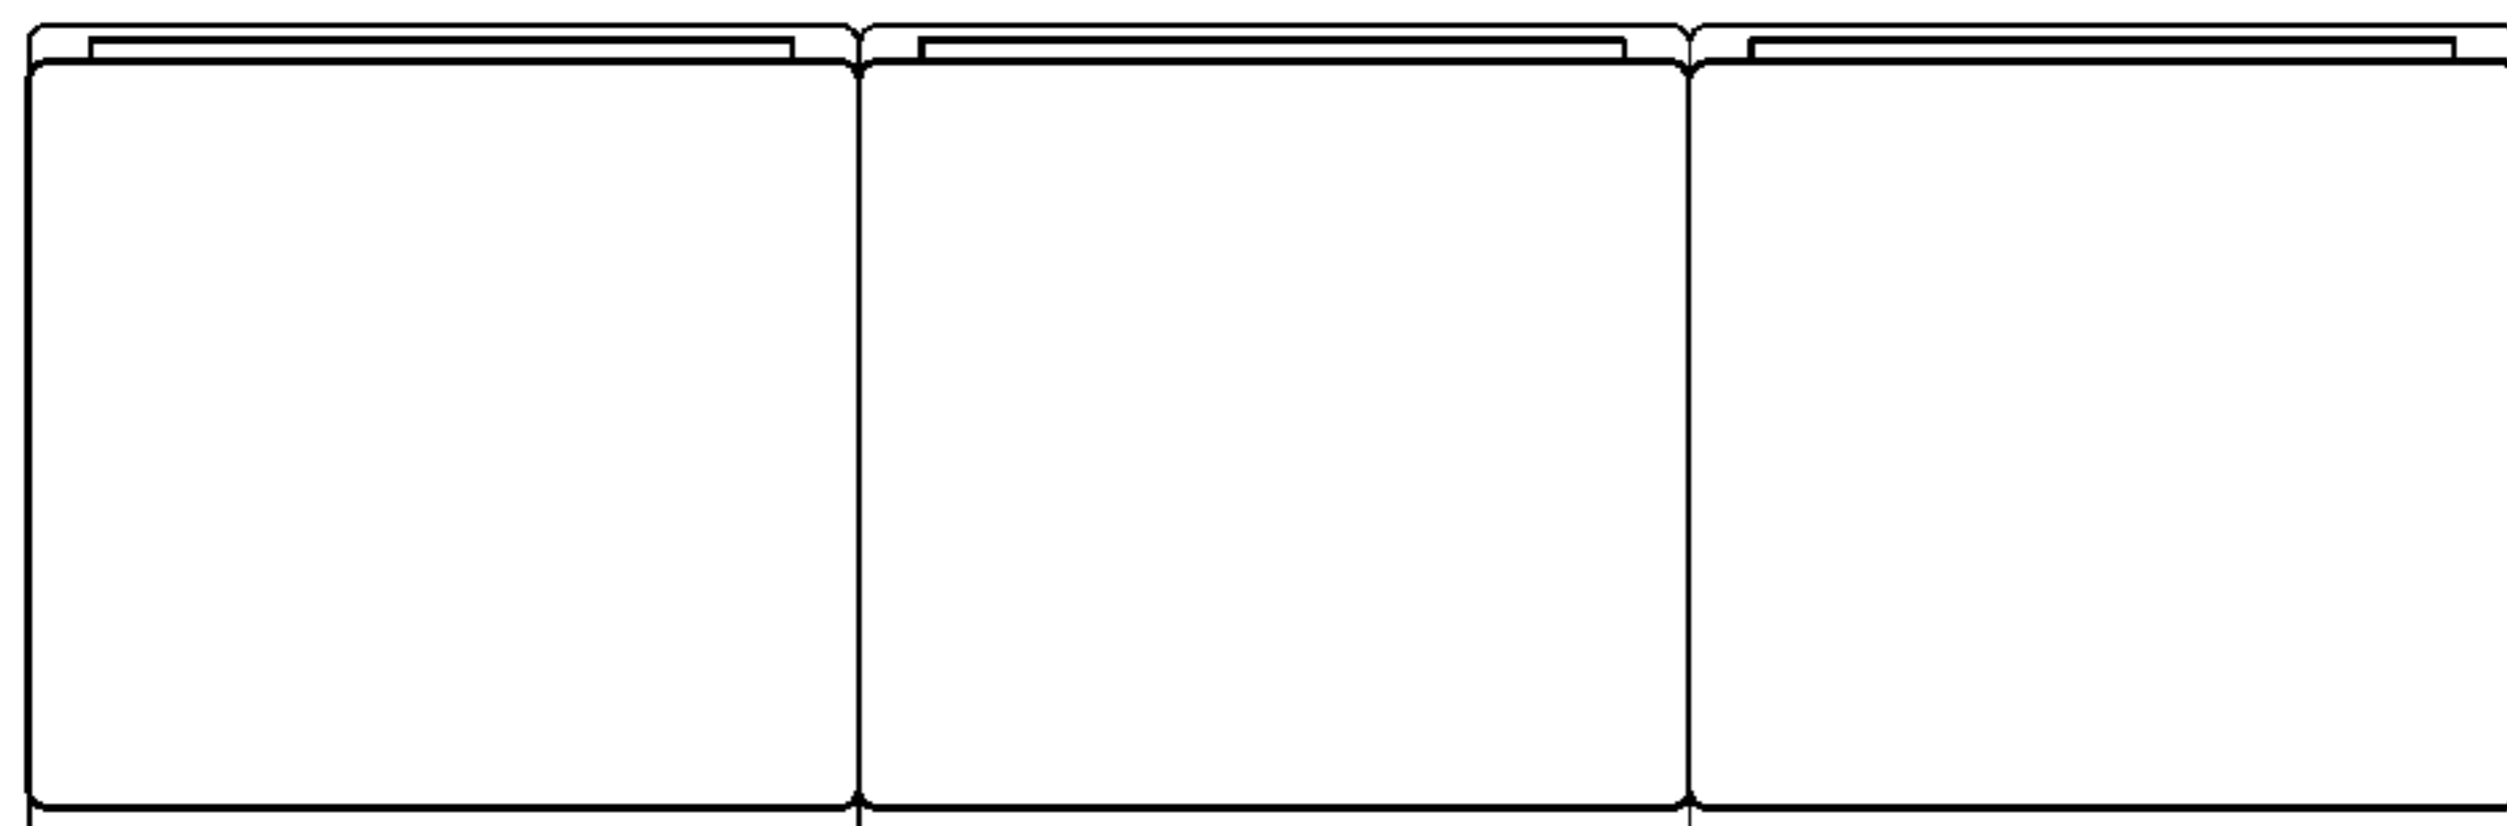

FIG. 6 is a perspective view illustrating another alternative switched-on in-use appearance of the side of the media device shown in FIG. 4.

A drawing illustrating a bottom view is not shown as being duplicative of the view presented in FIG. 2.

The broken line drawings of objects presented on the media device are included for the purpose of illustrating non-claimed possible displayed content that may appear on the claimed surface of the media device.

The broken line drawings are superimposed on continuous surfaces and form no part of the claimed design.
