DESCRIPTION

Additionally, for purposes of facilitating understanding of the context and usage of the apparatus for which design protection is claimed herein, reference is hereby made to U.S. patent application Ser. No. 12/126,924, which published as U.S. Patent Application Publication No. 2008/0318743 on Dec. 25, 2008, which patent application and patent application publication are each incorporated herein by reference. All of the material from application Ser. No. 12/126,924 or corresponding publication No. 2008/0318743 which is essential to the claimed design is included in this application. Any material in application Ser. No. 12/126,924 or corresponding publication No. 2008/0318743 which is not present in this application forms no part of the claimed design.

FIG. 1 is a perspective view of an exercise assembly showing my new design, wherein said view is further representative of the opposite perspective view thereof;

FIG. 2 is a plan view of the top of the exercise assembly of FIG. 1.

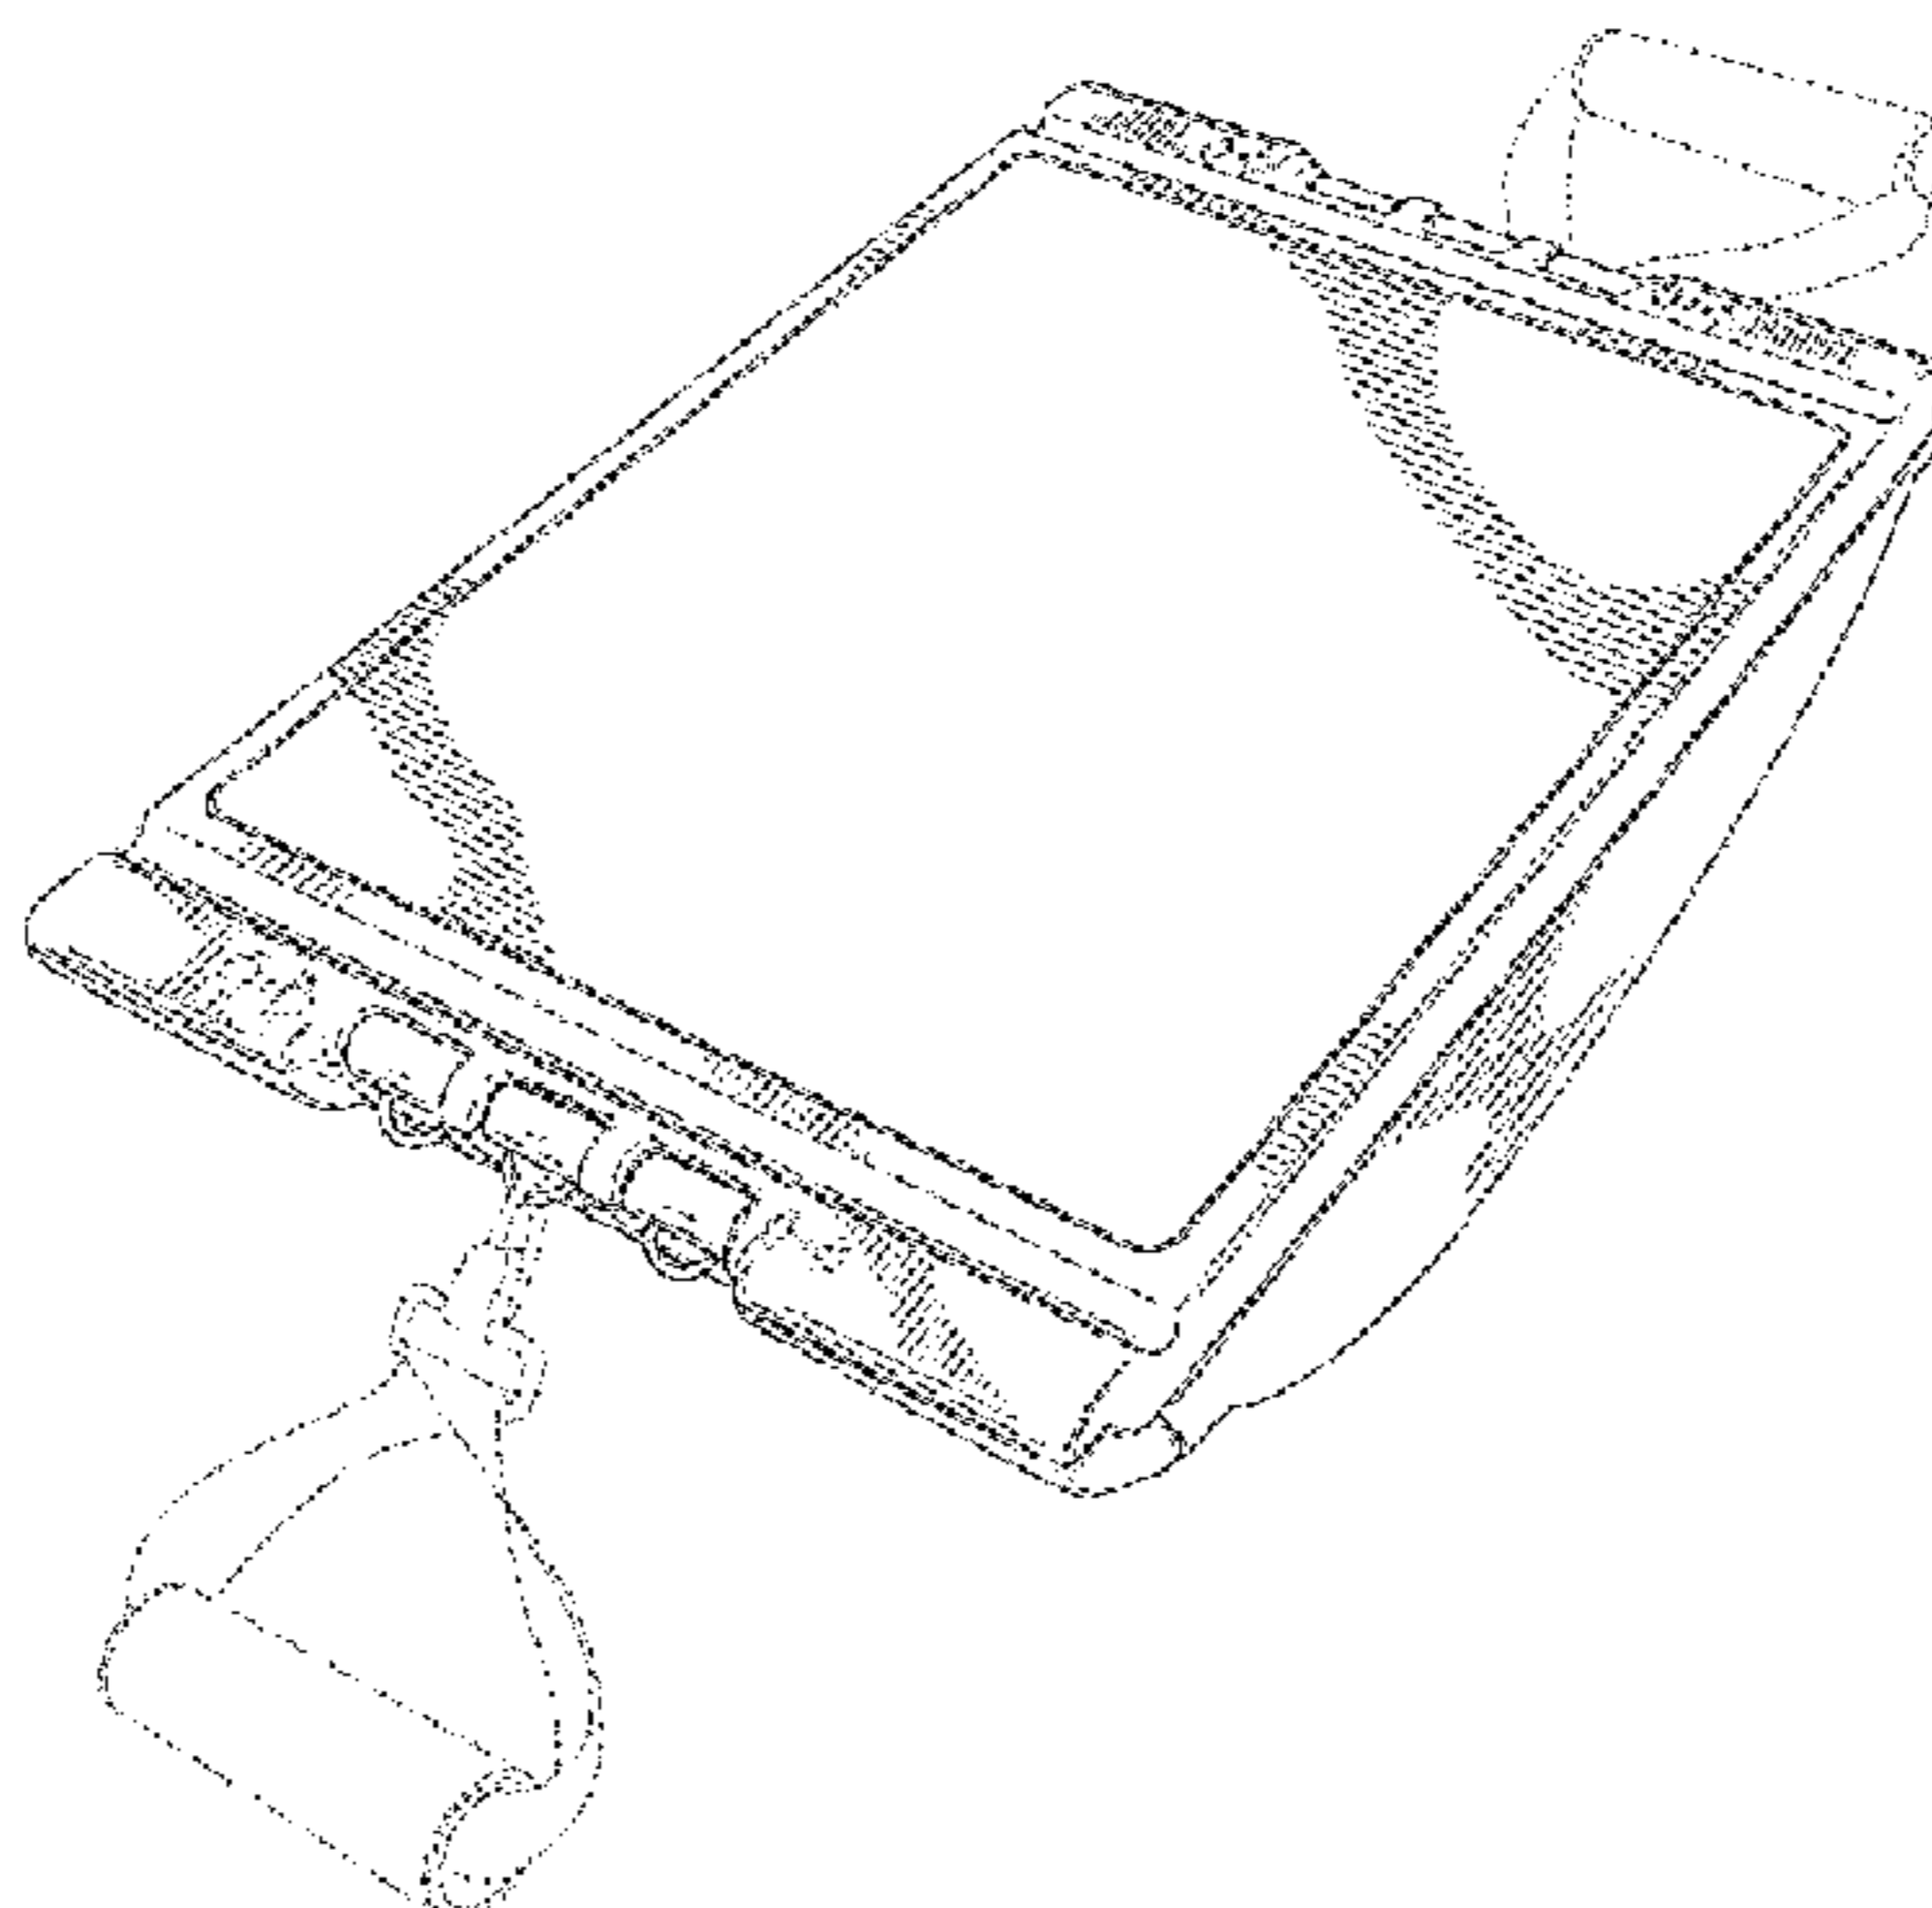

FIG. 3 is a front elevational view of the exercise assembly of FIG. 1, wherein said view is further representative of the rear elevational view thereof; and,

FIG. 4 is a perspective environmental view of the exercise assembly of FIG. 1 showing the unclaimed handles and resistance bands attached, wherein said view is further representative of the opposite perspective view thereof.

Broken lines shown in the drawings form no part of the design for which protection is claimed herein. Furthermore, any portions of the exercise assembly not shown form no part of the claimed design.

All of the material from application 12/126,924 which is essential to the claimed design is included in this application. Any material in application 12/126,924 which is not present in this application forms no part of the claimed design.
