(57) **CLAIM**

The ornamental design for a riding mower ramp, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of a riding mower ramp showing our new design, with the projections on the upper tire-engaging surface, the ground-engaging flange, the nesting sockets, and the traction-enhancing features being shown in broken lines for illustrative purposes only and forming no part of the claimed design;

FIG. 2 is a bottom perspective view of the riding mower ramp depicted in FIG. 1, with the internal spacing walls and a number of other constructional details being shown in broken lines for illustrative purposes only and forming no part of the claimed design;

FIG. 3 is a right side elevation view of the riding mower ramp depicted in FIGS. 1 and 2, with the left side elevation being a mirror image thereof;

FIG. 4 is a front elevation view thereof;

FIG. 5 is a rear elevation view thereof;

FIG. 6 is a top elevation view thereof;

FIG. 7 is a bottom elevation view thereof;

FIG. 8 is a top perspective view of a second embodiment of a riding mower ramp showing our new design, with the projections on the upper tire-engaging surface, the ground-engaging flange, the nesting sockets, and the traction-enhancing features being shown in broken lines for illustrative purposes only and forming no part of the claimed design;

FIG. 9 is a bottom perspective view of the riding mower ramp depicted in FIG. 8, with the internal spacing walls and a number of other constructional details being shown in broken lines for illustrative purposes only and forming no part of the claimed design;

FIG. 10 is a right side elevation view of the riding mower ramp depicted in FIGS. 8 and 9, with the left side elevation being a mirror image thereof;

FIG. 11 is a front elevation view thereof;

FIG. 12 is a rear elevation view thereof;

FIG. 13 is a top elevation view thereof; and,

FIG. 14 is a bottom elevation view thereof.
