(57) **CLAIM**

I claim the ornamental design for a stroller sun shade with case, as shown and described.

**DESCRIPTION**

A stroller is a device used to carry an infant or small child while they are out in public. Unfortunately, great care is needed to protect your infant or small child's skin from the sun when they are out in public. Sunlight contains ultraviolet light that can cause short and long term damage to your infant or small child. Not only will sunburn cause your baby great discomfort and pain, a single bout of severe sunburn during childhood can contribute to the development of skin cancer in later life. Therefore, there is a need in the art for a STROLLER SUN SHADE that can provide additional sun protection while your baby is in their stroller. Additionally, there is a need in the art for a case to store your STROLLER SUN SHADE when not in use.

FIG. 1 is a perspective view of a stroller sun shade with case, showing my new design;

FIG. 2 is another perspective view of the stroller sun shade with case.

FIG. 3 is a back view of the stroller sun shade with case.

FIG. 4 is a front view of the stroller sun shade with case.

FIG. 5 is a side view of the stroller sun shade with case.

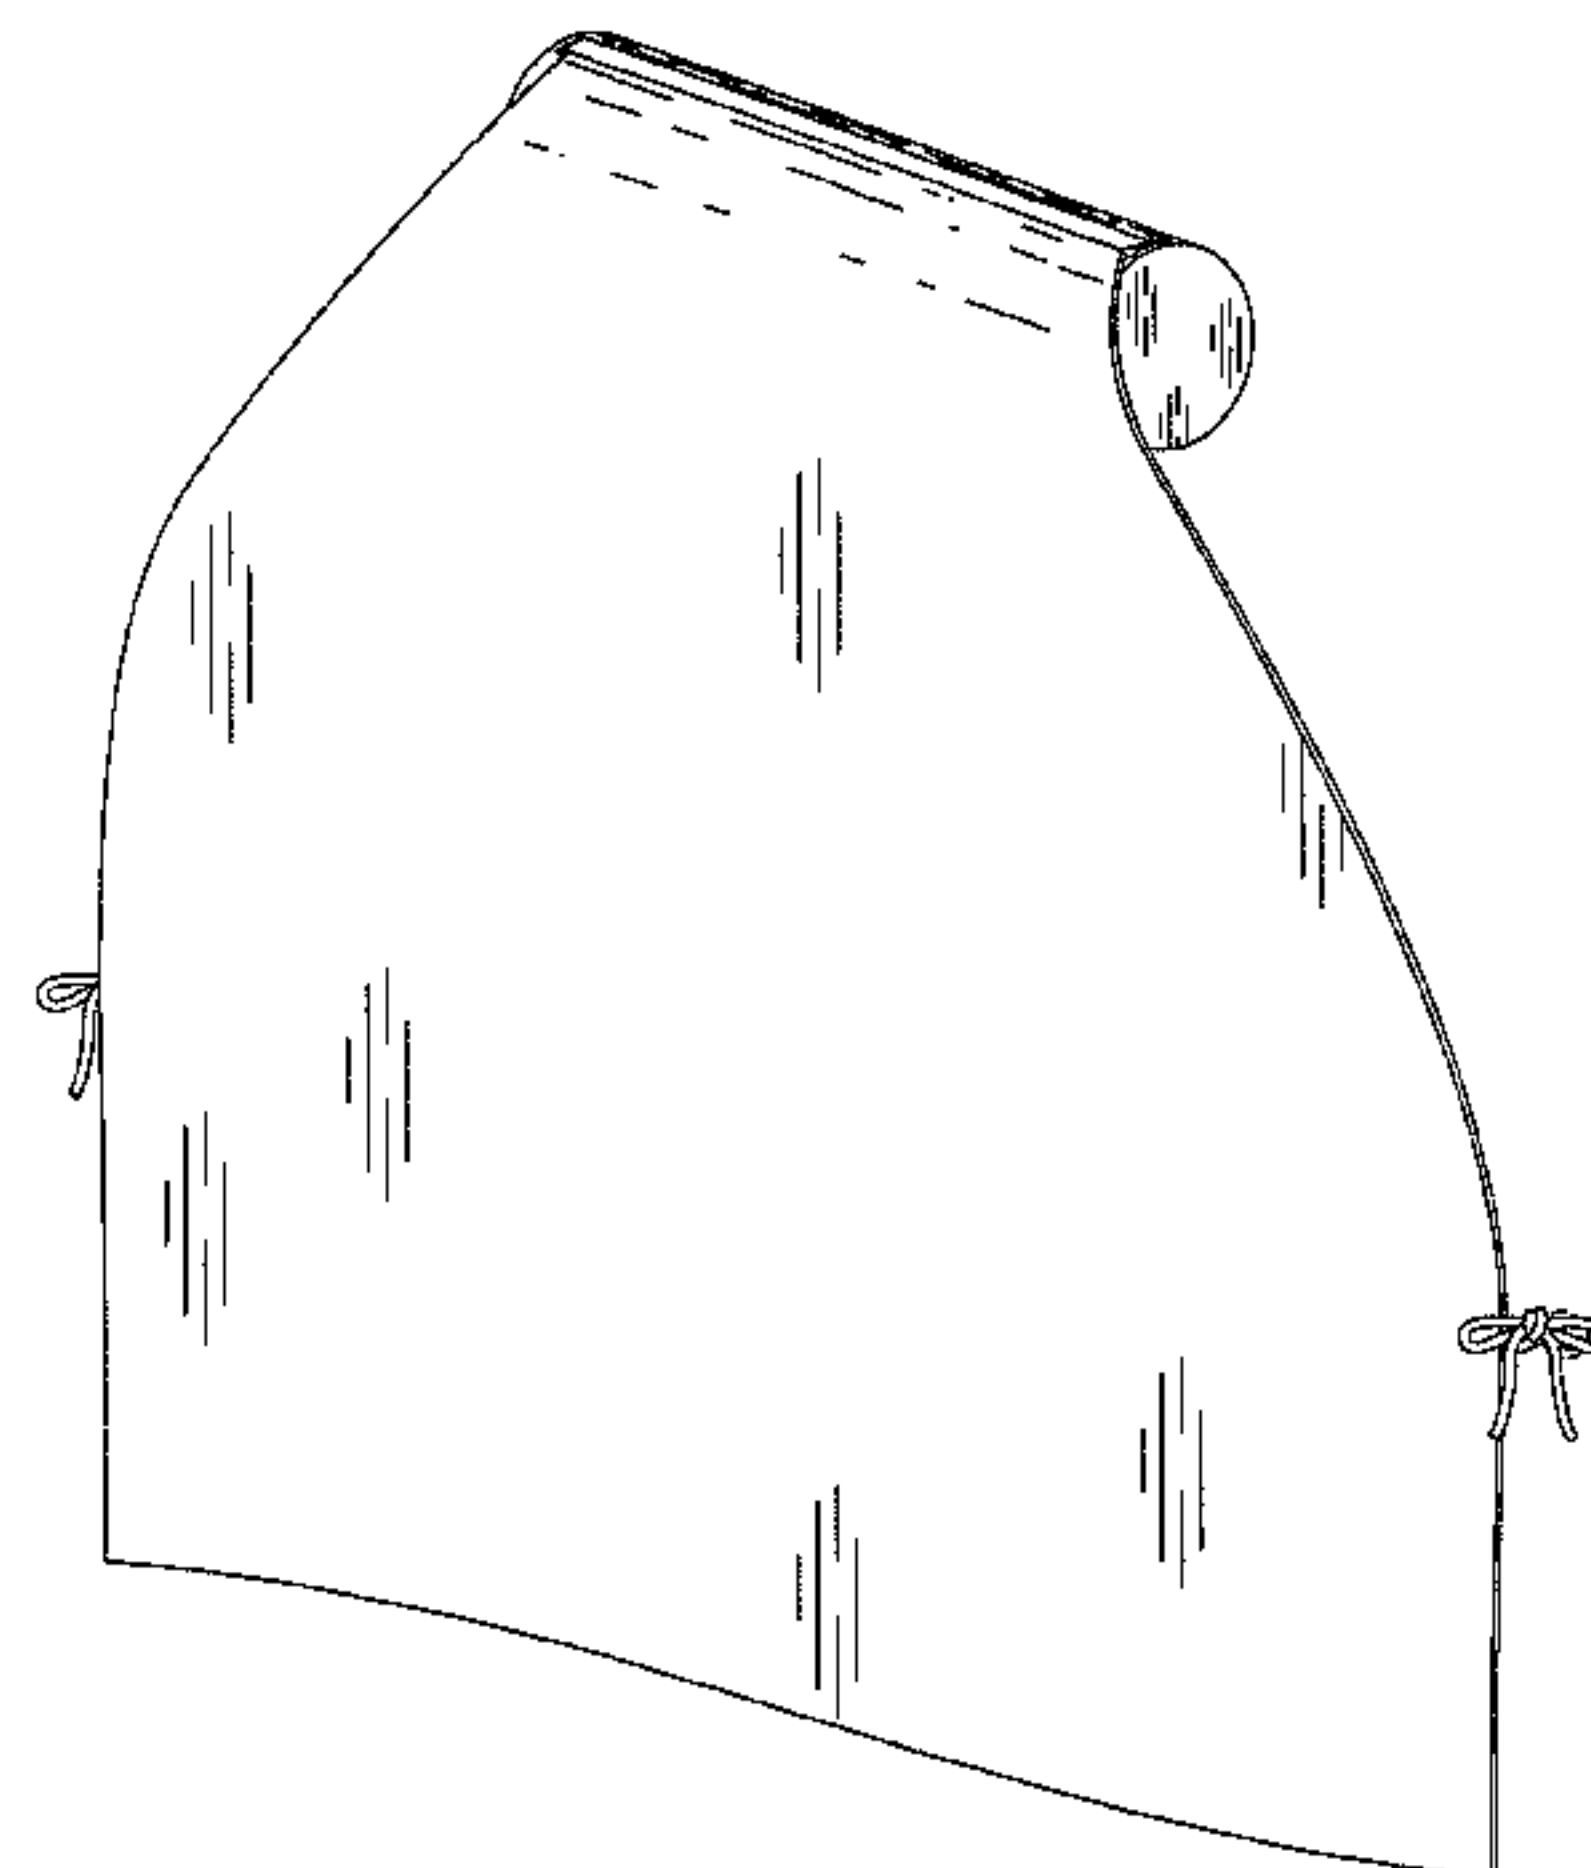

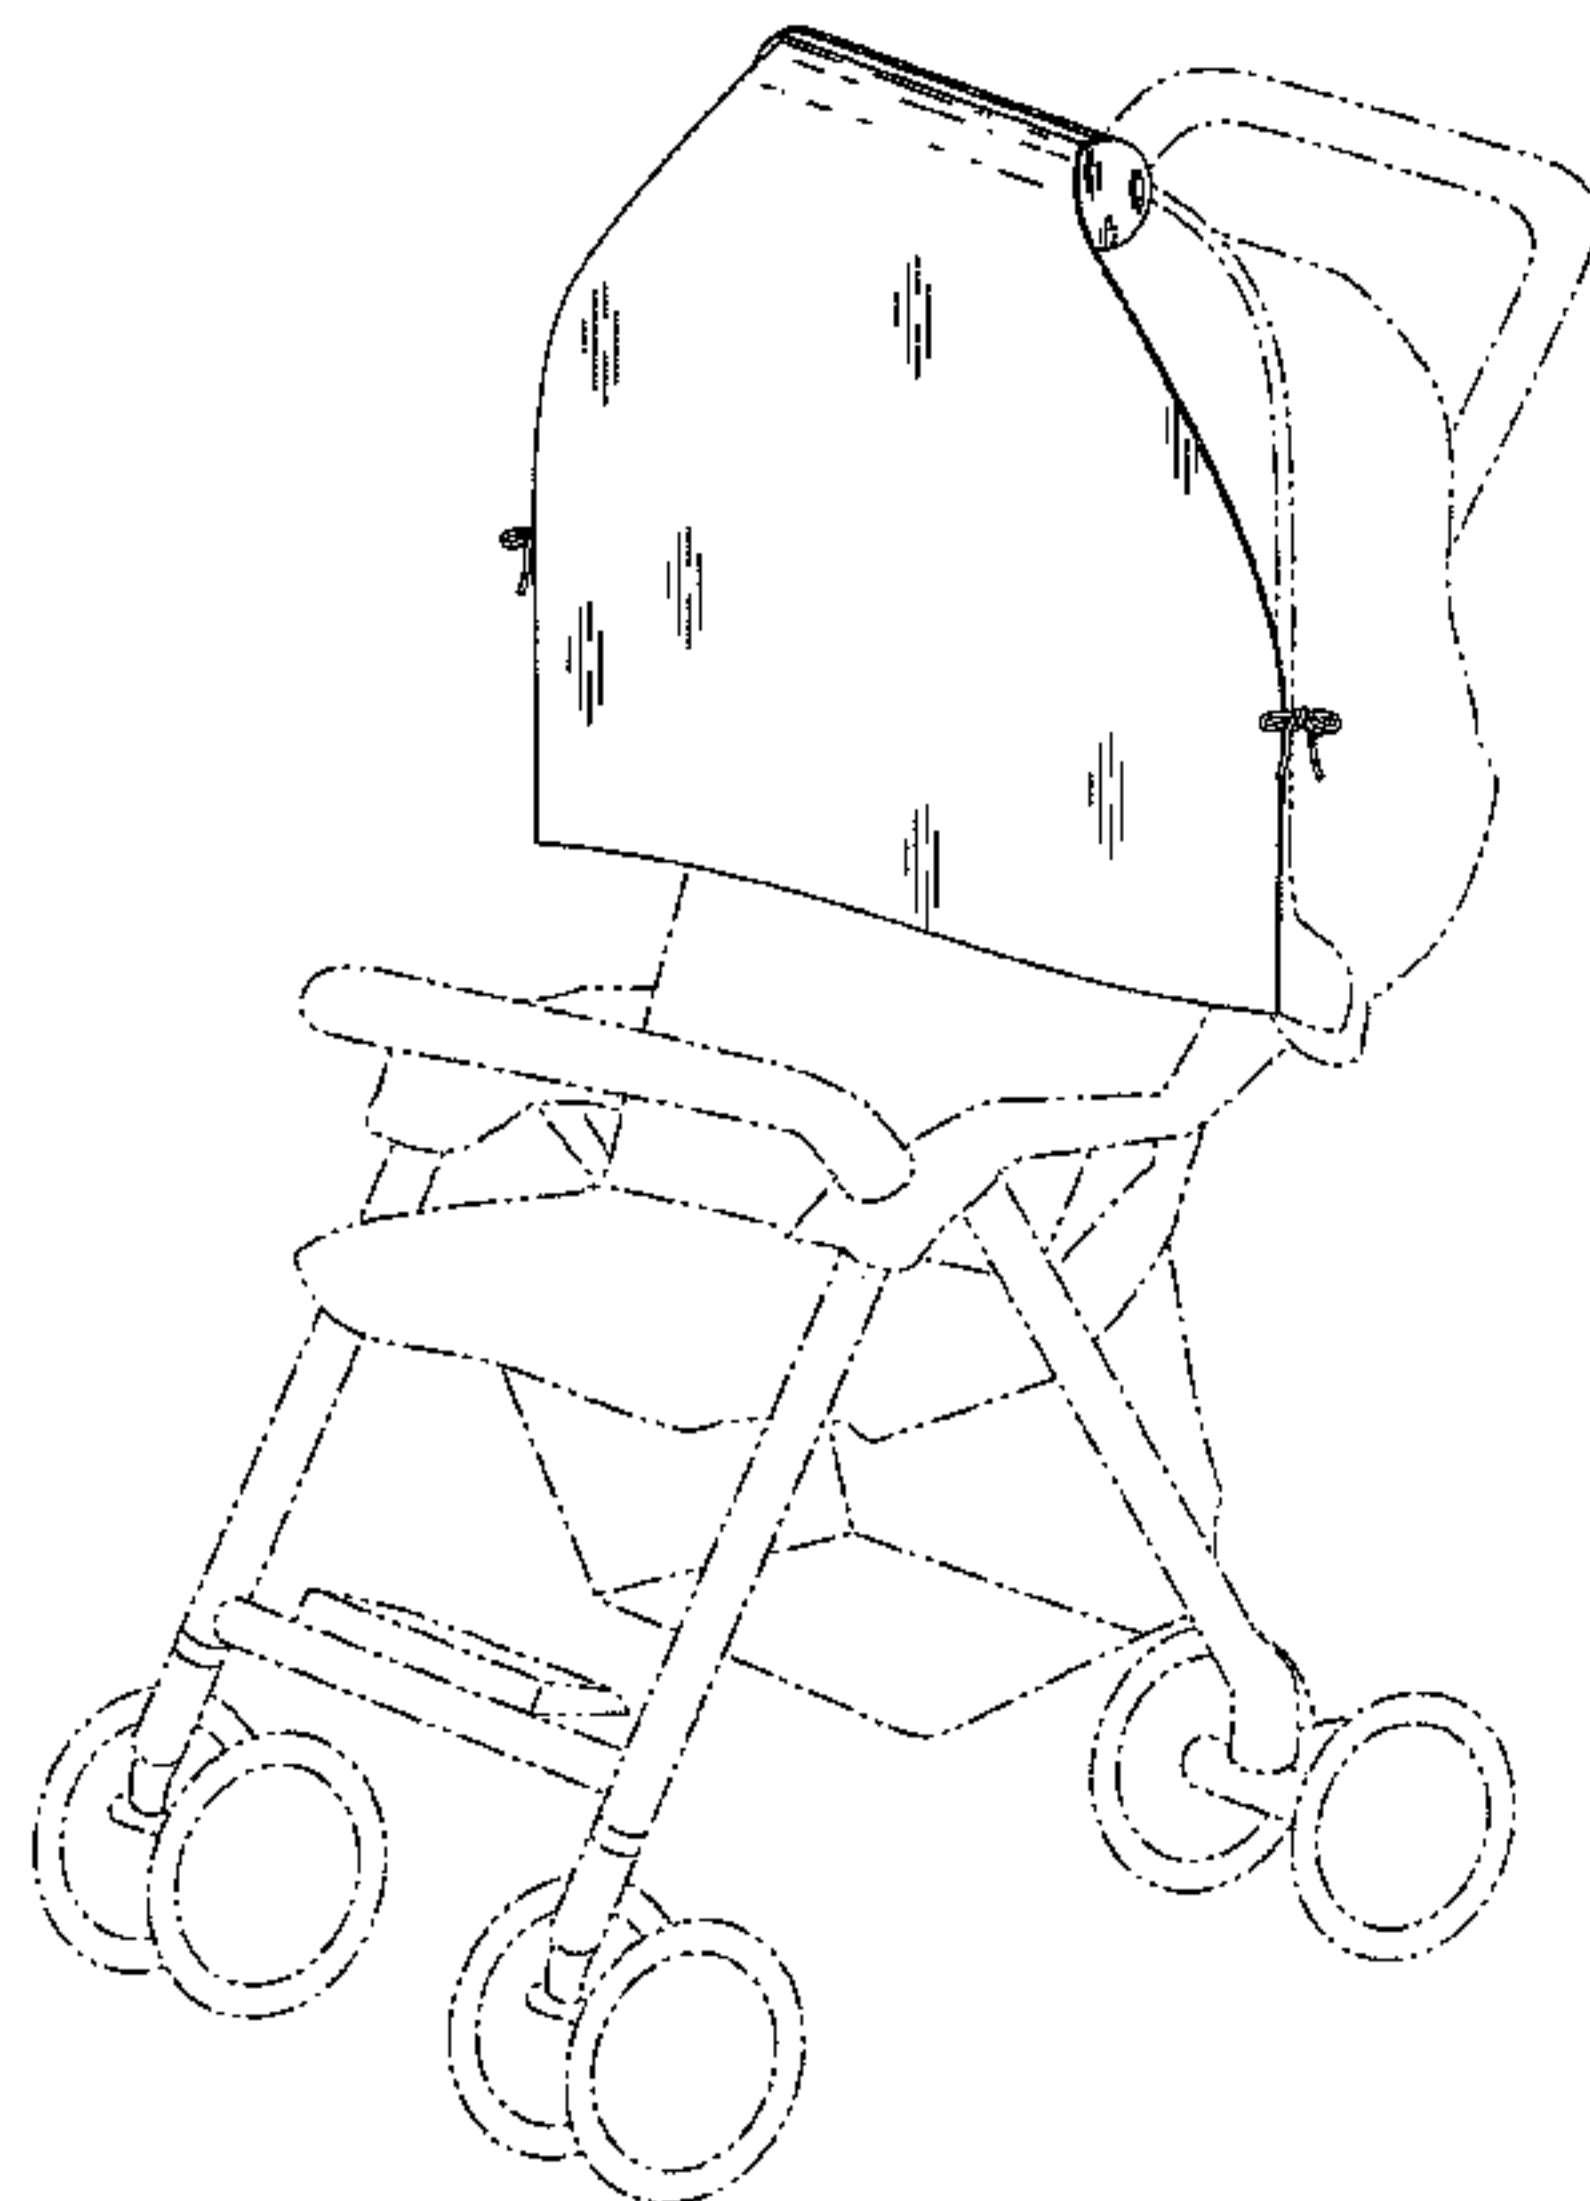

FIG. 6 is the other side view of the stroller sun shade with case.

FIG. 7 is a top view of the stroller sun shade with case; and,

FIG. 8 is the bottom view of the stroller sun shade with case.

The broken lines in FIG. 1 displaying a stroller are for illustrative purposes only and form no part of the claimed design.
