(57) **CLAIM**

The ornamental design for a high definition multimedia inter-
face connector retention apparatus, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the high definition multimedia
interface connector retention apparatus showing my new
design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a left side elevational view thereof, the right side
elevational view being a mirror image;

FIG. 4 is a top plan view thereof;

FIG. 5 is a bottom plan view thereof; and,

FIG. 6 is a rear elevational view thereof.

Any broken line illustration of environmental structure in the
drawings is not part of the design sought to be patented.

Portions of the claimed design are shown separated and
bound by a bracket to indicate that no particular length is
being claimed.
