(57) **CLAIM**

The ornamental design for a cartridge for an electronic control device, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a cartridge for an electronic control device, showing our novel design;

FIG. 2 is a left side elevation of the cartridge of FIG. 1 when the cartridge is turned front facing up, 90 degrees;

FIG. 3 is a top elevation of the cartridge of FIG. 1, when the cartridge is turned front facing up, 90 degrees;

FIG. 4 is a front elevation of the cartridge of FIG. 1 when the left side is turned facing up, 90 degrees; and,

FIG. 5 is a rear elevation of the cartridge of FIG. 1, when oriented as in FIG. 4.

The broken lines in the drawing represent environmental structure only and form no part of the claimed design. The dash-dot oval indicates the extent of the surface being claimed. The dash-dot oval does not indicate a claimed feature of the structure. The dash-dot oval encloses unclaimed subject matter.

When the cartridge of FIG. 1 is rotated on its central axis 270 degrees to show the right side and turned front facing up, 90 degrees, the view of the right side is identical to FIG. 2. The unshown portions of the cartridge are not claimed.

**1 Claim, 4 Drawing Sheets**

FIG. 1

FIG. 2

FIG. 3

FIG. 4

FIG. 5

UNITED STATES PATENT AND TRADEMARK OFFICE  
**CERTIFICATE OF CORRECTION**

PATENT NO. : D602,109 S  
APPLICATION NO. : 29/297339  
DATED : October 13, 2009  
INVENTOR(S) : Milan Cerovic et al.
