(57) **CLAIM**

The ornamental design for a combined joystick control with buttons, as shown and described.

**DESCRIPTION**

FIG. 1 is a top perspective view of a joystick control with buttons showing our new design;

FIG. 2 is a side view thereof; and,

FIG. 3 is a side view thereof that is generally opposing the side view of FIG. 2.

The invention is a mirror image of the design shown in FIGS. 1-3.

The broken line showing of a joystick control base is included for the purpose of illustrating environmental structure and forms no part of the claimed design.
