(57) **CLAIM**

The ornamental design for a dual aperture gunsight body, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a first embodiment of a dual aperture gunsight body in accordance with the present invention;

FIG. 2 is a front view of the dual aperture gunsight body shown in FIG. 1;

FIG. 3 is a rear view of the dual aperture gunsight body shown in FIG. 1;

FIG. 4 is a right side view of the dual aperture gunsight body shown in FIG. 1, wherein the left side view is substantially identical to the right side view;

FIG. 5 is a top view of the dual aperture gunsight body shown in FIG. 1;

FIG. 6 is a bottom view of the dual aperture gunsight body shown in FIG. 1; and,

FIG. 7 is a perspective view of a second embodiment of a dual aperture gunsight body in accordance with the present invention, wherein the only difference being minor indentions within side surfaces (shown in FIG. 4) that extend between front and rear surfaces (shown in FIGS. 2 and 3, respectively) and wherein it is understood that all other surfaces are the same as those of the first embodiment.
