(57) **CLAIM**

The ornamental design for a load carrying element for a building facing, as shown and described.

DESCRIPTION

FIG. 1 is a first embodiment of the load carrying element for a building facing;

FIG. 2 is a Second embodiment of the load carrying element for a building facing;

FIG. 3 is a third embodiment of the load carrying element for a building facing;

FIG. 4 is a fourth embodiment of the load carrying element for a building facing;

FIG. 5 is a perspective view of a first embodiment with structure shown in broken lines to illustrate the environment in use, the broken lines not constituting subject matter of the claimed design; and

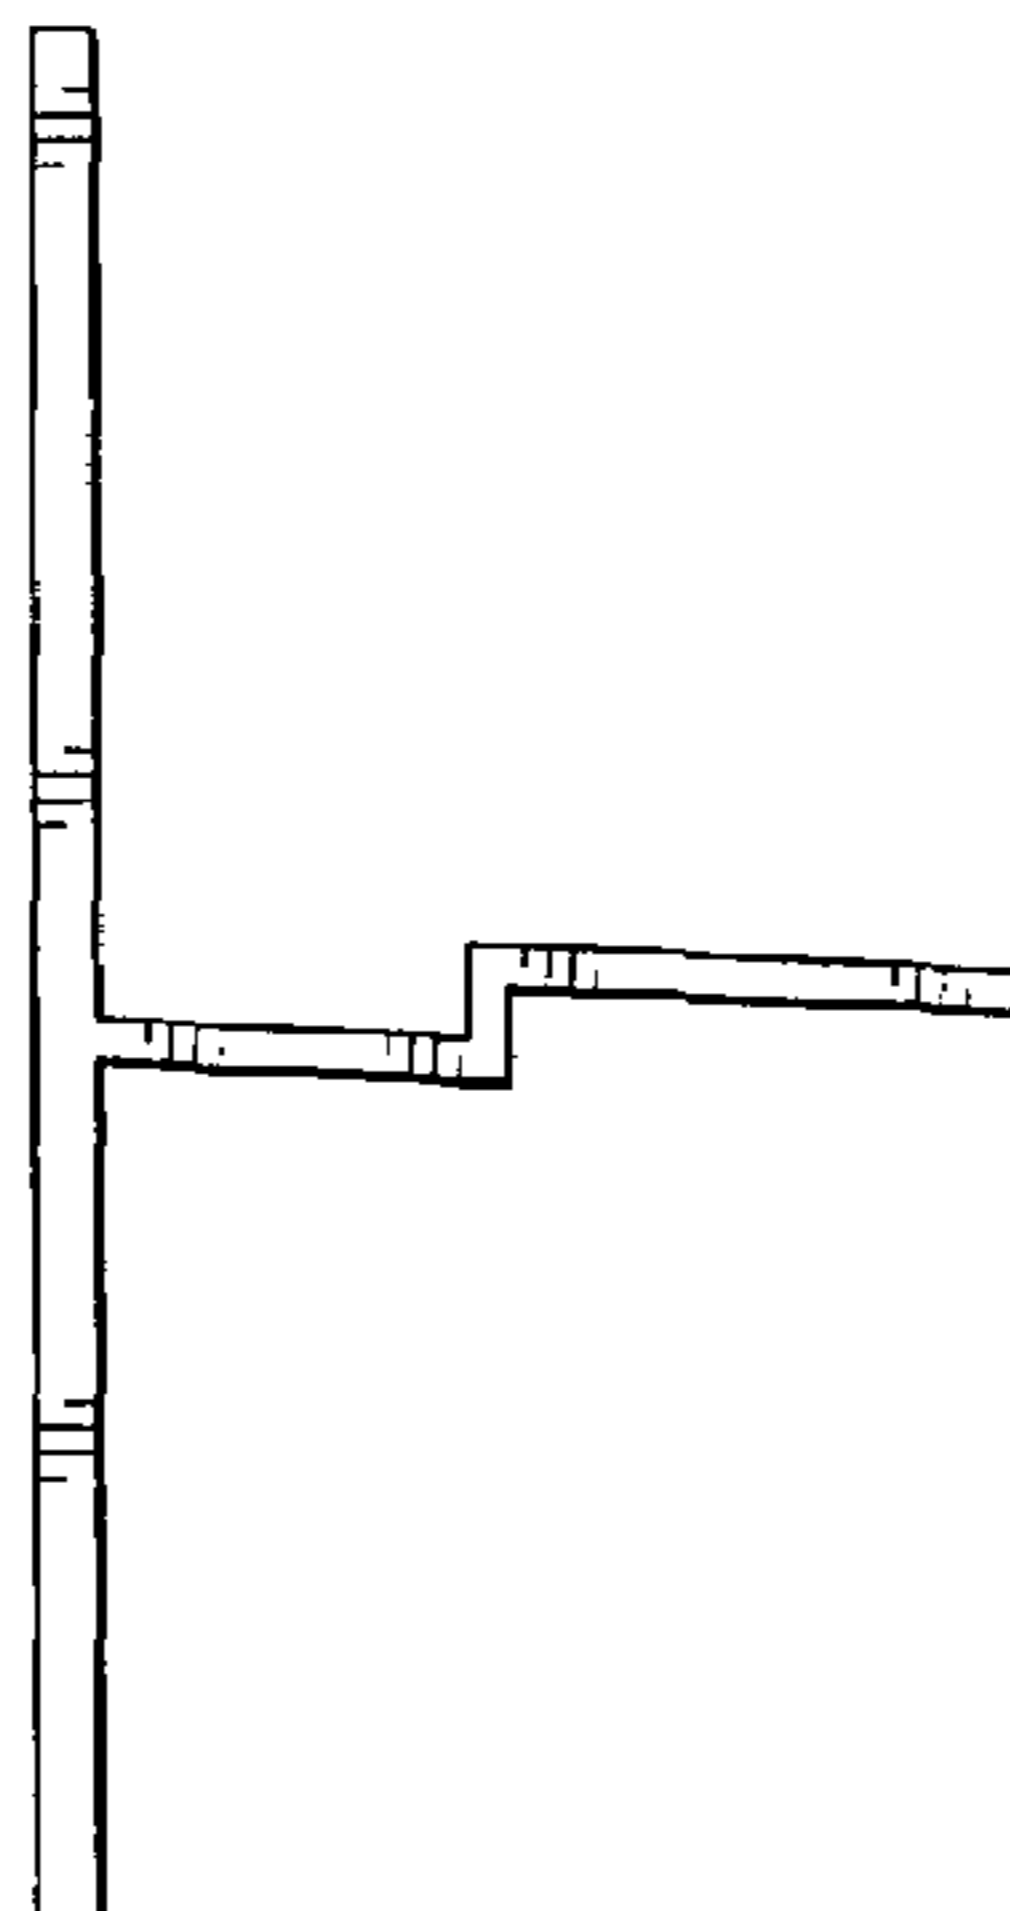

FIG. 6 is a perspective view of a second embodiment with structure shown in broken lines to illustrate the environment in use, the broken lines not constituting subject matter of the claimed design.

FIG. 7 is a perspective view of a third embodiment with structure shown in broken lines to illustrate the environment in use, the broken lines not constituting subject matter of the claimed design; and,

FIG. 8 is a perspective view of a fourth embodiment with structure shown in broken lines to illustrate the environment in use, the broken lines not constituting subject matter of the claimed design.

The broken line showing of various load carrying elements and the covering elements for a building facing is included for the purpose of illustrating environment and forms no part of the claimed design.
