(57) **CLAIM**

The ornamental design for a dumbbell support structure, as shown and described.

DESCRIPTION

FIG. 1 is a front isometric view of a dumbbell support structure of the present invention, wherein the broken line structure is provided to illustrate environmental structure that forms no part of the claimed design;

FIG. 2 is a front elevation view of the dumbbell support structure of FIG. 1, wherein the broken line structure is provided to illustrate environmental structure that forms no part of the claimed design;

FIG. 3 is a rear view of the dumbbell support structure of FIG. 1, wherein the broken line structure is provided to illustrate environmental structure that forms no part of the claimed design;

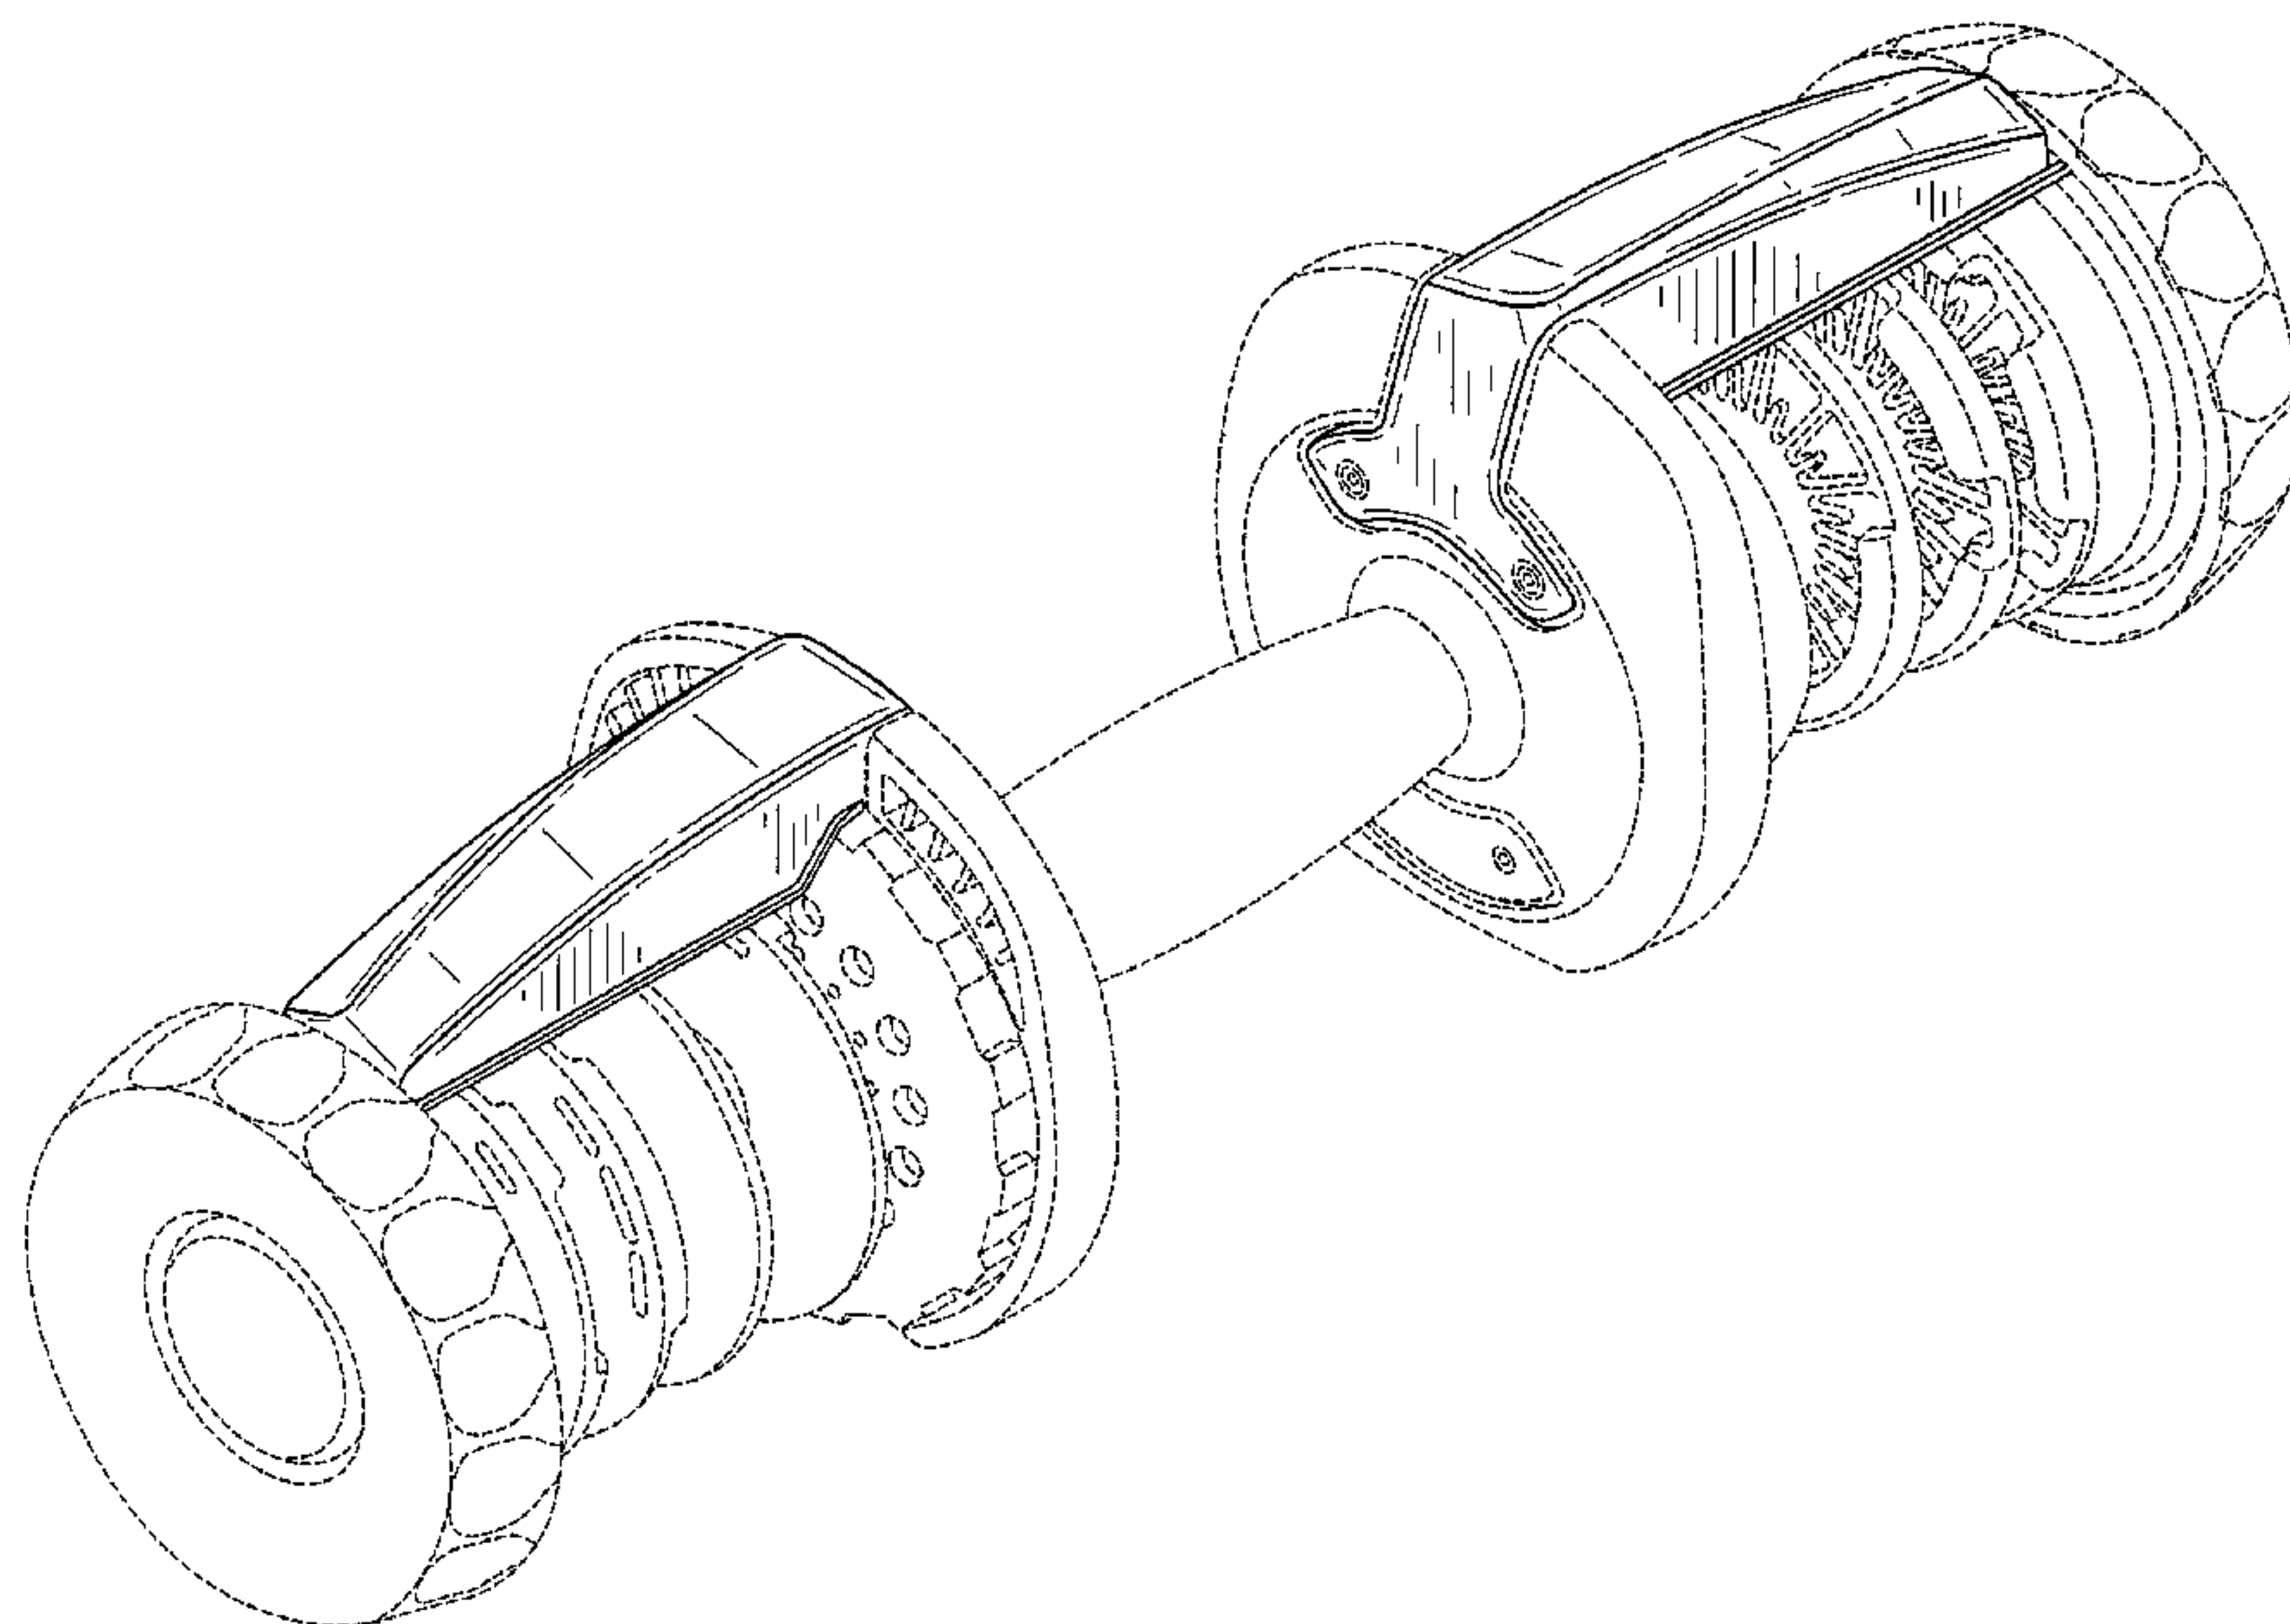

FIG. 4 is a right elevation view of the dumbbell support structure of FIG. 1, wherein the broken line structure is provided to illustrate environmental structure that forms no part of the claimed design;

FIG. 5 is a left elevation view of the dumbbell support structure of FIG. 1, wherein the broken line structure is provided to illustrate environmental structure that forms no part of the claimed design;

FIG. 6 is a top view of the dumbbell support structure of FIG. 1, wherein the broken line structure is provided to illustrate environmental structure that forms no part of the claimed design; and,

FIG. 7 is a bottom view of the dumbbell support structure of FIG. 1, wherein the broken line structure is provided to illustrate environmental structure that forms no part of the claimed design.
