(57) **CLAIM**

The ornamental design for a graphical user interface for a display screen of a communications terminal, as shown and described.

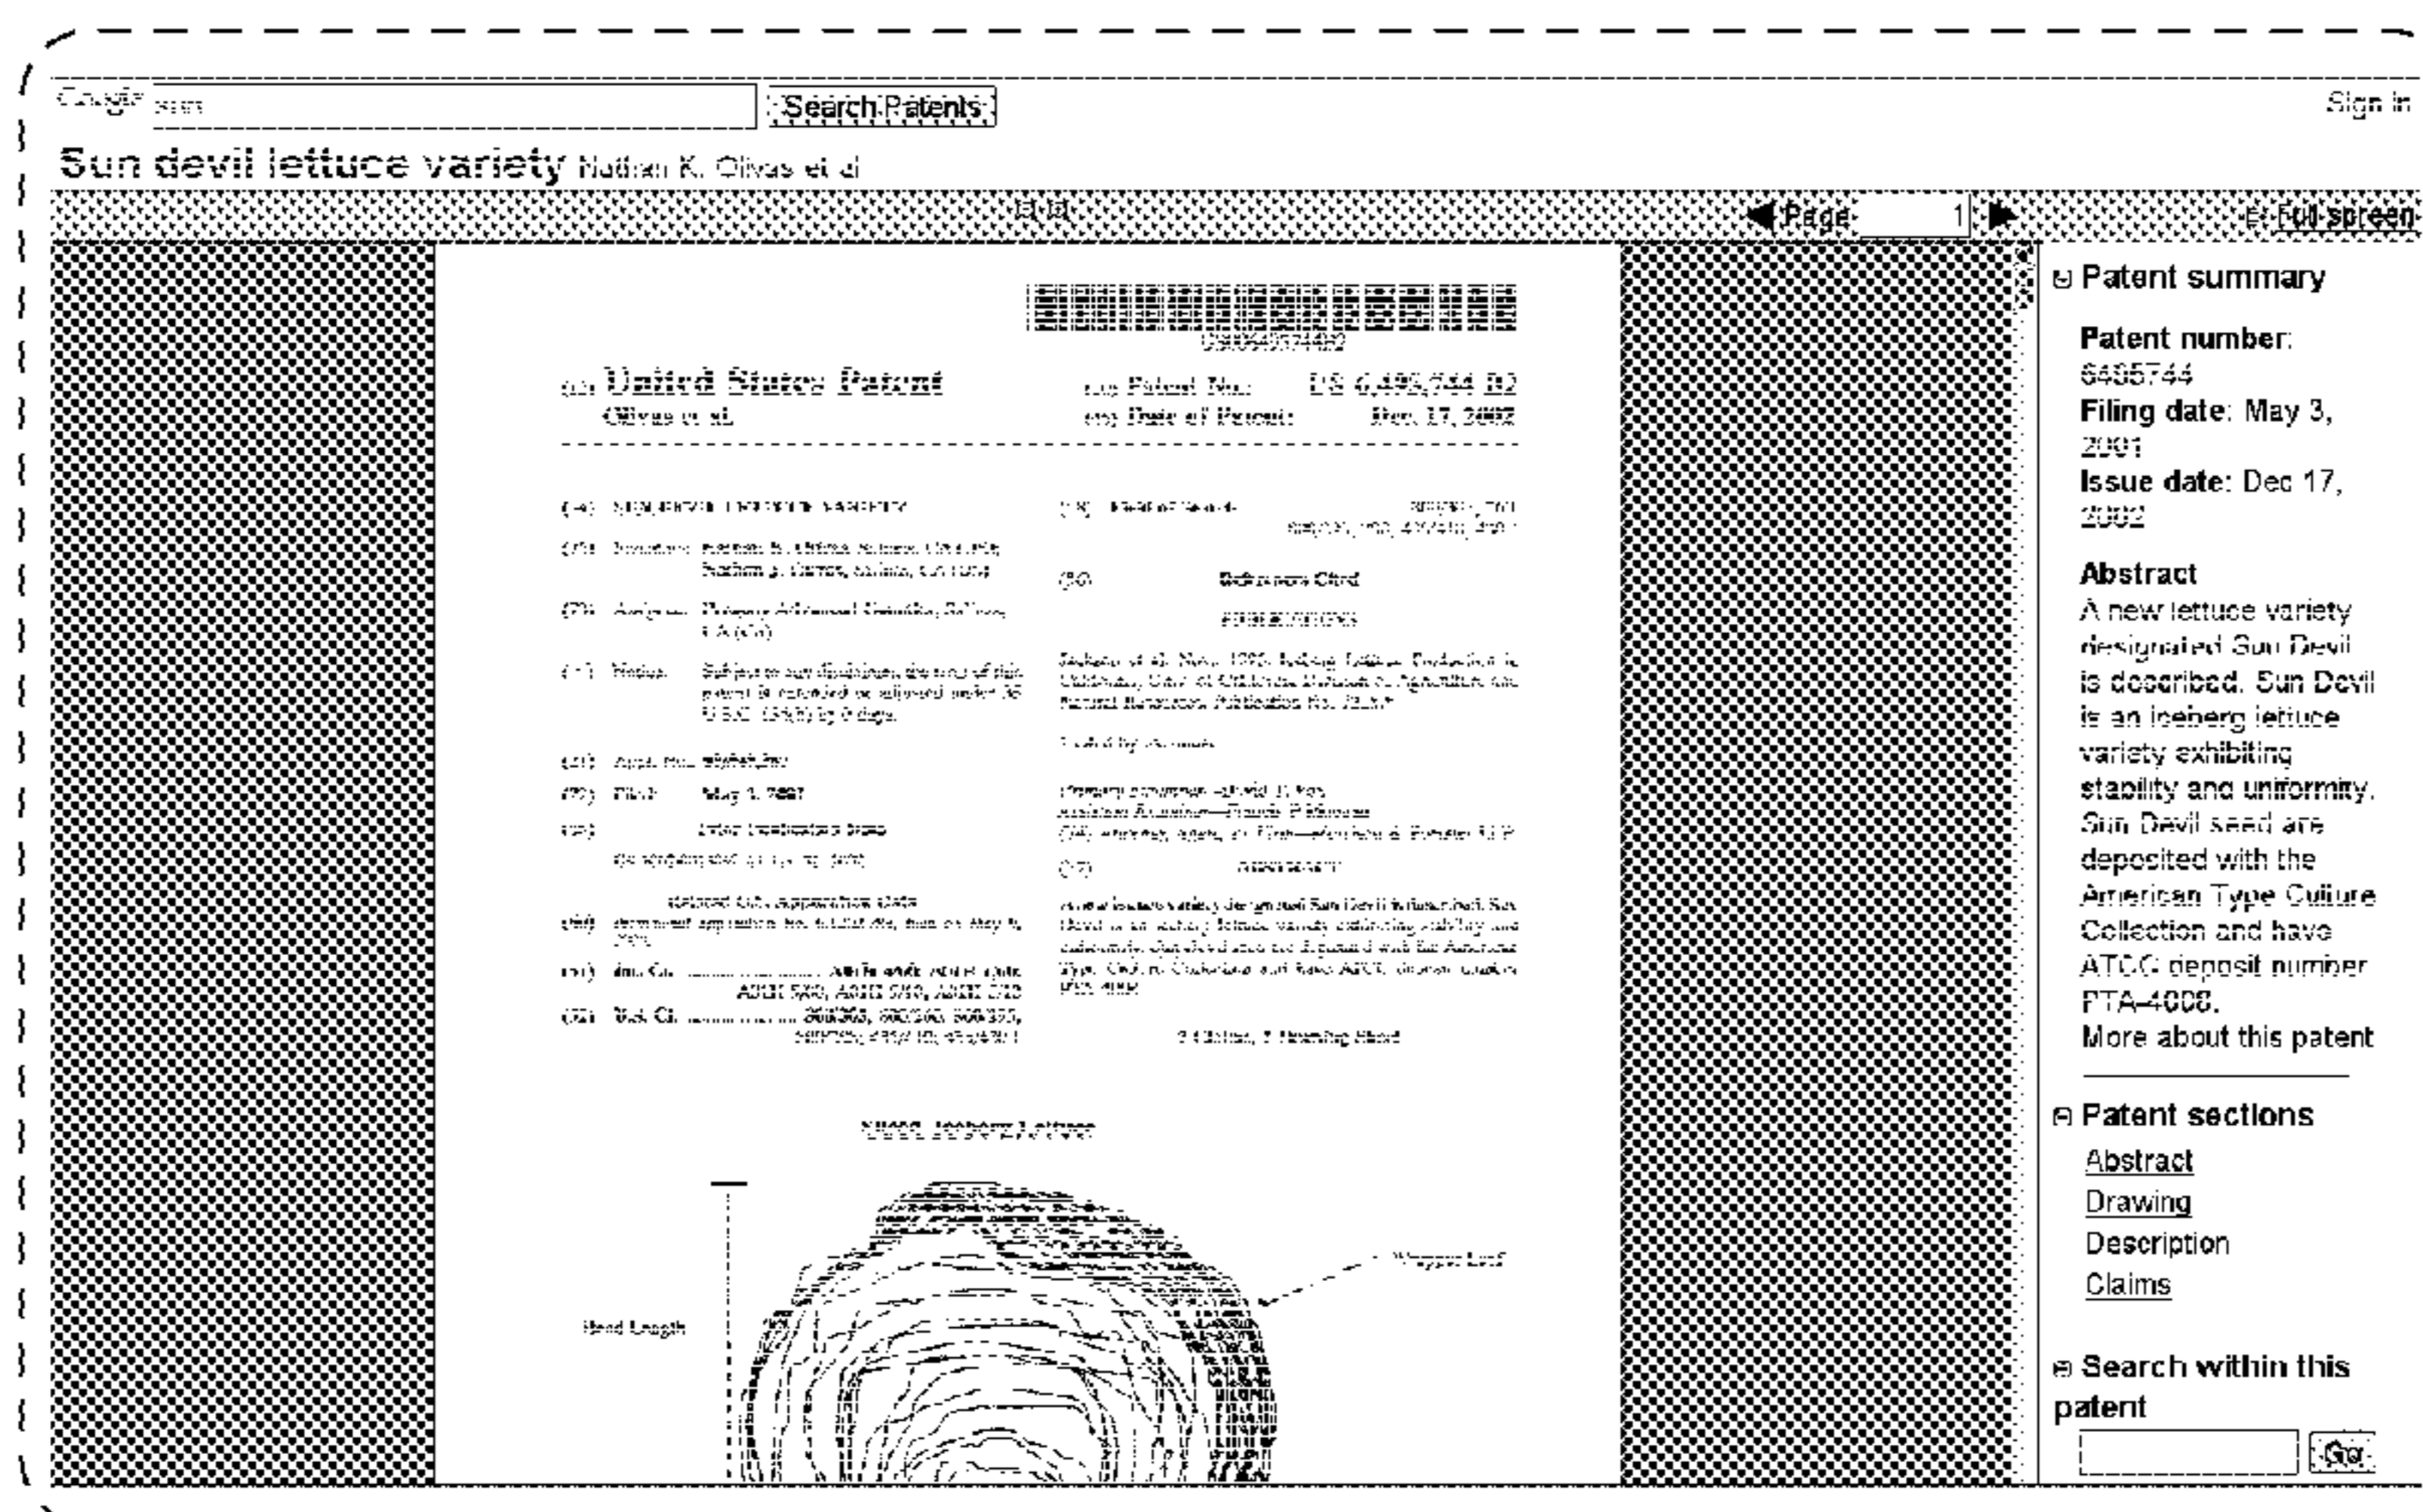

DESCRIPTION

A portion of the disclosure of this patent document contains material to which a claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the U.S. Patent and Trademark Office patent file or records, but reserves all other copyrights whatsoever.

The FIGURE is a front view of the graphical user interface for a display screen of a communications terminal.

The broken line showing of a display screen of a communications terminal is included for the purpose of illustrating environmental structure and forms no part of the claimed design. The text, text underlines and images shown in broken line form no part of the claimed design.
