(57) **CLAIM**

The ornamental design for a catheter anchor pad with release layer, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of the catheter anchor pad with release layer, shown with the release layers in a spread position.

FIG. **2** is a top view of the catheter anchor pad with release layer, shown in the neutral position.

FIG. **3** is a bottom view of the catheter anchor pad with release layer, shown in the neutral position.

FIG. **4** is a left side view of the catheter anchor pad with release layer, shown in the neutral position, the right side view being a mirror image.

FIG. **5** is a front view of the catheter anchor pad with release layer, shown in the neutral position, the rear view being a mirror image.

FIG. **6** is a perspective view of the catheter anchor pad with the release layer removed, shown in the neutral position.

FIG. **7** is a perspective view of the catheter anchor pad with the release layer removed, shown in the active position surrounding a tube. The tube is illustrated in dashed lines as it forms no part of the invention.

FIG. **8** is a top view of the catheter anchor pad with the release layer removed, shown in the neutral position.

FIG. **9** is a bottom view of the catheter anchor pad with release layer removed, shown in the neutral position.

FIG. **10** is a left side view of the catheter anchor pad with release layer removed, shown in the neutral position, the right side view being a mirror image; and,

FIG. **11** is a front view of the catheter anchor pad with release layer removed, shown in the neutral position, the rear view being a mirror image.
