(57) **CLAIM**

The ornamental design for a display housing for a video inspection devices, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an exemplary video inspection device which embodies a display housing in accordance with the present design;

FIG. 2 is a perspective view of a first embodiment of the display housing;

FIG. 3 is a front view of the first embodiment of the display housing;

FIG. 4 is a back view of the first embodiment of the display housing;

FIG. 5 is a top view of the first embodiment of the display housing;

FIG. 6 is a bottom view of the first embodiment of the display housing;

FIG. 7 is a side view of the first embodiment of the display housing, the other side view being a mirror image thereof;

FIG. 8 is a perspective view of the first embodiment of the display housing with the detachable manipulator separated from the display housing;

FIG. 9 is a view of the first embodiment of the display housing showing the side that attaches to the manipulator;

FIG. 10 is a view of the manipulator showing the side that attaches to the display housing;

FIG. 11 is a perspective view of a second embodiment of the display housing;

FIG. 12 is a front view of the second embodiment of the display housing;

FIG. 13 is a back view of the second embodiment of the display housing;

FIG. **14** is a top view of the second embodiment of the display housing;

FIG. **15** is a bottom view of the second embodiment of the display housing;

FIG. **16** is a side view of the second embodiment of the display housing, the other side view being a mirror image thereof;

FIG. **17** is a perspective view of the second embodiment of the display housing with the detachable manipulator separated from the display housing;

FIG. **18** is a view of the second embodiment of the display housing showing the side that attaches to the manipulator; and,

FIG. **19** is a view of the manipulator showing the side that attaches to the second embodiment of the display housing.

It is to be understood that those portions of the display housing shown in broken line in the accompanying figures do not constitute an integral part of the claimed design and, therefore, are disclaimed as part of the claimed design.
