(57) **CLAIM**

The ornamental design for a blade information handling system handle, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of the handle coupled to a blade information handling system comprising the present invention;

FIG. 2 is a front perspective view thereof with the handle extended from the blade information handling system;

FIG. 3 is a front side view thereof;

FIG. 4 is a left side view thereof;

FIG. 5 is a right side view thereof;

FIG. 6 is a top plan view thereof; and,

FIG. 7 is a bottom plan view thereof.

The broken line showing of portions of the blade information handling system handle is included for the purpose of illustrating environmental structure and forms no part of the claimed design.
