(57) **CLAIM**

The ornamental design for a recreational towed vehicle camper, as shown in the drawings and as described herein.

FIG. 1 is an isometric view of the first side of the exterior of a recreational towed vehicle camper showing a first side, top and front of my new design.

FIG. 2 is an isometric view of the first side of the exterior of the recreational towed vehicle camper showing the curbside, top and rear my new design.

FIG. 3 is an isometric view of the second side of the exterior of the recreational towed vehicle camper showing the top and front my new design.

FIG. 4 is an isometric view of the first side of the exterior of the recreational towed vehicle camper showing the raised hood, storage area, front panels and first side of my new design.

FIG. 5 is an isometric view of the first side of the exterior of the recreational towed vehicle camper showing the first raised curbside gull wing door, storage space, raised rear door and tailgate of my new design;

FIG. 6 is an isometric view of the first side of the exterior of the recreational towed vehicle camper showing the raised curbside gull wing door, storage space with tray extending therefrom, raised rear door and tailgate of my new design.

FIG. 7 is an isometric view of the first side of the exterior of the recreational towed vehicle camper showing the first raised curbside gull wing door, storage space with tray extending therefrom, second curbside door second storage space, raised rear door and tailgate of my new design.

FIG. 8 is an isometric view of the second side of the exterior of the recreational towed vehicle camper showing a raised bonnet, a front panel missing, and the raised rear door of my new design.

FIG. 9 is an isometric view of the exterior of the recreational towed vehicle camper showing the rear with raised rear door and first side tailgates and second side tailgates and first side of my new design; and,

FIG. 10 is an isometric top view of the exterior of the recreational towed vehicle camper showing all of the doors of my new design in a raised position.
