(12) **United States Design Patent**  
**Phelps et al.**

(10) **Patent No.:** **US D606,618 S**  
(45) **Date of Patent:** **\*\* Dec. 22, 2009**

(54) **MULTI-ARM SPINNER BAIT**

(57) **CLAIM**

(75) Inventors: **Kevin P. Phelps**, New Market, MD  
(US); **Jeffrey T. Whittle**, Glenwood,  
MD (US)

The ornamental design for a multi-arm spinner bait, as shown  
and described.

(73) Assignee: **Phelps and Whittle Bass Lures, LLC**,  
New Market, MD (US)

**DESCRIPTION**

(\*\*) Term: **14 Years**

FIG. 1 is a perspective drawing showing front, right side and  
top views of my new design for a multi-arm spinner bait and  
wherein the left side and bottom views of the hook and lure  
head piece of the bait are mirror images.

(21) Appl. No.: **29/313,353**

FIG. 2 is a perspective drawing of the spinner bait of FIG. 1  
showing rear, right side and top views of my new design for a  
multi-arm spinner bait and wherein the left side and bottom  
views of the hook and lure head piece of the bait are mirror  
images.

(22) Filed: **Dec. 30, 2008**

(51) **LOC (9) Cl.** ..... **22-05**

(52) **U.S. Cl.** ..... **D22/128**

(58) **Field of Classification Search** ..... D22/126–133;  
43/42.34, 42.32, 42.39, 42.36, 42.08, 42.09,  
43/42.31, 42.25, 42.13, 42.11, 42.17, 42.53  
See application file for complete search history.

FIG. 3 is a perspective drawing of a first alternative spinner  
bait design showing front, right side and top views of my new  
design for a multi-arm spinner bait and wherein the left side  
and bottom views of the hook and lure head piece of the bait  
are mirror images.

FIG. 4 is a perspective drawing of the spinner bait of FIG. 3  
showing rear, right side and top views of my new design for a  
multi-arm spinner bait and wherein the left side and bottom  
views of the hook and lure head piece of the bait are mirror  
images.

FIG. 5 is a perspective drawing of a second alternative spinner  
bait design showing front, right side and top views of my new  
design for a multi-arm spinner bait and wherein the left side  
and bottom views of the hook and lure head piece of the bait  
are mirror images.

FIG. 6 is a perspective drawing of the spinner bait of FIG. 5  
showing rear, right side and top views of my new design for a  
multi-arm spinner bait and wherein the left side and bottom  
views of the hook and lure head piece of the bait are mirror  
images.

FIG. 7 is a perspective drawing of a third alternative spinner  
bait design showing front, right side and top views of my new  
design for a multi-arm spinner bait and wherein the left side  
and bottom views of the hook and lure head piece of the bait  
are mirror images.

FIG. 8 is a perspective drawing of the spinner bait of FIG. 7  
showing rear, right side and top views of my new design for a

multi-arm spinner bait and wherein the left side and bottom views of the hook and lure head piece of the bait are mirror images.

FIG. 9 is a perspective drawing of a fourth alternative spinner bait design showing front, right side and top views of my new design for a multi-arm spinner bait and wherein the left side and bottom views of the hook and lure head piece of the bait are mirror images.

FIG. 10 is a perspective drawing of the spinner bait of FIG. 9 showing rear, right side and top views of my new design for a multi-arm spinner bait and wherein the left side and bottom views of the hook and lure head piece of the bait are mirror images.

FIG. 11 is a perspective drawing of a fifth alternative spinner bait design showing front, right side and top views of my new design for a multi-arm spinner bait and wherein the left side and bottom views of the hook and lure head piece of the bait are mirror images.

FIG. 12 is a perspective drawing of the spinner bait of FIG. 11 showing rear, right side and top views of my new design for a multi-arm spinner bait and wherein the left side and bottom views of the hook and lure head piece of the bait are mirror images.

FIG. 13 is a perspective drawing of a sixth alternative spinner bait design showing front, right side and bottom views of my new design for a multi-arm spinner bait and wherein the left side and top views of the hook and lure head piece of the bait are mirror images.

FIG. 14 is a perspective drawing of the spinner bait of FIG. 13 showing rear, right side and bottom views of my new design for a multi-arm spinner bait and wherein the rear, left side and top views of the hook and lure head piece of the bait are mirror images.

FIG. 15 is a perspective drawing of a seventh alternative spinner bait design showing front, right side and bottom views of my new design for a multi-arm spinner bait and wherein the rear, left side and top views of the hook and lure head piece of the bait are mirror images.

FIG. 16 is a perspective drawing of the spinner bait of FIG. 15 showing rear, right side and bottom views of my new design for a multi-arm spinner bait and wherein the front, left side and top views of the hook and lure head piece of the bait are mirror images.

FIG. 17 is a perspective drawing of a eighth alternative spinner bait design showing front, right side and bottom views of my new design for a multi-arm spinner bait and wherein the rear, left side and top views of the hook and lure head piece of the bait are mirror images.

FIG. 18 is a perspective drawing of the spinner bait of FIG. 17 showing rear, right side and bottom views of my new design for a multi-arm spinner bait and wherein the front, left side and top views of the hook and lure head piece of the bait are mirror images.

FIG. 19 is a perspective drawing of a ninth alternative spinner bait design showing front, right side and bottom views of my new design for a multi-arm spinner bait and wherein the rear, left side and top views of the hook and lure head piece of the bait are mirror images; and,

FIG. 20 is a perspective drawing of the spinner bait of FIG. 19 showing rear, right side and bottom views of my new design for a multi-arm spinner bait and wherein the front, left side and top views of the hook and lure head piece of the bait are mirror images.
