(57) **CLAIM**

The ornamental design for an interface for interrupter for irrigation controller, as shown and described.

DESCRIPTION

FIG. 1 is a plan view of a user interface for an interrupter for an irrigation controller of the present invention. The user interface is illustrated within an interrupter shown in broken lines which forms no part of the invention, with a front panel of the interrupter open.

FIG. 2 is a plan view of an interface for an interrupter for an irrigation controller illustrated within an interrupter shown in broken lines which forms no part of the invention, with a front panel of the interrupter closed.

FIG. 3 is a top perspective view of a user interface for an interrupter for an irrigation controller of the present invention. The user interface is illustrated within an interrupter shown in broken lines which forms no part of the invention, with a front panel of the interrupter open.

FIG. 4 is a top perspective view of an interface for an interrupter for an irrigation controller illustrated within an interrupter shown in broken lines which forms no part of the invention, with a front panel of the interrupter closed; and,

FIG. 5 is an isolated plan view of an interface for an interrupter for an irrigation controller.

The broken line showing is for illustrative purposes and forms no part of the claimed design.
