DESCRIPTION

FIG. 1 is a perspective view of a bell push device with the front surface facing the viewer.

FIG. 2 is a front elevation view of the bell push device oriented with the top of the device at the top of the page.

FIG. 3 is a left side elevation view of the bell push device.

FIG. 4 is a right side elevation view of the bell push device.

FIG. 5 is a top elevation view of the bell push device; and,

FIG. 6 is a bottom elevation view of the bell push device.

The rear view of the bell push device forms no part of the claimed design.

No claim is made to the texture or surface finish of the embodiments shown in the Figures.
