(57) **CLAIM**

The ornamental design for a ring, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of a ring of the present invention, with the broken lines immediately adjacent to the claim representing its boundaries and all other broken lines representing unclaimed subject matter which form no part of the claimed design;

FIG. 2 is a front elevation view of the ring of FIG. 1, with the broken lines immediately adjacent to the claim representing its boundaries and all other broken lines representing unclaimed subject matter which form no part of the claimed design;

FIG. 3 is a top view of the ring of FIG. 1, with the broken lines representing the boundary of the design and forming no part thereof;

FIG. 4 is a right elevation view of the ring of FIG. 1, with the broken lines representing the boundary of the design and forming no part thereof, and, the left elevation view of the ring of FIG. 1 is a mirror image of the right elevation view of the ring shown in FIG. 4;

FIG. 5 is a rear elevation view of the ring of FIG. 1, with the broken lines representing the boundary of the design and forming no part thereof;

FIG. 6 is a bottom view of the ring of FIG. 1;

FIG. 7 is a front perspective view of another version of a ring of the present invention, with the broken lines immediately adjacent to the claim representing its boundaries and all other broken lines representing unclaimed subject matter which form no part of the claimed design;

FIG. 8 is a front elevation view of the ring of FIG. 7, with the broken lines immediately adjacent to the claim representing its boundaries and all other broken lines representing unclaimed subject matter which form no part of the claimed design;

FIG. 9 is a top view of the ring of FIG. 7, with the broken lines representing the boundary of the design and forming no part thereof;

FIG. 10 is a rear elevation view of the ring of FIG. 7, with the broken lines representing the boundary of the design and forming no part thereof;

FIG. 11 is a right elevation view of the ring of FIG. 7, with the broken lines representing the boundary of the design and forming no part thereof, and, the left elevation view of the ring of FIG. 7 is a mirror image of the right elevation view shown in FIG. 11; and,

FIG. 12 is a bottom view of the ring of FIG. 7.
